- End of day – concerns with the mass amounts of volunteers showing up and wanting to help. This can cause logistical issues but staff was working to get additional tasks for volunteers outside of the WRTs. We will continue to work on ways to involve more volunteers.

- *Additional person NG team for warehouse support approved.*
- Information reported to the JIC:

    - As of 1/20/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. 29,317 homes visited by the FWRTs to date.

2. Distributed: Includes outstanding hard copy data from yesterday (PODs after 5 pm, ARC worksheets and local EOC hotshots).
    a. Number of cases of water 90,337
    b. Filters 73,229
    c. Filter cartridges 185,852
    d. Test kits 19,866

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 111,630 (additional 18,502 donated)
    b. Filters 115,700
    c. Filter cartridges 243,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. National Guard (ype 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Addressed reports of water contamination in distributed bottled and canned water. *Confirmed that water is* safe to drink through testing by MDEQ. Coordinating with JIC and MDEQ for improved public information on the issue.
- Identifying options to reroute unsolicited offers for supplies and services outside of the EOC. Coordinating to set up 800 number.
- Attended meeting with Flint & Genesee Chamber of Commerce to discuss coordination of efforts, representation at EOC, and improved messaging.
- Attended meeting with Community Foundation of Greater Flint to discuss coordination of neighborhood groups and improved messaging.
- Coordinated with MDARD to provide additional lead testing at restaurants, and signage for safe locations.
- Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment.
- Coordinated and verified deliveries of supplies to apartment complexes.
- Discussed logistics requirements of delivery requests for homebound residents with SEOC Logistics.

Chris

Update 1/19/16 – 15th Day (14th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Prepare plans for next phase of operation – Second sweep of city

Attached Documents:

- SitRep 14

Status on Governor's request letter to the President:

- Emergency declaration received.
- Appeal letter pending.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have National Guard, type 3 teams (, with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed state/local teams and 11 ARC Flint Water Response Teams to the field today.
- Messaging being developed for concerns regarding the Total Dissolved Solids (TDS) meters and citizens' concerns with those meters indicating "lead" in bottled water. Testing of water to be done by DEQ to ensure we have solid messaging.
- DTMB is working to secure space in Flint for FEMA staff.
- Press release went out this afternoon to announce that the US Department of Health and Human Services will lead the federal response in Flint. Capt. Kelenske to meet with Dr. Nicole Lurie, HHS Assistant Secretary for Preparedness and Response (ASPR), on Thursday. The goal of the federal response will be to help state and local leaders identify the size and scope of the problem, and work with them to make and execute a plan for mitigation of the short- and long-term health effects of lead exposure.
- Additional NG personnel being requested to assist with Warehouse inventories.
- NG personnel on the ground with the WRTs tomorrow with more transitioning in.
- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
- LG is going to be in Flint working at one of the PODs on Wednesday.
- Information reported to the JIC:

  - As of 1/19/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. 22,129 homes visited by the FWRTs to date.

2. Distributed: Includes outstanding data from yesterday - PODs after 5 pm, ARC worksheets and local EOC hotshots.
   a. Number of cases of water 77,794
   b. Filters 69,730
   c. Filter cartridges 184,457
   d. Test kits 16,671

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 95,760 (additional 16,056 donated)
    b. Filters 115,700
    c. Filter cartridges 243,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. National Guard ;) type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Attended public health group meeting with GCHD, City of Flint Water Department and MDEQ to discuss water test information being returned to residents, to allow residents a greater understanding of results.
- Attended recycling/trash management group meeting with DEQ, Republic Services, Keep Genesee County Beautiful and Genesee County Planning Commission. Provided projections on current and anticipated bottle distributions.
- Coordinated deliveries of supplies to faith-based organizations, apartment complexes and homebound residents.
- Coordinated with Comcast to set up locations for distribution of filters (distributed 60 filters on 01/19/2016).

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/18/16 – 14th Day (13th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs) and PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.
- Complete appeal for Presidential Major Disaster Declaration denial.

Attached Documents:

- SitRep 13
- Side by side comparison of homes with filters January 13th compared to January 18th. This should be hitting the media tonight. This took longer to create than I wanted but is the image I have wanted to show progress of getting filters in to the field.

Status on Governor's request letter to the President:

- Appeal in process.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have state/local agency, type 3 teams i), with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
  - NG will be bringing in personnel to prep for surge.

Items to Note

- Beginning tomorrow the operational periods will be 7 days long.
- The CDC/ATSDR (Agency for Toxic Substances Disease Registry) has deployed a team to Michigan.
- An Arabic version of the palm card was reviewed and approved. This was developed via Arab American and Chaldean Council.
- Deployed 12 state/local teams and 10 ARC Flint Water Response Teams to the field today.
- DTMB is working to secure space in Flint for FEMA staff.
- Cost analysis to investigate if it would be more cost effective for FEMA to purchase water vs the SOM.
- ARC news release concerning the Volunteer Reception Center (VRC) sent out today.
- Media availability conducted today at 3pm at the VRC.
- Since 1/14/16 Michigan 2-1-1 has received three direct reports of bottled water testing positive for lead. DHHS SEOC Desk and DEQ SEOC Desk was able to contact two of the callers. The Zero Water filter (pitcher) has a handheld test device so people know when to change the filter. This TDS Meter measures dissolved solids (it is not a lead test). This was explained and we are going to work on messaging to ensure this does not cause issues. Dissolved solids are in all water. The water from the callers is going to be tested and a case of water from one of the companies will also be sent to DEQ for testing. Brands are Spartan Spring Water and Canned Water for Kids. The filter company is also going to work on messaging and work with us on this matter.
- Information reported to the JIC:

  - As of 1/17/16 as of 5 pm (start date was Tuesday, 1/12/16)

1. 21,393 homes visited by the FWRTs to date.

2. *Distributed:*
   a. Number of cases of water 37,313
   b. Filters 53,713
   c. Filter cartridges 169,520
   d. Test kits 7,379

3. Total number of customers on the Flint water system
   a. 29,944 paying customers
   b. 45,000 hookups (This is our high end target #)
   c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
   a. Cases of water 82,992 (additional 16,056 donated)
   b. Filters 115,700
   c. Filter cartridges 243,200
   d. Test kits 61,161

5. Teams going out tomorrow:
   a. State type 3 teams---Goal tomorrow 300 homes per team
   b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Continuing to work with faith based organization to distribute resources.
- Working with colleges to obtain volunteers for canvassing.

Chris

Update 1/17/16 – 13th Day (12th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs), PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.

Attached Documents:

- SitRep 12

Status on Governor's request letter to the President:

- Emergency declaration received.
  - Limited to direct assistance so we will need to ask for the Individual Housing Program but that is something I will work on with FEMA.
- Major disaster declaration denied. The appeal is being developed with a draft to Paul Smith by later afternoon 1/18/16.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have state agency, type 3 teams (, with a goal of 300 homes per team.
  - We will have 12 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed 11 state/local teams and 10 ARC Flint Water Response Teams to the field today.
  - 4,963 homes visited today.

01/16/16

01/17/16

- Information reported to the JIC:

    - As of 1/17/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 16,353 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received from prior to the SEOC activation (trying to validate the data) plus the PODs and door to door operations since activation.

2. Distributed:
    a. Number of cases of water 27,195
    b. Filters 50,432
    c. Filter cartridges 168,605
    d. Test kits 4,861

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 57,456 (additional 12,884 donated)
    b. Filters 108,520
    c. Filter cartridges 239,081
    d. Test kits 28,901

5. Teams going out tomorrow:
    a. State type 3 teams---Goal tomorrow 300 homes per team
    b. 12 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Facilitated activation of the Genesee County/Genesee Health System MOU for mental health services.
- Coordinated supplies for distribution to students at the U of M Flint campus.
- Still concerned about people going to every fire station and collecting water/filters.
- Coordinated trash pickup at Fire Station PODs with the City Liaison officer.
- Coordinated hotshot deliveries of supplies to home bound population.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/16/16 – 12th Day (11th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to prepare for engagement following the Presidential Emergency declaration

Attached Documents:

- SitRep 11

Status on Governor's request letter to the President:

- Emergency declaration received. Federal Coordinating Officer (FCO) is David Samaneigo (Sam) who has been my LNO from FEMA. We began discussions on a transition to FEMA support last night. His team is headed to MI at this time and we will have our first coordination meeting on Sunday.
- The request for a Declaration of a Major Disaster was denied. FEMA advised this event does not fit the legal definition of a major disaster (natural incident or fire, flood, or explosion). This information has been provided since prior to the event to elected officials in Flint and the legislature. We are reviewing the chances for an appeal and I have already discussed this with the FCO.

Key items for tomorrow to note:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have state agency, type 3 teams), with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- I will be back on duty Sunday.
- We have been working with some of the churches. Contact was made with 14 churches for Sunday distributions. Interaction with the pastors has been very positive.
- A logistics briefing will be provided to see how many more teams we can put in the field.

Items to Note

- LT Gov visited the local EOC today; discussed local EOC operations.
- Deployed 11 state teams and 10 ARC Flint Water Response Teams to the field today.
- DEQ sampling kits are now being received at the PODs.
- DEQ sampled two Head Start facilities and worked with GIS to obtain future sample sites.
- The Freeman School pilot was delayed due to some parts not arriving as scheduled. Testing was to be done Sunday but may not occur until Monday.
- NG will have a total of personnel in the PODs for distribution. Mission has not changed.
  - NG soldiers have been in the PODS. more processing in tomorrow with start date of 1/18 in the PODS. The TAG and I will be discussing future use of NG personnel door to door next week.
- Information reported to the JIC:

  - As of 1/16/16 7pm (start date was Tuesday, 1/12/16)

1. 11,324 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received prior to the SEOC activation plus the PODs and door to door operations since activation. 3,850 homes were visited today (4,000 was the goal).

2. Distributed:
   a. Number of cases of water 20,876
   b. Filters 47,935
   c. Filter cartridges 167,401
   d. Test kits 3,322

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 57,456 (additional 12,884 donated)
    b. Filters 108,520
    c. Filter cartridges 239,081
    d. Test kits 28,901

5. Teams going out tomorrow:
    a. State ype 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Provided direction to Operations and Logistics Section to initiate water sample collection at PODs.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional churches were supplied with water, filters and test kits.
- Still concerned about people going to every fire station and collecting water/filters.
- Station #6 (POD) has associated safety concerns due to proximity of street and lack of suitable parking. We are working to resolve.

Subject: SEOC Update 1/15/16 - Flint Water - Limited Distribution

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/15/16 – 11th Day (10th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Pilot the logistics plan and adjust as needed
- Continue with door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to ensure we get a Presidential Declaration of a Major Disaster and Emergency

Attached Documents:

- SitRep 10

Status on Governor's request letter to the President:

- All documents for the presidential request have been submitted to FEMA. Numerous calls and meetings took place between me and FEMA today.
- When we get the declaration(s) ... I will set up a legislative/congressional call to explain and provide bullet points as to what programs we will received. The Federal Coordinating Officer assigned will also be with me to answer questions. This has helped in the past.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have state agency, type 3 teams ( ), with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
  - A pilot team was used to test our logistics plan today and with 60% strength they had 160% output (830 homes).
- I will be off tomorrow but available by cell. Tony Katarsky will be SEOC State Director. I will be back in on Sunday.

Items to Note

- LT Gov visited the local EOC and SEOC today. He was able to hear our final briefing for the day.
- Held a short session managing stress with SEOC staff. Two handouts were put in MICIMS for all state and local personnel to view.
- Deployed 10 state teams and 5 ARC Flint Water Response Teams to the field today.
- Standing requirements were created for the JIC so we can get information to the media every day. Below are the current ones we have in place and we should have something out tonight according to the JIC.

  - As of 1/15/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 7474 homes visited by the FWRTs. We believe we have ~24,000 homes with filters but are trying to validate that information. This is form the data we received from prior to the SEOC activation plus the PODs and door to door operations since activation.

2. Distributed:
   a. Number of cases of water 18,576
   b. Filters 45,916
   c. Filter cartridges 165,382
   d. Test kits 3,217

3. Total number of customers on the Flint water system
   a. 29,944 paying customers
   b. 45,000 hookups (This is our high end target #)
   c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
   a. Cases of water 44,688 (additional 12,884 donated)
   b. Filters 78,520
   c. Filter cartridges 163,081
   d. Test kits 18,761

5. Teams going out tomorrow:
   a. State type 3 teams---Goal tomorrow 300 homes per team
   b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Home Deliveries:

- Still receiving lists from the Valley Area Agency on Aging (VAAA) on home deliveries and forwarding these to the Sheriff's office. They are going through a lot of homes. 120 out of 125 homes were completed yesterday.

Operations:

- We sent staff to visit Fire Station 6 and the warehouse today. Fire station 6 traffic was congested and that was during a "slow" time. The National Guard is identifying what is needed to alleviate this. MSP is working on providing uniform presence as needed. An additional iPad at each location will hopefully help relieve the amount of time that people are spending at the distribution sites.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional requests from churches were made and I approved the locations so they could be ready for Sunday. Lt. Roach was told by one of the pastors that he met with the Gov today and expressed how much he appreciated the efforts put forth. We should have 14 for this Sunday. We are working on how we can increase this output.
- Still concerned about people going to every fire station and collecting water/filters. NG personnel observed vehicles with several cases of water an overheard saying they were heading to the next station. Some people were helping themselves and taking more than one case at a time. Per the NG they cannot physically stop people from doing so. The NG is going to try to change staging in the fire stations to try to prevent this.
- Flint PD is going to check in every day with the EOC and provide a specific contact person. They are also going to help with traffic issues at the PODS. Will ask Flint PD to provide a presence when water is off loaded at a POD to help prevent people from "helping themselves."

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/14/16 – 10th Day (9th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and finalize lease on warehouse space/begin to move supplies from GCCARD to new warehouse
- Continue with door to door teams and finalize planning for future team use
- Submit request for a Presidential Declaration of a Major Disaster and Emergency
- Continue to work on long term recovery items (DHHS, DEQ, MDARD)

Attached Documents:

- SitRep 9

Status on Governor's request letter to the President:

- All documents for the presidential request have been submitted to FEMA. I had a lengthy conversation with the FEMA Region V Administrator reference the request prior to sending.

Key items for tomorrow to note are:

- The door to door teams will continue in the morning.
- We will continue to ramp up door to door operations with additional teams. Teams continue to focus on the high lead level areas and additional data is being analyzed to focus mission areas.
- ARC will increase the number of their Water Response Teams.
- Supply burn rates as well as projections on how many teams will be needed to put filters in all homes within 3 and 5 days will be completed. Analysis will be done to see in NG personnel may be needed to finish in quicker manner.

Items to Note

- DEQ was notified of the number of homes who are willing to have them take additional samples in the future (current number (114). This question was added to the App being used by the Water Response Teams. Data will be provided when needed.
- LT Gov is scheduled to be at the local EOC and SEOC (~4:30) tomorrow to see the operations.
- Secured 80,000 sq. ft. of a warehouse today. Working to consolidate all resources in one location. Tomorrow will be the first day of full implementation of our logistics plan.
- Email sent to state employees to request volunteers for weekend.
- Media monitoring showed no incorrect information today.
- Michigan Association of Broadcasters is sending PSA to radio stations.
- Coordinating with Red Cross on volunteers for weekend.
- Deployed 8 Water Response Teams to the field today (approx. 120 volunteers). 78 Red Cross volunteers active across the operation today.
- National Guard is ramping up to have 3 soldiers per shift at each POD tomorrow. Will also have a Public Affairs Officer at the JIC and liaison at the local EOC.
- Senator Ananich visited the SEOC today to see how things operate. The visit went well and he seemed happy with the number of staff working the Flint event. He tweeted out a message indicating there is still a lot of work to be done but all are working hard.
- DHHS
    - The Community Health Emergency Coordination Center (CHECC) is working on the following:
        - A nutrition plan
        - Education materials, messaging, and working with local agencies
        - Developing a community assessment for disaster behavioral health services.
- Lined up the delivery of filters to two large apartment complexes and a student housing complex.
- We have the list of individuals needing home service (additional contacts will be sent to the Ops Chief at the Local EOC each day at 4:00). Info will be provided to the sheriff's office for action.
- Water Response Team Numbers (this is not the total of homes with filters – I will provide that number tomorrow but it appears we have filters in over half the residences):

	TOTAL	1/12/2016	1/13/2016	1/14/2016
Occupied Homes	1450	242	492	716
Vacant Homes	1967	152	161	1654
Total Homes	3417	394	653	2370
Resources				
Door Hangars	1487	217	453	817
Water	588	117	254	217
Filters	945	112	220	613
Pitchers	22	3	13	6
Water test kits	217	48	109	60
Replacement Filter	482		137	345
Total Resources Dispersed	3741			
Future sample test site	114	28	34	52

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/13/16 – 9th Day (8th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and close lease on warehouse space
- Continue with door to door teams and finalize planning for second wave increase (+15 teams – total for 1/14/16 will be 20)
- Continue to work on Governor's Declaration of an Emergency

Attached Documents:

- SitRep 8

Status on Governor's request letter to the President:

- All support data from state Agencies and local jurisdictions collected as of 6:00 pm on 01-13-16
- Current timeline:
    - First draft completed and ready for review by State Department Directors (including the Attorney General) by 11:00 am on 01-14-16
    - State agency reviews due back by 1:00 pm on 01-14-16 for revision of the draft
    - Revised draft to Captain Kelenske by 2:00 pm on 01-14-16 for review and forwarding to the Governor for final review
    - Final draft (based on Governor's review) submitted to FEMA Region V Administrator by no later than cob 01-14-16 but hopefully sooner. FEMA is aware and ready to receive.

Requests and potential response from FEMA/President

- The letter will request all programs eligible under the Stafford Act including Public Assistance, Individual Assistance, Hazard Mitigation, FEMA's coordination of assistance from other Federal agencies and direct assistance from FEMA
- The letter will also request potential direct reimbursement from other Federal agencies such as EPA, CDC, HUD, DHHS and SBA
- This request is in coordination with the request for Non-Stafford Act federal assistance already requested and received by the State (technical assistance and administration, but no direct reimbursement of disaster costs)
- Direct Federal assistance from FEMA in the form of Individual Assistance to homeowners for household repairs (repair and/or replacement of water service lines and Other Needs Assistance to reimburse for water filters, bottled water, etc.) is a possibility
- Direct Federal assistance from FEMA in the form of Public Assistance is not as likely as it is mostly replacement of publicly owned water distribution lines (and not the direct result of damage from a natural cause)
- If Stafford Act assistance is denied (Public Assistance, Individual Assistance and Hazard Mitigation) FEMA could still provide coordination of assistance from other Federal agencies if the President declares a disaster (or emergency) for the State of Michigan

Key items for tomorrow to note are:

- The door to door teams will continue at 9 a.m. – 5 p.m. Thursday morning and continue through the weekend.
- We will continue to ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas and additional data is being analyzed to focus mission areas.
- MNG will have a press event at the armory with incoming soldiers and MG Vadnais.

Items to Note

- Received information that Rev. Jesse Jackson will be in town 1/17/16 at 1:30 at the Heavenly Host Church of the Harvest of Dartmouth St, Flint.
- Managed and corrected misinformation on NG role.
- Senator Ananich is stopping by the SEOC tomorrow morning 0845. I am meeting with him and his Chief of Staff. Short visit as he has a 0930 at the Capitol.

- Working with Comcast so they can put teams in the field for distribution.
- Penske is going to give us 15-20 trucks over the weekend.
- Contact made with Two Men and a Truck for resources.
- Meeting set with Google where they will brief me and key staff potential tasks.
- Coordinated with Flint Mass Transportation Authority (MTA) to include Fire Station PODs on bus routes.
- Tomorrow I will have a projection as to the number of teams needed to get all citizens filters in their homes in 5 days / 3 days.
- We are standardizing team structure and supply deployment to increase efficiencies. Mission Ready Package (MRP) specifications will be sent out for other entities to assist with door to door. They will then be able to arrive as a MRP, get supplies, receive a mission location and deploy.
- 5 Water Response Teams were in the field again today. Below are the numbers from the 2 days of just the Water Response Teams (there are paper copies with data still to be entered from the PODs). I was just briefed by the ARC logistics planner and there are efficiencies we can put in place to increase homes touched per day. The next version of the app will provide more granular details. Additional 30 tablets were configured by DTMB today for field implementation to include use in the PODs.

	Total	1/12/2016	1/13/2016
Occupied Homes	533	242	291
Vacant Homes	238	152	86
Total Homes	**771**	**394**	377
Resources			
Door Hangars	473	217	256
Water	265	117	148
Filters	235	112	123
Pitchers	9	3	6
Water test kits	92	48	44
Replacement Filter	93		93
Total Resources Dispersed	**1167**		
Future sample test site	62	28	34

- We show 17,276 residences with filters (this does not include data entry to be completed from POD or other locations).
    - We have 35,378 service hookups but with apartments, multi residence dwellings, etc we would be around 45,000.
- Logistics Support
    - The American Red Cross Logistics Planner provided me a brief and I approved the plan forward. The current plan includes:
        - Mission – A filter in every home ASAP.
        - 4 Distribution Methods
            - PODs (5)
            - Water Response Teams (20 effective tomorrow and this will increase)
            - Local EOC "Hot Shots" (these are calls for functional needs, unable to get to a POD location due to ??, etc). Personnel dispatched with supplies.
            - Local EOC support for other local requests (Faith based for distribution, etc.)
        - Three warehouse locations at this time
        - How to better leverage ARC resources

- Supplies – Daily Numbers
    - Replacement Cartridges - 30,700 delivered.
    - Water (cases) - 19,152 cases delivered

- Budget projection completed and will be submitted to SBO for review.

- Notes from Water Response Team Command (MSP)
    - Very good synergy between Flint Post troopers and Genesee County Sheriff command and deputies in effective and efficient deployments for distribution efforts.
    - Great attitude and efforts by uniforms and volunteers to make important contributions to the City of Flint on water response team deployments.
    - Clear direction and coordination in the field of supply teams by lieutenants and troopers. No confusion. Clearly defined roles.

All personnel continue to be fully committed to fixing this as quickly as possible.

Chris

Update 1/12/16 – 8th Day (7th Full Day) After Governor's Declaration of an Emergency

I apologize in advance for the length of this report. With the supply issues we had the last couple of days I wanted to share our inventory plus what we anticipate to ensure we do not have supply issues.

Mission focus for the day:
- Receive, store and increase quantities of supplies
- Fine-tune logistics
- Increase and deploy door to door teams (4 state teams added to teams from the Sheriff's Department)
- Increase collaboration and messaging of collaboration with local agencies (specifically the Sheriff's Department)

Attached Documents:
- SitRep 7
- Executive Order Activating the National Guard

Key items for tomorrow to note are:
- The Governor signed an Executive Order activating the National Guard. Mission will be to relieve ARC volunteers at the PODs (Fire Stations) which will free up the ARC volunteers for door to door activities.
    - I have briefed the ARC Disaster Officer on this plan.
- The Governor requested, through FEMA Region V, support from the Federal Emergency Management Agency (FEMA) to bring together and identify other federal agencies that may have programs and funding that could be dedicated to assisting Flint as part of an interagency recovery plan. One of the existing LNOs has been identified as the POC for this. He will be a great liaison for the FWIACC.
- The door to door teams will continue at 0830 Wednesday morning and continue through the weekend and ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas.
- We will look at all commodities and see where we are and where we need to be while working with the ARC logistics specialist.

Items to Note
- PSA video sent out to Flint citizens on resources available.

- Water
    - Today's numbers - 7,824 cases of water arrived today, 1/12/16 (109 pallets)
    - Ordered:
        - 19,152 cases of water are going to arrive Wednesday, 1/13/16 (266 pallets)
            - 1/3 is going to GCCARD and the rest is going to the new warehouse

- 12,768 cases to arrive daily beginning Thursday through Saturday (177 pallets a day)

- Filters
  - Today's numbers
    - Ordered on 1/11/16 and delivered 1/12/16 direct to GCCARD
      - 2,000 – Brita filter faucet mounts
    - Filter Replacements
      - 2,400 – Brita filter replacements (single pack)
      - 8,000 – Brita filter replacements (two pack)
  - Ordered on 1/12/16 to arrive Wednesday
    - Faucet Mounts – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
      - 10,000 – PUR Vertical faucet mount
      - 2,500 – PUR Horizontal mount
    - Replacement Filters – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
      - 10,000 – PUR replacement filters (3 pack)
      - 10,000 – PUR replacement filters (single pack)
    - PUR Combination Pack – to be delivered to GCCARD on 1/13/16 (Wednesday)
      - 10,700 – PUR combo packs

- To arrive Thursday
  - Zero Water Pitcher (8 Cup) – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 1,300 – Zero Water pitchers
  - Faucet Mounts – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 11,000 – PUR vertical faucet mount
    - 1,500 – PUR Horizontal faucet mount
    - 5,000 – Brita faucet mount
    - 10,000 – Brita adv faucet mount white
    - 12,000 – Brita adv faucet mount chrome
  - Replacement Filters – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 117,600 – PUR replacement filter

- Test Kits
  - 6601 unassembled kits arrived at GCCARD today, 1/12/16.
  - 500 have been assembled and are ready for distribution
  - 1000 additional unassembled kits have been ordered to be delivered at GCCARD (no ETA yet)
  - 10,142 unassembled kits to arrive at GCCARD early next week

- Second warehouse – Located in Flint
  - 100, 000 square feet of secure warehouse obtained.
  - Accepting commodities beginning Wednesday, January 13

- Logistics Support
  - The American Red Cross Logistics Planner arrived from DC today as requested. I outlined what her mission was and how I saw the progression forward. This logistics planner will assist in streamlining the inventory and distribution process now and into the future.

- Door to Door Numbers
  - Today the app implementation for the field went extremely well. There were a few issues that were quickly addressed. One related to how form fields should be filled out. Another was getting styluses for teams so that they don't have to remove their gloves in the cold. All very simple to fixes.
  - We are working on version 2.0 so this can be used at the PODs

- We should be able to greatly optimize distribution in the near future as we mapped the active water subscribers from Flint's DPW and are adding them to the field team members apps. Of the ~56,000 possible addresses, this reduces the number of possible homes to visit down to ~29,000.
- Notes from the field commander:
  - "Today we started out the day using two groups that consisted of approximately 10 people in each group. We eventually combine groups with Genesee County Sheriff's group and they brought two more groups with approx. 10 people (Local UAW) in each group. This made us a lot more efficient and we were able to set up a game plan. Tomorrow I feel we will be more efficient and we will have a better plan in place to get the maximum output out of our resources."
- In the end, there were 394 total home visits with the following breakdowns:
  - 217 Door Hangers
  - 152 Vacant Homes
  - 117 Water Distributions
  - 112 Filters
  - 3 Pitchers
  - 48 Water Test Kits

- 211
  - CALL VOLUME:
    - 185 calls for water-related issues had been received as of 4:45 pm.

- Logistics made contact with Comcast and will be supplying them with filters and replacement cartridges for their deliveries in their work trucks as they make services calls. They will follow our procedures for reporting (our checklist).

Chris

Update 1/11/16

The focus today was the media event and getting the supplies and logistics on track. Most of the activity today was working on logistics for the water and other supplies.

Attached Documents:

- SitRep 6

Key items for tomorrow to note are:

- The door to door teams will start at 0830 Tuesday morning. It is reported that troopers are going to the door but DHHS employees are the lead with a troop car nearby.
  - State and local GIS created an App today for the teams to use tomorrow but I see potential use at distribution sites.
  - The App data will be used for our maps as we survey the public/distribute supplies and we will be getting real time metrics through the site from the field send back to the SEOC. We are using Android tablets tomorrow but in the future can use any mobile device for this.

Items to Note

- It was reported that only one POD (Station 5) was out of water longer than 30-45 minutes. This site was ~2 hours without water and part of that was the truck went to the wrong station. Trucks were sent as soon as the local EOC was notified.
- We also did not receive a DHHS shipment that was to come in which caused some filter delivery issues.
- Supplies are limited at this time; however, we are getting our shipments starting at 0630 tomorrow.
- We have Home Depot giving us 12,768 cases (this was a late development so the SitRep indicates half the amount) of water every day starting tomorrow. We are still working with other distributors too.

- ARC is flying in a logistics planner tomorrow. Three additional staff with be with her to shadow and help. We are turning warehouse logistics over to ARC logistics. We are moving tomorrow to a process that has a distribution center (GCCARD) and a warehouse that is 100,000 square that will maintain mass quantities. Staff has continually been placing orders for supplies to ensure we get a head of this. The intent is to keep the warehouse full so we do not have these continual issues of supplies.
- Began mapping lead service lines (anticipate having draft of lead service lines Friday).
- Coordinated with local IT managers overseeing filter tracking system to streamline data collection.

Local Emergency Operations Center

- Working to coordinate resources at the local level to maintain adequate supplies at all PODs.
- Demand has exceeded supplies and supplies are moving rapidly from PODs today. Working to make sure POD managers notify us when they start running low.
- Working to establish a warehouse for local resource storage.
- Established trigger points for resources at PODs and hourly inventory reporting from the PODs.
- Discussed potential long term water sources between local EOC and SEOC.
- Established planning cycle/meeting scheduled for 1/12/16.
- Local EOC EMHSD staff with Natasha Henderson to request deployment of City representative at local EOC.

Chris

Update 1/10/16

Attached Documents:

- SitRep 5
- Door card (English version but Spanish version will be ready for Tuesday)

I have a local EOC section listed below but state personnel are heavily engage in management of both locations. We occasionally hit some road bumps with this event but all personnel are working well together to accomplish our goals (especially state agency personnel).

I have had good discussion with FEMA LNOs. Two statements have been developed from our discussions that hopefully helps put this in more context but if it is more confusing I apologize:

1. In the immediate response, the State, in collaboration and coordination with city of Flint and county of Genesee are working to get water, water filters, and testing kits to the affected population. In conjunction, the state will coordinate with federal agencies to ascertain what resources can come to bear to help mitigate the issue.

2. If asked about a federal declaration from FEMA, we need to articulate the definition of major and emergency declaration and state or note to ourselves that it appears to not qualify; however, there may exist opportunities to leverage federal assistance from some agencies (i.e....EPA) under their own authority to help address this issue.

    - We need to really manage expectations on the potential for a federal declaration...not that we will not go after one but it will be difficult to get.
    - A major disaster is defined in the Stafford Act as any ***"nature catastrophe (including hurricane, tornado, storm, high water, windriven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, snowstorm, or drought) or, regardless of cause any fire, flood, or explosion.....causes damage of sufficient severity and magnitude, to warrant major disaster assistance.....to supplement the efforts and available resources of States, and local government....."***

- An emergency declaration is ***"is any occasion or instance for which, in determination .....assistance is needed to supplement State and local efforts and capabilities to save lives and protect property and public health and safety or to lessen or avert the threat of a catastrophe....."***
    - This is limited to immediate and short-term assistance (I hate to put times on this but short-term is like 3 weeks), essential to save lives, protect public health and safety and property.
- Severity of the situation is ***"A finding that the situation is of such severity and magnitude that effective response is beyond the capability the state and affected local governments, and that the state requires supplementary federal emergency assistance to save and to protect property....***
- Nature of assistance for Emergency Declaration is for ***"Debris removal, emergency protective measures, direct federal assistance...."***
    - Debris Removal = ***self-explanatory and we do not have this***
    - Emergency Protective measures = ***water, commodities, transportation (remember ... to supplement what the locals and state are already doing if we need more)***
    - Direct federal assistance= ***what specific type of work is requested, and what are the reasons why the state/local government cannot perform or contract for performance. Essentially what is the need that state/local govt cannot provide. I can see this being something we need but we may be able to get this outside a federal declaration under the federal agencies own authority to help address this issue.***

Back to the update...

Key items for tomorrow to note are:

- Training is occurring for the door to door teams scheduled for Tuesday morning.
- Deploying an additional MSP District Coordinator to the local EOC for command and control support.
- Deploying two DTMB trucks and two drivers for sustained logistical support for the week.
- Media event with the Governor in Flint.
- New Incident Action Plan starts (1/11 0800 -1/13 0800 operational period). Our objectives are as follows:
    1. Ensure all households within impacted community have required resources.
    2. Ensure accurate tracking and accounting of all commodities.
    3. Improve and maintain public information strategy.
    4. Develop a long term public health and services plan.
    5. Ensure adequate staffing to support operational requirements.
    6. Identify possible assistance programs.
    7. Develop an approved GIS strategy.
    8. Maintain coordination between partner agencies and organizations.
    9. Enhance situational awareness and common operating picture of all activities.
    10. Develop a comprehensive Recovery Plan.

Items to Note

- All 9 churches had filter systems/replacement filters, information sheets, and water test kits delivered as requested by each pastor/reverend on Sunday. We did not think we could get them water due to the limited time but we did end up getting water to all 9 churches with the other items.
- Fire station resource locations stayed open from 9a to 9p and will continue with those hours until further notice (Staffing is in place until Saturday). ARC is staffing these locations.
- The media event was held at Fire Station No. 1 and report back is that it went well and the spirit of collaboration between local, state, non-governmental partners is strong was relayed.
- The four door to door teams will have the hours of 8:30 a.m. to 5 p.m.
    - Each will have logistics support from DTMB, security from MSP, and contact personnel from DHHS.
    - The door card is attached that will be left if no one is home.
- Worked to identify a storage location within the City of Flint for water and supplies. G-CARD is identified as temporary location but we are moving toward a state run warehouse operation (looking at private sector partners to assist, especially with the warehouse management side).

- GCCard is large enough, centrally located and comes staffed. GCCard has 75,000 sq ft with warehouse managers to assist with tracking resources coming in and out.

- GIS will provide us daily updates of how much was distributed each day but note we have a delay in data entry from delivery to entry in the GIS system. Over the weekend there was a problem locally with staffing to get this completed. A solution is in place and will be implemented so we get timely data. Distributed to date (as of 1/8/16).
  - 12,386 filters
  - 1,985 replacement filters
  - 354 Pitchers
  - 2500 Lead Testing Kits
- Establishing and tracking of resources is a priority. Staffing has been assigned to get a good handle on these to ensure distribution sites maintain an appropriate level of inventory. I have requested trigger points get put in place so we do not get below certain levels in the main warehouse location.
  - Contacts with some large water distributors have been made and their and our logistics chiefs will connect first thing this week.
  - We have ordered an additional (expedited delivery with ETAs tomorrow)
    - 40,000 Brita Filters
    - 40,000 Brita Replacement Filters
    - 1000 Zero 8-Cup Pitchers
    - 1000 Zero 8-Cup Pitchers
    - 2000 PUR Replacement Filters
    - 93 Pallets of water (about 6700 cases)
- GIS continues to produce multiple maps for use.
- JIC Items
  - Requested PSA on the radio. Media has been approved and working with MAB.
  - Requested JIC to contact Comcast and Dish Network for availability for continuous running of filter install/replacement and test kit video.
  - A news release will likely going out tomorrow regarding canvassing in neighborhoods. Continued social media messaging.
    - Tuesday – embed state PIO with one of the canvassing teams to liaison with media.
    - JIC moving tomorrow to Flint.

<u>Local Emergency Operations Center</u>

I am providing you some information on some issues we ran into at the PODs. This has been addressed with additional state resources and processes put in place so we do not run out of resources. Public concerns/complaints have not been brought to my attention at this time. Staff is working very hard to ensure we do not run out of supplies at the PODs and they understand the consequences. No one in the Local EOC or State EOC is happy the follwoing occurred and I felt you should know in case it is brought up. Again, I believe we have fixed this and I take full responsibility for any supplies not being on site.

<u>Fire Station Inventory Levels:</u>

Station 1:

- Only time without supplies - 15 minutes without water while the truck was unloaded.

Station 3:

- Ran out of replacement filters around 7:00, replacement filters delivered around 7:30. Had to pick up replacement filters from Home Depot and deliver.

Station 5:

- Ran out of water around 5:00, water was delivered around 6:30. We needed to find additional trucks because DTMB drivers were over hours. The ARC stepped up and found a truck to go and pick up a pallet of water and deliver.
- Somewhere between 4:00-6:00 they ran out of lead test kits. No way to restock these because City facilities were closed and could not reach anyone.

Station 6:

- Around 5:00 ran out of water, filters, and replacement kits. Replacement kits were delivered around 7:30. Additional water and filters were delivered after 9:00 due to the DTMB drivers heading back to Lansing. Food Bank was called and had to get drivers in to operate trucks, pick up water from the School District, load and deliver to all sites. Delays occurred with weather conditions and needing to use last minute sheriff EOC staff to load due to issues with City workers. City workers were scheduled to help and left around 7:00 without helping.
- 2 pallets of water were dropped off in the afternoon and within 1 hour were gone. This was much faster than we expected. On 1/9 they didn't go through 2 pallets of water at any station for the hours 9:00-4:00.
- We received news that a reverse 9-1-1 call notified residents of water which caused an unanticipated amount of people obtaining water. There was also a report of 1 person walking out with 2 cases of water and trying to sell in the parking lot.

Station 8:

- Around 7:00 ran out of filters and lead tests. Filters were delivered around 8:00 from the food bank trucks.
- Hourly reports were requested in the morning from volunteers but this information was not received as to the status throughout the day. Early inventory of supplies took between 1 hour-1.5 hours to receive in the EOC. We were not advised of low counts, just zero numbers.
- Reports received that the last couple of hours were slow.
- Residents were advised of the other sites and the opportunity to obtain supplies.

Restocking Plan

- United Way set up meeting with Food Bank to discuss.
- Had EOC meeting on this topic to discuss options.

Churches:

- All 9 churches received waters, filters, and informational bulletins.
- Lt Roach received positive feedback from 3 of the pastors.
- No complaints were received.

Signage:

- Provided information to SEOC on signage requirements at the fire stations.

Storage:

- Researched storage spaces; established temporary site at GCCARD.

Personnel:

- Lack of local EOC leadership (seems somewhat checked out) with IC and Deputy IC (doing an okay job).
- Captain TaFoya (Genesee County) helped tremendously today with all the plans outlined above and attended the press conference.
- Tina Martinez at the Food Bank and Matt Purcell at GCCARD were extremely helpful in getting last minute operations set up.

Chris

Update 1/9/16

SitRep 4 attached for more in depth information. The below only contains some items worked on today and while the format in the attached SitRep is not perfect (it is created automatically by MICIMS) it does contain a lot more information you may want to read. I also attached one of our maps. It is our filter distribution map. All filters handed out by anyone working with us feeds into this now. We are continuing to refine these and at this time there is a delay in the upload of address data but we are working on it. We have a ways to go to get filters in every home but this will help direct us to those who need still them. We also are working on identifying abandoned homes.

Key items for tomorrow to note are:

- 9 churches will have ARC volunteers and filters for distribution. Some may also get water.
- 5 fire stations are a distribution point for water, filter systems/replacement filters, and water test kits. While only open today until 4 p.m., tomorrow and until further notice they are open from 9a to 9p.
- Media event will take place on the above tomorrow.

Items to Note

- 211 has some issues with call load but it is being worked on. 2-1-1 Director contacted MDHHS PIO to discuss/resolve caller wait times and messaging. We anticipate an increase in activity tomorrow in 211 calls so we requested and received an increase to staff 211.
- We are shifting tasks the SEOC took on that are handled more effectively and efficiently at the local EOC. We have established command and control in their EOC. We are running things there but that is not being made public. We are doing this in partnership but we are clearly handling the operation with state personnel oversight.
- A 3rd FEMA LNO arrived today upon my request. This has nothing to do with a Presidential request for a declaration but support for some other items I want worked on for long term recovery.
- We continue morning calls with the local EOC leadership and local emergency manager on what our goals for the day are as well as any issues/concerns.
- Five 5 fire stations have received water, water filters, replacement cartridges, and water testing kits with American Red Cross personnel at each location to assist with delivery of resources and collection of addresses receiving them. These locations will be open from 9a – 9p daily until determined they are no longer needed. Those picking up water testing kits will be advised that they can return the test kits to the fire departments (where they will be picked up and taken to the Flint City Hall), the Flint Water Treatment Plant, or they can take them directly to the Flint City Hall. For those unable to return the kits, 211 can make arrangements for pick up the kits. We understand response to these sites has been positive thus far. The Genesee County EOC will be monitoring these supplies and request replacement of products as needed.
    - A call is going out tomorrow morning to advise this information ... I do not believe it was every resident but Tori Sachs has that info if needed.
- I approved a press release today to advise the public that all levels are working together to ensure delivery of filters, test kits and water; noting that all of these items were delivered to the 5 Flint fire department stations. It was stressed that the public should be aware that the local and state agencies have been working cooperatively to assist the residents - and will continue to do so. This was done to hopefully end or at least minimize the "who can get water and filters out first" when all of this has been connected with the state and coordinated since the state declaration was put in place.
- The arrangement of 2,000 filters, to be taken to 9 local churches on Sunday, January 10, is ongoing. The filters have been secured; they are now in the possession of the DTMB. DTMB will return to Flint on Sunday morning to deliver these to necessary locations. The American Red Cross will be on site at each church to assist with distribution and recording addresses (for GIS). The local EOC is working to ensure these arrangements are complete and run smoothly. Future engagement with the faith based community will occur to assist with additional distribution.
- A Flint City liaison has not been in the EOC but starting Monday this will be in place to keep the Flint Mayor appraised of activities being conducted in the city. She also has been advised she can call me at any time if she needs anything.
- Training has been confirmed for the door-to-door operation scheduled to start Tuesday. Four teams are initially scheduled with more to potentially be put in place. These are the teams that will be handing out water, filter systems/replacement filters, test kits and information. If nobody is home, a door hanger with information is being left. DHHS personnel and one MSP trooper will be on these teams.
    - Training will take place at 1 p.m. on Monday afternoon at the DHHS office on Clio Road. DEQ and DHHS will provide the training.
        - Training is so those going door to door can explain what the filters do, how to install them, if they need install help to call 211 who has a list of people who can install the filters, and answer any other questions versus just handing them the filter.

- Hours of operation will be Tuesday through Friday from 8:30 a.m. to 5 p.m. AT THIS TIME. I am reevaluating these times to increase contact with someone versus just leaving information.
- Logistics are being finalized for the teams and trucks to handle stocking and re-stocking of materials during daily operations.
- GIS maps will provide guidance on deployment locations for these teams and other teams in the field.

- A pilot project at Freeman Elementary with LARA and DEQ has been initiated to see if replacing certain plumbing components in faucets at the school will drop the lead level.

MSP/EMHSD GIS Section Updates

Accomplished Today (January 9):

- Produced a Point of Distribution Map. Contains four types of distribution points; Churches, Water Resource Sites, Filter Distribution Sites, Water Distribution Sites.
- Produced Filter Distribution Map.
- Developed process of how best to handle geocoding the household filter locations, worked on processing the data.
- Worked on map of franchise customers outside of Flint City.
- Produced maps for MDARD on food establishments and Local Health Departments.
- Produced map of Church Filter Distribution map for DTMB.

Local Emergency Operations Center

- The state has deployed 10 personnel to the Genesee County EOC to ensure we have command and control at the local level. On 1/8/15 The state personnel took over the incident management functions of the Genesee County EOC (not public). The arrival of additional staff allowed the local Emergency Management Coordinator to delegate tasks which relieved a tremendous amount of stress.
- Additional Sherriff staff (2-positions) will be shadowing the state incident management team to allow for transition to the county personnel later in the incident when we are comfortable with them handling things. Not sure when that will be but we have secured a direct bill hotel for staff to stay in Flint as long as needed.
- With the additional staff, the Local EOC will be able to take over functions previously handled by the SEOC including:
  - Logistical activities to support church operations.
  - Logistical activities to support fire stations operations.
  - Coordinate Donations Management activities and draft donations management plan
  - Coordinate Volunteer Management activities
  - Identify local storage/staging facilities
  - Overall inventory tracking
  - Tracking of Points of Distribution (PODs)

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/8/16

SitRep 3 attached.

There is a significant difference in what is being presented by the media and what the local EOC is relaying to us at the SEOC. It is also being driven by the media that this is a state versus local response (who is providing more and quicker versus a coordinated effort between all). That said, I advised SEOC personnel that perception is reality in some eyes and we are to move forward to address items that typically are addressed at the local level. I have ordered the SEOC open all weekend due to make the quick wins that we need and continue to get the coordination and collaboration in place that is needed (but make gains on our own as needed).

Items to Note

- Two FEMA LNO's arrived today and are in the SEOC. A third LNO was requested from FEMA due to some unique issues with this event to include having to deploy more or my staff to the local EOC to get more structure and/or find out why there is an issue with the message the media is showing versus what we are hearing from the local EOC.

- We finally received from the local EOC 8 locations (we were told originally early in the week they had 80-90) that are their Points of Distribution (PODs) for water in conjunction with the local food bank. The PODs are not getting water from the food bank even though the food bank has water. We are going to resolve this issue as we can help deliver the water to the PODs but we were not aware of this. 8 PODs is not enough locations if water needs to be distributed to citizens. Speaking with the ARC Regional Administrator later today, I believe ARC got water to those locations but I need to confirm that in the morning. The food bank reported they had 376 cases of water.

- We have learned that a low number of residents are testing their water when DEQ can test 400 kits per day. This is an added focus that we believe can be increased through dissemination of test kits with the filters and any water.

- I found out the Mayor was okay with using fire stations as distribution points for water, filters, and water test kits. While this did not come to me through the local EOC, I advised we needed to get water, filters, and test kits to these locations for tomorrow. The distribution at 5 Flint Fire Department stations has been coordinated to be in place by 10:00 am tomorrow morning.

    - DTMB has provided a truck and driver to pick up water test kits from DEQ lab in Lansing, water from the Food Bank and water filters and replacement cartridges from GCARD in Genesee County.
    - 10 American Red Cross (ARC) volunteers will meet the DTMB truck at GCARD at 9:00 am to be provided information about filters. Instructions will be included in water test kits. They will then report to the 5 fire stations to assist in distribution of resources to the public and track addresses of same.
    - Residents will be told where they can drop off their water test kits, or that they can return them to the fire station the next day. Coordination will occur on pick up of water test kits daily to be taken to the Flint City Hall, who will then delivery them to the DEQ testing lab.

- STILL FINALIZING - We have made available 2,000 Filters for distribution on Sunday as parishioners leave mass/services. This will be 200 filters for 10 churches in Flint. While this is a small number of churches, we do not want to waste an opportunity to hand out filters and this seems like a quick way to so. The filters will be put on the DTMB truck on Saturday for delivery to TBD locations for distribution. Logistics remain undetermined as I am still waiting on a list of the churches, pastors/reverends/hours or services/etc. The DTMB truck will be returning to Lansing approximately 11:00 a.m. so we need to finalize this quickly on Saturday. We may utilize ARC to assist with this.

- The Recovery branch is working with the JIC to develop a door hanger card. DTMB is working on the printing portion of the hanger card. Recovery will also be finalizing logistics over the weekend for neighborhood canvasing to occur early next week. 40 volunteers have signed up to attend training on Monday afternoon to complete this task. The mission will be to deliver water sample kits along with water filters/replacement cartridges, and water.

- It appears that 211 has become overloaded. DHHS is researching ways to increase capacity for calls.

- A Volunteer Management Coordinator is in the Genesee County EOC as of today.

- A Donations Management Coordinator has been requested and she will be in the Genesee County EOC Saturday.

- DHHS had a conference call with GM today; they indicated they can provide cash, and supplies, but primarily manpower. No commitments were made at this point. We inquired as to availability of warehouse space and trucks. It was left as GM being a major resource pool that we can tap into as we determine missions. Further conversations will occur, but primarily GM just wanted us to know they are there if needed.

- An additional EMHSD staff member was sent to the Genesee County EOC to act as Operations Section Chief and obtain awareness of the situation there.

- GIS staff met with various parts of Genesee County/Flint personnel to try to get a handle on data available.

- GIS continues to work with local GIS personnel with three GIS staff going to Flint today to work with them. GIS staff is working with U of M on how best to proceed with digitizing water lines for long term recovery.

Chris

UPDATE 1/7/16

A summary of some of today's SEOC activities is provided below. Attached is the following:

- Today's SitRep which contains more information than below.
- The resource request/task assignment sheet for your situational awareness. This is how locals request resources as well as how we track resources and any assignments and/or tasks that are to be completed.
- JIC Task Tracking – for your situational awareness on how we are tracking requests and assignments. Once someone is assigned a task or resource request it allows them to document what work has been or will be done as shown at the bottom of the document.

Items to note:

- I received a document this evening from Genesee County which appears to be damage assessment information. Analysis of this will occur tomorrow. It appears to be infrastructure and costs to fix it and no other impacts.
- I spoke with Jamie Curtis, Genesee County Commissioner, this evening. A very good relationship is in place with him, especially with our District Coordinator (DC). I also have our DC working on developing stronger relationships with the Mayor/Mayor's office.
- GIS staff continue to obtain data and work with County and City personnel to get a picture of where resources have been provided, need to be provided, as well as infrastructure locations (pipes) that could be affected.
- Personnel and agencies have been tasked with developing a plan to get people in the community to deliver information, hand out filters, etc. This would target those areas we are showing minimal or no filter distribution based on the data we are collecting. The plan is to get them in the field by Tuesday and the plan will be provided to me tomorrow.
- Filters can be obtained at the following locations:
  - Michigan Department of Health and Human Services office, 125 E. Union St., Flint, MI 48502
  - Michigan Department of Health and Human Services office, 4809 Clio Road, Flint, MI 48504
  - Genesee County Community Action Resource Department office, 2727 Lippincott, Flint, MI 48507
  - Genesee County Community Action Resource Department office, 601 N. Saginaw, Flint, MI 48502
- Conducted briefing with local EOC and county executive.
- Conducted briefing with state agencies (daily updates).
- Began work to schedule legislative/congressional conference calls. Tentatively scheduled for 2 p.m. Friday.

- JIC continued to develop messaging.
- Provided input to local EOC regarding best methods of identifying health and non-structural impacts for damage assessment process.
- Deployed two EMHSD/SEOC liaisons to assist the local EOC.
- Published the Incident Action Plan and continued assignment of objectives/tasks.
- FEMA Liaison Officers just arrived in Lansing to assist command and general staff.
- I spoke with Harvey a few times and he should have talking points later tonight or tomorrow a.m. for his use and also for others who may speak to media outside of state government who may benefit from our messaging.
- We held a media round table at 1 P.M. at the SEOC. Dr. Wells and I spoke and answered questions to numerous media outlets.
- Local agencies and NGOs continue to provide water and filters to citizens.
- The website, www.michigan.gov/flintwater, was update with information and links to assistance to include 211. Additional recommendations were provided to include information on the testing water in homes.

EMHSD GIS:
Accomplished Today:

- Reproduced Socio-Economic Status Map
- Reproduced Predicted Affected Populations Map
- Cleansed old data and reports for water filter distributions
- Created draft map of water filter distributions (Refinement needed before releasing final product)
- Scheduled on-site visit with Flint GIS Department and Genesee County GIS Department
- Formatted databases to host content
- Researched service line database creation and scheduled meeting with U of M Flint to discuss timelines and resource needs
- Generated water infrastructure map (does not include building service lines)

Tasks for Tomorrow:

- Meet with Flint City GIS
- Meet with Genesee County GIS
- Meet with U of M Flint GIS
- Finalize water filter distributions map
- Finalize plan for data distribution methods

Chris

UPDATE 1/6/16

A summary of today's SEOC activities is provided below. I tried to distill this as best I could but there has been a lot of activity and discussion to get an accurate assessment of the situation. Attached is the final draft of objectives and tactics for the operational period and agency situation report (SitRep) which has more SEOC agency information. I have implemented weekly operational periods.

Advise if you want anyone else copied or off this distribution.

Daily Update

- Set goals for SEOC and identified response/recovery emphasis
- Requested FEMA liaison officers (LNO) from FEMA Region V. Two LNOs will be on site by ~3 p.m. 1/7/16. Both are known contacts to me and some staff and one has worked extensively with me during the SE MI flooding in a

command and control position. These personnel have been specifically tasked with this mission. **THEY ARE NOT HERE TO ASSIST WITH A PRESIDENTIAL DECLARATION REQUEST BUT TO ASSIST ME.**

- PIOs from multiple agencies were here and established the Joint Information Center (JIC). News released pushed out on this. I am very happy with the PIO work and movement toward coordinated messaging.
- Held briefing for State Agency Emergency Management Coordinators, which included presentations from DEQ and DHHS subject matter experts to ensure situational awareness and to develop a common operating picture.
    - I opened the briefing by identifying our initial goals, items to think about while subject matter experts were briefing us, and how we are to move forward, find quick wins, and regain trust.
    - **MDHHS – Elevated Blood Lead Levels**
        - Dr. Elizabeth Wells gave an in depth summary of lead poisoning and what has occurred in terms of health monitoring throughout the Flint crisis.
    - **MDEQ – Water Testing Protocols**
        - Mr. George Krisztian of MDEQ gave an in depth summary of the testing protocols and summary results that as they have developed throughout the emerging crisis.
- Developed Incident objectives, strategy and tactics (see attached)
- Identified SEOC and state agency staff positions
- Assigned work tasks for SEOC operation period from 0800 January 6, 2016 to 1700 January 8, 2016
- Reviewed planned actions, prepared final draft Incident Action Plan
- **Made contact with the Genesee County Emergency Manager first thing in the morning and held a conference call mid-day to discuss roles. Daily 0830 command conference calls with local EOC command staff starts tomorrow. Tomorrows call will include the County Commissioner and the City Administrator (both invited). Topics include the incident action plan objectives and establishing better local coordination, command and control to facilitate integration with the SEOC. The local EOC is not functioning as it needs to with personnel and local coordination and we are working on that issue.**
- I will be in Flint tomorrow for a 2 p.m. media round table with local officials that was set up by the JIC.
- The attached initial objectives will be updated at least every operational period and as needed. I listed the objectives below but the tactics to accomplish them is in the attached if you want further information.
    1. Activate the State Recovery Task Force (SRTF).
    2. Establish and maintain coordination between the City of Flint, Genesee County, state and federal agencies, and appropriate medical experts.
    3. Obtain and maintain situational awareness and common operating picture of all activities.
    4. Establish SEOC operational period and hours of operations.
    5. Investigate and identify all available programs for assistance with direct or related impacts, including the federal Lead Pipe Replacement Program.
    6. Develop a comprehensive GIS strategy.
    7. Coordinate response and recovery activities with MIVOAD and identify potential mission areas.
    8. Establish and coordinate routine communication between SMEs and coordinate technical assistance among state agencies and to local agencies.
    9. Provide technical assistance to the local Damage Assessment process.
    10. Establish a Joint Information Center (JIC) and develop a public information strategy.
    11. Monitor MI CIMS for resource requests and address as appropriate.
    12. Establish and disseminate cost center information for the incident.
- Additional tasks include:
    - Determine what federal agencies are already involved and their status
    - Identify potential water supplies
    - Determine where affected homes are located, where filters/pitchers (and replacements) were installed/provided, and determine who needs filters, etc.
    - Determine how filter distribution is handled, and if it can be handled more efficiently and effectively
    - Determine what mechanisms are in place for nutrition supplementation

EMHSD GIS Accomplishments:

- Hosted a conference call to begin coordination with Flint City and Genesee County GIS departments and the SEOC
- Established a daily call with county and city GIS personnel to synchronize GIS efforts in support of the Flint water crisis at 8:30 A.M.
- Began consolidating local data from local GIS practitioners into a consolidated database, to include:
    - Water Pipeline Locations
    - Filter Distribution Locations
    - November 25, 2015 Water Monitoring Results (Partial, some data remains to be digitized)
    - Affected School Locations
    - Predictive analysis of blood lead levels for affected area
    - Updated Parcels
    - Demographics
    - Block Groups
- Produced a map for the filter distribution locations
- Began contacting specialists who developed historic maps depicting the Flint Water Crisis to obtain the data

Subject: Update - Genesee County Declaration

Below are some key points for your situational awareness (FYSA) that have taken place or will take place within the next 15 hours.

- I was on the phone with Sean Kammer, Assistant to the Flint City Administrator, when the declaration hit the news so I advised him immediately. He was going to let the City Administrator know.
- I contacted MSP Lt. Roach, 3rd District Coordinator, who was at the Genesee County EOC and advised her to let the County EM know the declaration status.
- State Emergency Management Coordinators (SEMCs) were notified via our notification system with additional information in an email.
    - This included information on the SEOC activation and a 0900 briefing for SEMCs.
    - Some subject matter experts will provide us an update to establish a common operating picture.
- We have been in contact with FEMA Region V watch desk ... they will be on the call tomorrow and continue to monitor the situation.
- I have been in contact with the FEMA Region V Administrator to keep him updated.
- Operational period for the SEOC will be M-F, 0800 to 1700 at this time.
- Situation Reports (SitReps) will be provided in the evenings.
- An Incident Action Plan will be developed tomorrow.

Call me with any concerns or questions.

Chris

One potential avenue is to take a series of before and after samples in the field and analyzing them but there are a number of technical issues that may make that approach difficult.

I would suggest that we bring NSF into the conversation as they may be able to do some education and outreach to the community.

I would like to discuss this with you when you have some time.

Thank you

Dir Creagh

I brought this up as there was discussion on the radio this morning (one person) who stated the filters have not been tested so how do they know they work. I just want to make sure we have no issues in the future as to whether or not these filters are doing what we are telling everyone. I am told the NSF is the gold standard but I want to make sure that we are comfortable with this. I was not sure how much you may have been involved with the decision on these. I do not think we need to push anything out but be ready to if this gains traction.

Subject: Filters

Director,

I had a conversation with Captain Kelenske this evening regarding the filters that have been distributed in Flint. These filters have all been tested against NSF standard 53 and have been demonstrated to be effective for the removal of lead for the rated service life of the filter.

There have been some conversations in the local media questioning the efficacy of the filters and so the question is how do we address these concerns?

One potential avenue is to take a series of before and after samples in the field and analyzing them but there are a number of technical issues that may make that approach difficult.

I would suggest that we bring NSF into the conversation as they may be able to do some education and outreach to the community.

I would like to discuss this with you when you have some time.

Agreed. We are connected to FEMA GIS and will work first thing Monday to solidify some things with the UCG. Now that we have a SEOC POC, DHHS POC and I believe DEQ POC for the UCG I think we will make some progress.

Mark- let's see what the SEOC GIS comes up with as far as the UCG GIS. I know DEQ/DNR GIS and the SEOC GIS have been connected.

It appears there are more and more disconnects with the federal partners but that may *just be my perception. We have to keep them connected to the SEOC and SEMCs or we* will become disjointed and less effective/efficient.

> Today, I provided EPA with 50 "Flint Water Response Team" badges and lanyards to wear when they are working in the community. These are the same badges used by the volunteer canvassing workers to assure the residents the workers knocking on their doors are legitimate. The same badges were also provided to MDARD teams earlier in the week and reported during an SEOC brief on January 29, 2016.
>
> Today, EPA advised they deployed two sampling teams to work on sequential sampling and a filter pilot through Monday, February 1, 2016. The filter pilot was described as collection of a sample from an unfiltered tap, followed by collection from a filtered tap, installation of a new filter, and collection of a sample through the newly installed filter. They have identified 30 homes for this 3 day effort. I don't know the locations or addresses, but may be able to obtain same

if needed (please advise). Results were not discussed. DEQ, Robin Oeming, accompanied one of the EPA teams during the past week, which was primarily tasked with residual chlorine sampling. DEQ did not have personnel with EPA today and none scheduled for tomorrow. Oeming is scheduled to accompany one of EPA sampling teams on Monday, February 1, 2016.

Please route to DEQ ECC for information and to inquire direction whether a DEQ representative should be deployed with each EPA sampling team going forward.

Thank you.

Damage Assessment and Emergency Status Report

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

Operational Period

Operational Period Begin:	01/19/2016 08:00:00
Operational Period End:	01/26/2016 08:00:00
Situation Report No.	18
SEOC Status:	Full
SEOC Hours of Operation Begin:	01/23/2016 08:00:00
SEOC Hours of Operation End:	01/23/2016 20:00:00

Executive Summary

SEOC Update:
Accomplished today (January 23):

The SEOC continues to provide:
- Situational awareness.
- Common operating picture/objectives.
- Coordination with city/county.
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures.
- Resources.
- Public Information Control.

- Logistics:
- Worked with FEMA/DHHS on warehouse tracking status/strategy.
- Coordinated resources requests with state agencies
- Continuing inventory monitoring and hot shots resolution and tracking.
- Ordering and projecting future orders of water resources and commodities.
- Working future resource planning.
- Working on local business commodity supply plan.

- JIC:
- Created a media monitoring report and looked for misinformation. A call was made to WILX to amend their article that implied that the State was not distributing water to undocumented immigrants. The news release was also sent to WILX about how the State is not requiring identification to receive water resources.
- Working on redesigning the Flint water website.
- Added the Governor's appeal news release to the website.
- Working on adding the palm card and foreign language palm cards to the website.
- Updated internal and general talking points about the ongoing Flint water emergency.
- Drafted talking points for Monday's press conference with Governor Snyder, Colonel Etue, and the Mayor.
- JIC is planning on issuing the nightly activity news release.

- Recovery Branch:
- Reviewed and provided feedback on the draft Flint Water Operations Plan
- Updated resource requests in MICIMs
- Updated tracking spreadsheet with end of day information for Friday, January 22nd.
- Attended Local Brief, Operations Plan Meeting and Distribution Process Meeting.

oData is for 1/23/16 as of 5:00 pm:
o Total homes visited.
- 26,266 (round 2 total).
- 13,684 (today).

o Water Cases.
- 13,527(round 2 total).
- 6,960 (today).

o Replacement Cartridges.
- 4,276 (round 2 total).
- 1,715 (today).

o Faucet Filters.
- 6,697 (round 2 total).
- 3,264 (today).

- Planning Section:
o Published Sit Rep # 8.
o Worked with GIS to outline required maps for future planning efforts.
o Participated in daily SEOC briefings and distribution process conference call.
o Worked on the further development of Long-Term Recovery.

- Operations Section:
o Facilitated 8:30 local call
o Facilitated 9:30 state agency briefing
o Phase three meeting
o Email information requests & inquires
o Prep work for Sunday

Agency Summaries

Joint Information Center / Public Information Officer

The Joint Information Center (JIC) is operating from the State Emergency Operations Center on Saturday, January 23 and Sunday, January 24.

Tasks accomplished:
• Created a media monitoring report and looked for misinformation. A call was made to WILX to amend their article that implied that the State was not distributing water to undocumented immigrants. The news release was also sent to WILX about how the State is not requiring identification to receive water resources.

a primary source of transportation for Water Resource Teams and their participation is critical to the success of the mission.
8. Beginning Monday 1/2/2016 at 0730 the MDOC will be assuming management duties at the Warehouse. This assignment is currently set to expire Monday February 1 at 1930 hours.

All current resources will remain for Sunday 1/24/2016.

Education (MDE)

Michigan School for the Deaf:

1. Landlord's action plan added to MiCIMS.
2. Team of LARA and DEQ staff have mapped school building and LRC dorm building for water testing. They will be back 1/23 for collecting samples in those areas.
3. Testing in Stevens Hall dorm will be delayed until after faucets are changed and 3 new drinking fountains are installed. Drinking fountains are on order and probably will not be installed until next weekend, meaning testing in Stevens Hall is probably at least two weeks away.
4. Plumbers have begun swapping faucets in Stevens Hall and are planning to be finished by Sunday evening.
5. Genesee County Health Department (GCHD) to be at MSD blood testing students whose parents consent; February 8th.
6. MSD is polling staff to see if there is sufficient interest to have GCHD set up a blood testing clinic for all state and contracted staff.
7. Working with DHHS to have a health expert attend the February 9th parent meeting.

Environmental Quality (MDEQ)

The Department of Environmental Quality (DEQ) completed the following activities today:

- Worked on posting water test results on line for in an easily understandable and transparent way.
- Coordinated water sample pick up by MDOC and transport to the MDEQ lab in Lansing.
- A senior center was identified as not having water so local staff supplied bottled water (week's supply). Arrangements have been made to resupply center as needed. No other facilities have been identified and those that need assistance are asked to call 211.
- Began collaboration and coordination with U.S. EPA who arrived on-scene today.
- Continued providing support to the local emergency operations center.

Human Services (MDHS)

Forwarded FYI Info on filter distribution efforts which took place before the declaration to SEOC OPPs. Just for situational awareness on how filters were targeted to the vulnerable and multi unit populations previously.

Worked with DTMB to have state email placed on iPhones provided for donation and volunteer management.

CHECC continues to maintain a Level 2 Activation

Licensing and Regulatory Affairs (LARA)

Updated the LARA Executive Team
Assisting with translation of water analysis request forms. Looking into translators available this weekend.
Finalizing Health Care Facility survey information and comparison.
2 buildings at the School for the Deaf have been tested. Replacement of fixtures in the Dormitory is ongoing.
Materials order has been submitted to complete Freeman School.

Military and Veterans Affairs (DMVA)

Commanders Situation Report (SITREP)

1. DTG: 2313002016

2. UNIT: Points of Distribution (PODs), TF FLINT (1-125 IN)

3. POC: SFC Witgen, Robert Cell: [redacted] ail: robert.d.witgen.mil@mail.mil

4. PRESENT LOCATION: Genesee County Local EOC, 1101 Beach St., Flint, MI, 48502

5. SITUATION OVERVIEW: 1-125 IN ha i Soldiers deployed to the Flint Water Crisis in support of Distribution Operations at the Points of Distributions (PODs). Daily operations consist of receiving, tracking, and issuing out water, filters, replacement filters, and water test kits.
a. Traffic issues have been resolved at stations 3 & 6 via new traffic equipment/set-up via MDOT
b. Security issues have been addressed. The station NCOIC's will contact 1Lt Roland in the EOC for police assistance when needed. Additionally, they have POC's within the Genesee County Sheriff's Department as well as the phone numbers for the Flint PD's sergeants and patrol desk.

6. OWN SITUATION DISPOSITION /STATUS: Currently 1-125 IN has Soldiers on ground supporting the mission.
a. Soldiers are assigned and divided to man (5) Pods. Soldier is assigned to be the Supply NCO. Soldiers are assigned to th. Genesee County EOC. Soldier is assigned as the Pu lic Affairs NCOIC.

7. OPERATIONS: Operations for the next 24 hours are to continue water/filter distributions throughout the 5 designated fire stations.

8. PERSONNEL: Soldiers are currently assigned to the POD operations. in teams at Fire Stations 1, 3, 5, 6 and 8.
a.) Soldiers reverse RSOI on 20160122 (Military Technician issue)

Contact was made with Tpr. John Looney at 6:54 a.m. from the MSP Lansing Post to arrange transport of 30 additional IPAD's, Credentials and IPAD chargers from the SEOC to the Flint EOC. Tpr. Looney picked up the 30 IPAD's, Credentials and IPAD car chargers at 7:30 a.m. from the SEOC for transport to the Flint EOC. These items were delivered at 8:20 a.m. by Tpr. Looney to the local EOC for the WRT's who were deploying at 9:00 a.m.

The : cyber trained personnel from MING who were called upon to support Michigan State Police, Michigan Cyber Command Center at the MC3 located on the 3rd Floor of State Police Headquarters reported to Headquarters on 1/22/16. MING personnel are currently on stand-by and will be called upon when needed.

Supreme Court

08:50 - State Judiciary EMC John Ort reported to the SEOC regarding the Flint water emergency. Nothing to report from the Judiciary regarding the emergency. DEQ website resources shared with our State Court Administrative Office (attn: Region II) in case our Genesee County courts have any questions regarding the emergency.

Technology, Management and Budget (MDTMB)

DTMB Mail Services has drivers with trucks assisting in transporting supplies to support point of distribution centers and Flint Water Resource Teams. Three (3) drivers on Saturday, January 23.

Provided an additional 30 tablets for the Water Response Teams (151 tablets to date)
Provided an additional 500 credentialing badges for Water Response Teams (1165 credentials to date).
Provided 90 rolls of stretch wrap for the Clio Rd. Warehouse. 21 have been delivered and remaining delivered today(1/23).

Confirmed all 90 rolls have been delivered.

DTMB Senior Management met and discussed agency preparation strategies for potential cyber activity surrounding the Flint Water Issue. DTMB also reaching out to Flint CTO to offer assistance with cyber mitigation strategies.

No additional activity seen against web site Michigan.gov as of 1600 hours. Site will continued to be closely monitored overnight.

3 - additional vans requested for water delivery supporting citizens unable to get out of their homes.

Transportation (MDOT)

MDOT is providing traffic measures at Fire Station #6 on Pierson Rd. and Fire Station #3 on Martin Luther King Blvd:
-4 portable changeable message boards (2 each site).
-100 grabber traffic cones (narrow reflective cones) (50 each site)

FEMA

FEMA-STATE AGREEMENT
FEMA-3375-EM-MICHIGAN

I. PURPOSE AND BACKGROUND

On January 16, 2016, the President declared that an emergency exists in the State of Michigan. This Declaration was based on emergency conditions described in the Governor's request as resulting from contaminated water (incident) and beginning on April 25, 2014, and continuing (incident period). This is the FEMA-State Agreement (Agreement) for this emergency, designated FEMA-3375- EM (Declaration), under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. §§ 5121-5207 (Stafford Act), in accordance with 44 CFR § 206.44. This Agreement between the United States of America through the Regional Administrator, Federal Emergency Management Agency (FEMA), Department of Homeland Security (DHS) or his/her delegate, and the State of Michigan (State or Recipient) governs all federal assistance FEMA provides the State for this Declaration. Please note: not all provisions of this agreement apply, only those provisions related to the Federal assistance declared in this disaster as listed in Attachment 3.

II. GENERAL PROVISIONS

A. GRANT AWARD PACKAGE. Any federal grant award package issued under this Agreement will consist of the Declaration, this Agreement, and the *Application(s) for Federal Assistance* (Standard Form (SF) 424), including *Assurances- Non-Construction Programs* (SF-424B) and also the *Assurances - Construction Programs* (SF 424D) when applicable, submitted by the State for each grant program provided under the Declaration and this Agreement.

B. FEMA RESPONSIBILITIES. FEMA may provide to the State or residents of the State, if applicable, funds in the form of federal grant assistance or direct federal services to support the activities and programs authorized under the Stafford Act and the President's Declaration (federal assistance) in accordance with this Agreement.

C. STATE RESPONSIBILITIES.

1. The State agrees to comply with the federal grant award terms and conditions set forth in the Declaration, this Agreement and all provisions of the State Administrative Plans in place for each grant award.

2. The State agrees to lead, manage and drive the overall recovery process and coordinate recovery activities and technical support by setting appropriate state policies. The State will coordinate with local, Tribal and Federal governments and

E. FEDERAL ASSISTANCE.

1. The State has requested federal assistance and submitted FEMA Form 010-0-13 (*Request for Presidential Disaster Declaration – Major Disaster or Emergency*), the terms, representations and assurances of which are incorporated by reference.

2. Federal assistance is limited to activities necessary to alleviate damage, loss, hardship, or suffering resulting from the incident that took place during the incident period, except that reasonable expenses that were incurred in anticipation of and immediately preceding such event may be eligible.

3. Federal assistance under the Stafford Act and this Agreement is limited to those areas and programs designated by the President or FEMA in the Federal Register Notices for this major disaster or emergency, which are listed in Attachment 3 to this Agreement and are incorporated by reference.

4. All scopes of work and costs approved as a result of this Agreement, whether as estimates or final costs approved through subawards, project worksheets, or otherwise, will incorporate by reference the terms of this Agreement and must comply with applicable laws, regulations, policy and guidance in accordance with this Agreement.

F. CONTROLLING AUTHORITIES. This Agreement is subject to the following governing authorities:

1. The Stafford Act and its implementing regulations contained in Title 44 of the Code of Federal Regulations (CFR), and FEMA policy and guidance.

2. "Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards," 2 CFR Parts 200 and 3002.

3. The DHS Standard Terms and Conditions for grants, available at http://www.dhs.gov/publication/fy15-dhs-standard-terms-and-conditions which are hereby incorporated by reference.

III. TYPES OF FEDERAL ASSISTANCE

The following disaster assistance programs may be authorized when a declaration is issued however all of these forms are not necessarily included in this Declaration. The specific forms of assistance authorized for this Declaration are listed in Attachment 3 to this Agreement.

A. PUBLIC ASSISTANCE (PA). When the Declaration authorizes Emergency Work under the PA Program, and FEMA makes a PA grant award to the State, the following terms apply:

2. Payments are governed by the Treasury-State Cash Management Improvement Act (CMIA) agreements and default procedures codified at 31 CFR Part 205 (*Rules and Procedures for Efficient Federal-State Funds Transfers)* and Treasury Financial Management Manual, Volume 1, Part 4A-2000.

3. FEMA will use a "single obligation" system to process payments through a subaccount for each subaward. When FEMA identifies an overpayment, subject to the exhaustion of appeals, FEMA will deobligate the funds from the subaccount. If there are insufficient funds in the subaccount, the State will have 30 days to reimburse the HHS/Smartlink subaccount. At that time, if there are still insufficient funds in the subaccount, FEMA will refer the amount to the FEMA Finance Center (FFC) for collection.

4. The State and subrecipients have no property interest in the funds made available through the HHS/Smartlink account. At any time during the lifecycle of the grant, FEMA may adjust the amounts available to the State in HHS/Smartlink due to grant amendments, partial or full grant terminations, closeouts, or other reasons.

B. AVAILABILITY OF FUNDING. FEMA and the State agree to take measures to deliver assistance to individuals, households, governments and private nonprofits as expeditiously as possible, consistent with federal laws and regulations. To that end, the following terms and conditions apply:

1. This Agreement does not comprise an award of any type of assistance authorized for the Declaration or as described in Part III, Types of Federal Assistance, above and this Agreement does not obligate any federal funding. Rather, FEMA will separately make such award decisions for the assistance authorized for the Declaration.

2. If FEMA decides to make an award of federal assistance, such assistance will be made available within the limits of funds available from Congressional appropriations for such purposes.

3. FEMA may, in its sole discretion, if necessary because of limited funds, give first priority to assistance for individuals and households, emergency work for protection of public health and safety, and administrative costs for managing the disaster programs.

V. REPORTING

A. FEDERAL FINANCIAL REPORTS.

1. Initial and Quarterly Financial Reports. The State shall submit complete and accurate Federal Financial Reports (Standard Form 425) to the FEMA Regional Office 30 days after the end of the first federal quarter following the federal award

1. Initial and Quarterly Reports. The State shall submit performance/progress reports in compliance with each program identified under this Agreement to the FEMA Regional Office 30 days after the end of the first federal quarter following the federal award date. The Regional Administrator or designee may waive the initial report if the incident is of such magnitude and complexity that it would place an undue administrative burden on the grantee. Subsequent reporting requirements shall not be waived. The State shall submit quarterly performance/progress status reports thereafter until the grant performance period ends. Reports are due on January 30, April 30, July 30, and October 30.

2. The State shall include in its quarterly performance/progress reports (OMB Form 1660-0017 PA for PA) a status of project/subaward completion, amount of expenditures, and amount of payment for advancement or reimbursement of costs for each project/subaward funded under each of the programs authorized under this Agreement. The State shall submit project overruns requiring additional obligations to FEMA for review and approval prior to incurring costs.

3. Final Performance Report. The State shall submit a final performance/progress report 90 days from each program's grant award performance period expiration date that addresses all approved activities and the performance goals outlined in the federal award.

C. PROJECT CLOSEOUT.

1. Project Closeout Report: Within 90 days from the date the State or a subrecipient completes each project, the State shall submit a payment of claim to FEMA as required by FEMA regulations and guidance, including 44 CFR § 206.205 for PA.

2. Project Reporting: The State shall indicate on the quarterly performance/progress report each time a subrecipient has completed a project.

D. ENFORCEMENT. FEMA may suspend drawdowns, provide other special conditions or take other authorized action pursuant to 2 CFR § 200.338 (*Remedies for Noncompliance*) if the State does not submit accurate and timely reports.

E. RECORDS RETENTION.

1. State Requirement. The State will retain records for 3 years, except in certain rare circumstances described in 2 CFR § 200.333 (*Retention requirements for records*), from the date it submits the final Federal Financial Report (SF 425), to FEMA in compliance with 2 CFR § 200.333, notwithstanding the time period prescribed for subrecipients in subsection 2, Subrecipient Requirement, below.

2. Subrecipient Requirement. The State will require subrecipients to retain records for 3 years from the date that the State submits to FEMA the final expenditure report for the program in question as described above in Part V, Reporting, Section

D. STATE RESPONSIBILITIES. The State is responsible for the recovery of federal assistance expended in error, misrepresentation, fraud, or for costs otherwise disallowed or unused.

1. The State shall adjust its expenditures as it recovers funding and will report these adjustments quarterly on the Federal Financial Report, SF 425.

2. The State shall designate on its PA quarterly progress reports the applicants/ subrecipients from which they have not processed recoveries but from which recoveries are due FEMA.

3. The State is responsible for notifying FEMA of any potential debt as a result of federal funds expended in error, misrepresentation, fraud, or for costs otherwise disallowed or unused.

4. The State shall report all cases of suspected fraud to the DHS Office of Inspector General. The State agrees to cooperate with any investigation conducted by the DHS Office of Inspector General.

5. The State shall cooperate with FEMA regarding any and all lawsuits that may result from the State or FEMA's attempt to recover funds or disallow costs.

E. STATUTE OF LIMITATIONS. The three-year statute of limitations limiting FEMA's ability to recover funds paid as provided for in Section 705(a) of the Stafford Act (42 U.S.C. § 5205(a)) begins with the State's submission of the "final expenditure report" as follows:

1. The statute of limitations for recovering funds directly from the State as the recipient (that is, funds not passed through to a subrecipient) begins to run on the date that the State submits to FEMA the last complete and accurate SF 425 (Federal Financial Report) for the relevant FEMA program, as required in Part V, Reporting, Section A, Federal Financial Reports.

2. The statute of limitations for recovering funds the State passed through to a governmental subrecipient begins to run on the date the State submits to FEMA the final expenditure report for the governmental subrecipient. The final expenditure report is the complete and accurate quarterly SF 425 in which the State indicates it reflects the final expenditures for the governmental subrecipient for the relevant FEMA program under the Declaration, as required in Part V, Reporting, Section A, Federal Financial Reports, Subsection 2, Subrecipient Final Financial Report.

F. REFUNDS, REBATES AND CREDITS. The State shall transfer to FEMA the appropriate share, based on the federal support percentage, of any refund, rebate, credit or other amounts arising from the performance of this agreement. The State shall take necessary action to promptly collect all monies due or which may become due and if

B. PROGRAMMATIC ADDENDUMS. Attached and also made part of this Agreement, if applicable, are the following Programmatic Addendums, which unless indicated otherwise in Attachment 1 may be signed or agreed to on behalf of the State by the Governor's Authorized Representative (GAR) listed in Attachment 1, and are included on a case by case basis depending on the assistance designated and whether additional terms and conditions for implementation of specific assistance programs are needed:

Public Assistance Programmatic Addendum:

- *Subpart A: PA Performance Measures as needed*
- *Subpart B: Alternative Procedures, as needed*
- *Subpart C-XX as needed*
- *Subpart B-XX as needed*

C. AMENDMENTS. This Agreement may be amended at any time by written approval of both parties and will be reflected as follows:

1. All amendments to this Agreement will be listed in Attachment 4, Subpart A to this Agreement;

2. Amendments to the State Certification Officers will be reflected in updates to Attachment 1;

3. Amendments to the programs and areas designated for this Declaration will be reflected in updates to Attachment 3;

4. Amendments to any of the cost share provisions will be reflected in Attachment 4, Subpart B;

5. Amendments to the Incident, such as type and period, will be reflected in Attachment 4, Subpart C; and

6. Amendments to any other term or condition contained in this Agreement or to the Declaration will be reflected in Attachment 4, Subpart D.

XI. SIGNATURES AND EFFECTIVE DATE

A. COUNTERPART SIGNATURES. This Agreement may be executed in two or more counterparts, each of which together shall be deemed an original, but all of which together shall constitute one and the same instrument. In the event that any signature is delivered by facsimile transmission or by e-mail delivery of a .pdf format data file, such signature shall create a valid and binding obligation of the party executing with the same force and effect as if such facsimile or .pdf signature page were an original thereof.

B. EFFECTIVE DATE. This FEMA-State Agreement becomes effective on the date of signature by the last Party.

FEMA-STATE AGREEMENT
FEMA-3375-EM-MICHIGAN

ATTACHMENT 1
LIST OF STATE CERTIFICATION OFFICERS

1. The Governor hereby certifies that Anthony Katarsky is the Governor's Authorized Representative (GAR) empowered to execute on behalf of the State all necessary documents for federal assistance, including approval of subawards and certification of claims for Public Assistance. Captain Chris A. Kelenske is the Alternate Governor's Authorized Representative and is similarly empowered. Their specimen signatures follow:

GAR

Anthony Katarsky

Alternate GAR

Chris A. Kelenske

Captain Chris A. Kelenske

2. The Governor hereby certifies that Captain Chris A. Kelenske and Anthony Katarsky are the State Coordinating Officer (SCO) and Alternate SCO, respectively, who will act in cooperation with the Federal Coordinating Officer under this Declaration.

3. The Governor hereby certifies that Richard Thelen is the representative of the State authorized to receive donations or loans of surplus property on behalf of the State and to execute certification, agreements, and other necessary documents with regard thereto.

4. The Governor hereby certifies that Brianna Briggs is the State official authorized to execute compliance reports, carry out compliance reviews, and distribute informational material as required by FEMA to ensure that all recipients of federal assistance are in full compliance with FEMA nondiscrimination regulations (44 CFR Part 7, *Nondiscrimination in Federally-Assisted Programs* and 44 CFR § 206.11, *Nondiscrimination in disaster assistance*).

5. The Governor hereby certifies that Brianna Briggs is the State official who will execute compliance reports, carry out compliance reviews, and distribute informational material as required by FEMA to ensure that all recipients of federal assistance are in compliance with the General Services Administration List of Parties Excluded from Federal Procurement and Nonprocurement Programs.

Restrictions on approval authority of the above named officials: N/A.

Agreed:

Rick Snyder
Governor

1/21/2016
Date

FEMA-STATE AGREEMENT
FEMA-3375-EM-MICHIGAN

ATTACHMENT 3

LIST OF DESIGNATED AREAS AND PROGRAMS

Genesee County is eligible for emergency protective measures (Category B), limited to Direct Federal Assistance, under the Public Assistance program.

This Direct Federal Assistance is specifically limited to FEMA providing water, water filters, water filter cartridges, water test kits, and other necessary related items for a period of no more than 90 days from the date of the emergency disaster declaration.

FEMA-STATE AGREEMENT
FEMA-3375-EM-MICHIGAN

PUBLIC ASSISTANCE PROGRAMMATIC ADDENDUM

SUBPART A: PA GRANT PERFORMANCE GOALS

(TBD per new requirements in 2 CFR § 200.210)

SUBPART B: ALTERNATIVE PROCEDURES

[This section applies only when an applicant elects section 428 procedures. Insert and modify to reflect elected 428 procedures, as applicable.]

1. **Prevailing Terms and Conditions.**

FEMA has adopted several alternative procedures for the provision of Public Assistance (PA) as a pilot program pursuant to Section 428 of the Stafford Act (42 U.S.C. § 5189f). Alternative procedures are provided for in the Public Assistance Alternative Procedures for Debris Removal Pilot Guide (Version 3) dated *June 28, 2015*, the terms and conditions of which are hereby incorporated into this Agreement. Participation in the alternative procedures is at the election of the PA applicant for the subaward.

2. **Special Cost Share Adjustments for Eligible Debris Removal Projects.**

The PAAP for Debris Removal Pilot Guide provides for the use of a sliding scale for determining the federal share for removal of debris and wreckage based on the time it takes to complete debris and wreckage removal per the declared incident and also provides for a one-time incentive per applicant/subrecipient of a 2 percent cost share adjustment applied to debris removal work completed within 90 days when an applicant/subrecipient has a FEMA-accepted debris management plan before the date of the declared incident period.

Projects properly carried out under either procedure will be subject to adjustments in the federal cost share as established by the Pilot Guide which will be recorded in Attachment 4, Subpart B, Cost Share Adjustments.

[Insert any additional terms regarding the pilot programs specific to this declared incident]

Subject: Re: Flint Water

We are more than likely going to be ramping things up soon so thanks for reaching out. If you could have ready all the info we need reference existing or potential contracts we will need to use it would be appreciated. Also, distribution of replacement filters seems like it may become an issue. Would this be something DTMB could do - shipping them to addresses or would the post office/ups be better for that?

Subject: Re: EPA Sampling

Are they working GIS outside of the SEOC? They need to coordinate with the SEOC as we have been mapping all the lines with the city, county and other state agencies. It appears there are more and more disconnects with the federal partners but that may just be my perception. We have to keep them connected to the SEOC and SEMCs or we will become disjointed and less effective/efficient.

> Conveyed message to Mark Durno (EPA). He was pleased to hear that and offered that they have completed GIS efforts to map lead service lines, unknown lines, and other material lines and offered to share that with DEQ if we have anyone that would like to come to their office to view. I inquired if there is a way the information can be shared electronically and he thought perhaps pdf. I suspect there are ways to share the electronic data, but don't have a solid enough understanding of GIS to know. Please let me know if you would like me to pursue same with DNR GIS team.

> > Today, I provided EPA with 50 "Flint Water Response Team" badges and lanyards to wear when they are working in the community. These are the same badges used by the volunteer canvassing workers to assure the residents the workers knocking on their doors are legitimate. The same badges were also provided to MDARD teams earlier in the week and reported during an SEOC brief on January 29, 2016.

Today, EPA advised they deployed two sampling teams to work on sequential sampling and a filter pilot through Monday, February 1, 2016. The filter pilot was described as collection of a sample from an unfiltered tap, followed by collection from a filtered tap, installation of a new filter, and collection of a sample through the newly installed filter. They have identified 30 homes for this 3 day effort. I don't know the locations or addresses, but may be able to obtain same if needed (please advise). Results were not discussed. DEQ, Robin Oeming, accompanied one of the EPA teams during the past week, which was primarily tasked with residual chlorine sampling. DEQ did not have personnel with EPA today and none scheduled for tomorrow. Oeming is scheduled to accompany one of EPA sampling teams on Monday, February 1, 2016.

Please route to DEQ ECC for information and to inquire direction whether a DEQ representative should be deployed with each EPA sampling team going forward.

Thank you.

FEMA

FEMA-STATE AGREEMENT
FEMA-3375-EM-MICHIGAN

I. PURPOSE AND BACKGROUND

On January 16, 2016, the President declared that an emergency exists in the State of Michigan. This Declaration was based on emergency conditions described in the Governor's request as resulting from contaminated water (incident) and beginning on April 25, 2014, and continuing (incident period). This is the FEMA-State Agreement (Agreement) for this emergency, designated FEMA-3375- EM (Declaration), under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. §§ 5121-5207 (Stafford Act), in accordance with 44 CFR § 206.44. This Agreement between the United States of America through the Regional Administrator, Federal Emergency Management Agency (FEMA), Department of Homeland Security (DHS) or his/her delegate, and the State of Michigan (State or Recipient) governs all federal assistance FEMA provides the State for this Declaration. Please note: not all provisions of this agreement apply, only those provisions related to the Federal assistance declared in this disaster as listed in Attachment 3.

II. GENERAL PROVISIONS

A. GRANT AWARD PACKAGE. Any federal grant award package issued under this Agreement will consist of the Declaration, this Agreement, and the *Application(s) for Federal Assistance* (Standard Form (SF) 424), including *Assurances- Non-Construction Programs* (SF-424B) and also the *Assurances - Construction Programs* (SF 424D) when applicable, submitted by the State for each grant program provided under the Declaration and this Agreement.

B. FEMA RESPONSIBILITIES. FEMA may provide to the State or residents of the State, if applicable, funds in the form of federal grant assistance or direct federal services to support the activities and programs authorized under the Stafford Act and the President's Declaration (federal assistance) in accordance with this Agreement.

C. STATE RESPONSIBILITIES.

1. The State agrees to comply with the federal grant award terms and conditions set forth in the Declaration, this Agreement and all provisions of the State Administrative Plans in place for each grant award.

2. The State agrees to lead, manage and drive the overall recovery process and coordinate recovery activities and technical support by setting appropriate state policies. The State will coordinate with local, Tribal and Federal governments and

agencies, private businesses and nonprofit organizations to lead and coordinate state recovery planning and assistance to impacted communities.

3. The State agrees to be the "Recipient" for all federal financial assistance provided under the Stafford Act and this Agreement, with the exception of Housing Assistance or for Other Needs Assistance when administered by FEMA rather than by the State (i.e., the "the FEMA option") under the Individuals and Households Program, if applicable. The State also serves as the "pass-through entity" with respect to the State's role in providing subawards and administering grant assistance provided to sub-recipients.

   a. Recipient and pass-through entity have the same meaning as "Grantee," as used in governing statutes, regulations, and FEMA guidance.

   b. A recipient is also a "non-federal entity" for grants administration purposes.

4. The State agrees to comply with, and will require all subrecipients to comply with, the requirements of all applicable laws and regulations, including the Stafford Act, Title 44 of the Code of Federal Regulations (CFR) (*Emergency Management and Assistance*), 2 CFR Part 3002 (implementing 2 CFR Part 200 (*Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*)), and applicable FEMA policies and guidance.

   a. The term "subrecipient" has the same meaning as "subgrantee," as used in governing statutes, regulations, and FEMA guidance.

   b. A subrecipient is also a "non-federal entity" for grants administration purposes.

D. CERTIFICATION AND WAIVERS.

1. The State officials named by the Governor as authorized to execute certifications and otherwise to act on behalf of and to legally bind the State are listed on **Attachment 1** to this Agreement.

2. The State's Certification Regarding Lobbying is **Attachment 2** to this Agreement. This certification complies with the Lobbying Prohibitions in the DHS Standard Terms and Conditions and with the FEMA regulations found at 44 CFR Part 18 (*New Restrictions on Lobbying*).

3. The State waives any consultation process under Executive Order 12372 (*Intergovernmental review of Federal programs*) and 44 CFR Part 4 (*Intergovernmental Review of Federal Emergency Management Agency (FEMA) Programs and Activities*) for grants, loans, or other financial assistance under the Stafford Act for this major disaster or emergency.

E. FEDERAL ASSISTANCE.

1. The State has requested federal assistance and submitted FEMA Form 010-0-13 (*Request for Presidential Disaster Declaration – Major Disaster or Emergency*), the terms, representations and assurances of which are incorporated by reference.

2. Federal assistance is limited to activities necessary to alleviate damage, loss, hardship, or suffering resulting from the incident that took place during the incident period, except that reasonable expenses that were incurred in anticipation of and immediately preceding such event may be eligible.

3. Federal assistance under the Stafford Act and this Agreement is limited to those areas and programs designated by the President or FEMA in the Federal Register Notices for this major disaster or emergency, which are listed in **Attachment 3** to this Agreement and are incorporated by reference.

4. All scopes of work and costs approved as a result of this Agreement, whether as estimates or final costs approved through subawards, project worksheets, or otherwise, will incorporate by reference the terms of this Agreement and must comply with applicable laws, regulations, policy and guidance in accordance with this Agreement.

F. CONTROLLING AUTHORITIES. This Agreement is subject to the following governing authorities:

1. The Stafford Act and its implementing regulations contained in Title 44 of the Code of Federal Regulations (CFR), and FEMA policy and guidance.

2. "Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards," 2 CFR Parts 200 and 3002.

3. The DHS Standard Terms and Conditions for grants, available at http://www.dhs.gov/publication/fy15-dhs-standard-terms-and-conditions which are hereby incorporated by reference.

III. TYPES OF FEDERAL ASSISTANCE

The following disaster assistance programs may be authorized when a declaration is issued however all of these forms are not necessarily included in this Declaration. The specific forms of assistance authorized for this Declaration are listed in Attachment 3 to this Agreement.

A. PUBLIC ASSISTANCE (PA). When the Declaration authorizes Emergency Work under the PA Program, and FEMA makes a PA grant award to the State, the following terms apply:

1. The State agrees to make available the non-federal cost share of PA. FEMA funding will be limited to 75 percent of total eligible costs, except as may be provided for in **Attachment 4, Subpart B** reflecting cost share amendments to the Declaration and authorized cost share adjustments for debris removal if applicable under the conditions established in the attached **Public Assistance Program Addendum** for alternative procedures elected by PA applicants (subrecipients).

2. When Direct Federal Assistance is requested and the assistance is provided:

   a. The State will:

      i. Provide without cost to the United States all lands, easements, and rights-of-ways necessary to accomplish the approved work;

      ii. Hold and save the United States free from damages due to the requested work, and will indemnify the Federal Government against any claims arising from such work;

      iii. Provide reimbursement to FEMA for the non-federal share of the cost of such work; and

      iv. Assist the performing federal agency in all support and local jurisdictional matters.

   b. FEMA will bill the State for the non-federal cost share of Direct Federal Assistance provided and the State agrees to pay the non-federal share pursuant to the timeframes set forth in the letter or other correspondence transmitting the bill.

3. When debris removal is authorized, the State agrees to indemnify and hold harmless the United States for any claims arising from the removal of debris or wreckage for this major disaster or emergency. The State agrees that debris removal from public and private property will not occur until an unconditional authorization for the removal of debris is provided.

4. The attached **Public Assistance Programmatic Addendum** includes additional terms and conditions for the implementation of the PA Program as applicable, PA grant performance goals, and cost share adjustments under alternative procedures for debris removal.

IV. FUNDING

A. PAYMENT PROCESS.

1. FEMA will pay the State using the U.S. Department of Health and Human Services Payment Management System (HHS/Smartlink).

2. Payments are governed by the Treasury-State Cash Management Improvement Act (CMIA) agreements and default procedures codified at 31 CFR Part 205 (*Rules and Procedures for Efficient Federal-State Funds Transfers)* and Treasury Financial Management Manual, Volume 1, Part 4A-2000.

3. FEMA will use a "single obligation" system to process payments through a subaccount for each subaward. When FEMA identifies an overpayment, subject to the exhaustion of appeals, FEMA will deobligate the funds from the subaccount. If there are insufficient funds in the subaccount, the State will have 30 days to reimburse the HHS/Smartlink subaccount. At that time, if there are still insufficient funds in the subaccount, FEMA will refer the amount to the FEMA Finance Center (FFC) for collection.

4. The State and subrecipients have no property interest in the funds made available through the HHS/Smartlink account. At any time during the lifecycle of the grant, FEMA may adjust the amounts available to the State in HHS/Smartlink due to grant amendments, partial or full grant terminations, closeouts, or other reasons.

B. AVAILABILITY OF FUNDING. FEMA and the State agree to take measures to deliver assistance to individuals, households, governments and private nonprofits as expeditiously as possible, consistent with federal laws and regulations. To that end, the following terms and conditions apply:

1. This Agreement does not comprise an award of any type of assistance authorized for the Declaration or as described in Part III, Types of Federal Assistance, above and this Agreement does not obligate any federal funding. Rather, FEMA will separately make such award decisions for the assistance authorized for the Declaration.

2. If FEMA decides to make an award of federal assistance, such assistance will be made available within the limits of funds available from Congressional appropriations for such purposes.

3. FEMA may, in its sole discretion, if necessary because of limited funds, give first priority to assistance for individuals and households, emergency work for protection of public health and safety, and administrative costs for managing the disaster programs.

V. REPORTING

A. FEDERAL FINANCIAL REPORTS.

1. Initial and Quarterly Financial Reports. The State shall submit complete and accurate Federal Financial Reports (Standard Form 425) to the FEMA Regional Office 30 days after the end of the first federal quarter following the federal award

date for each program. The Regional Administrator or designee may waive the initial report if the incident is of such magnitude and complexity that it would place an undue administrative burden on the State. Subsequent reporting requirements shall not be waived. The State shall submit quarterly financial status reports thereafter until closeout of the federal grant award for each program funded. Reports are due on January 30, April 30, July 30, and October 30.

2. Subrecipient Final Financial Report.

   a. Requirements. After the State has submitted all payment of claim information and certifications as required in applicable regulations, including 44 CFR § 206.205 for PA, for all projects approved under a grant program for a particular subrecipient, the State will note in the remarks section of its next quarterly financial report:

      i. That the report represents the final expenditures for a particular subrecipient;

      ii. The name of that subrecipient; and

      iii. The date on which the recipient submitted to FEMA a payment of claim for each of that subrecipient's approved projects, or reference to other document submitted to FEMA that includes this information.

   b. Confirmation. FEMA will confirm the quarterly SF 425 as the final expenditure report for that subrecipient only if the State has submitted all outstanding information and certifications required by applicable regulations and FEMA policy and guidance for all the subrecipient's costs and work for the emergency or disaster.

   c. Governmental Subrecipients. This confirmed, complete and accurate quarterly report is the final expenditure report for a governmental subrecipient's final expenditures for the particular grant program for the disaster or emergency for the purposes of Section 705(a) of the Stafford Act (42 U.S.C. § 5205(a)).

3. Final Financial Report. The State shall submit a complete and accurate final Federal Financial Report (SF 425), no later than 90 days after each program's federal grant award performance period expiration date. This report is the final expenditure report reflecting the State's total expenditures by program under the federal award for the disaster or emergency for purposes of Section 705(a) of the Stafford Act (42 U.S.C. § 5205(a)).

B. PERFORMANCE REPORTS.

1. Initial and Quarterly Reports. The State shall submit performance/progress reports in compliance with each program identified under this Agreement to the FEMA Regional Office 30 days after the end of the first federal quarter following the federal award date. The Regional Administrator or designee may waive the initial report if the incident is of such magnitude and complexity that it would place an undue administrative burden on the grantee. Subsequent reporting requirements shall not be waived. The State shall submit quarterly performance/progress status reports thereafter until the grant performance period ends. Reports are due on January 30, April 30, July 30, and October 30.

2. The State shall include in its quarterly performance/progress reports (OMB Form 1660-0017 PA for PA) a status of project/subaward completion, amount of expenditures, and amount of payment for advancement or reimbursement of costs for each project/subaward funded under each of the programs authorized under this Agreement. The State shall submit project overruns requiring additional obligations to FEMA for review and approval prior to incurring costs.

3. Final Performance Report. The State shall submit a final performance/progress report 90 days from each program's grant award performance period expiration date that addresses all approved activities and the performance goals outlined in the federal award.

C. PROJECT CLOSEOUT.

1. Project Closeout Report: Within 90 days from the date the State or a subrecipient completes each project, the State shall submit a payment of claim to FEMA as required by FEMA regulations and guidance, including 44 CFR § 206.205 for PA.

2. Project Reporting: The State shall indicate on the quarterly performance/progress report each time a subrecipient has completed a project.

D. ENFORCEMENT. FEMA may suspend drawdowns, provide other special conditions or take other authorized action pursuant to 2 CFR § 200.338 (*Remedies for Noncompliance*) if the State does not submit accurate and timely reports.

E. RECORDS RETENTION.

1. State Requirement. The State will retain records for 3 years, except in certain rare circumstances described in 2 CFR § 200.333 (*Retention requirements for records*), from the date it submits the final Federal Financial Report (SF 425), to FEMA in compliance with 2 CFR § 200.333, notwithstanding the time period prescribed for subrecipients in subsection 2, Subrecipient Requirement, below.

2. Subrecipient Requirement. The State will require subrecipients to retain records for 3 years from the date that the State submits to FEMA the final expenditure report for the program in question as described above in Part V, Reporting, Section

A, Federal Financial Reports, Subsection 2, Subrecipient Final Financial Report, for that subrecipient.

VI. RECOVERY OF FUNDS

A. IN GENERAL. This agreement does not limit FEMA's right to disallow costs and recover funds based on a later audit or review during or after performance of the award to ensure compliance with the terms of the Agreement and award document, or the obligation of the recipient to return such funds, including funds paid to any subrecipient. FEMA will disallow costs for federal funds expended in error, misrepresentation, fraud, or otherwise disallowed or unused. Pursuant to the Debt Collection Improvement Act, as amended, and subject to section 705 of the Stafford Act (42 U.S.C. § 5205), the recipient is liable to repay funds to FEMA if the recipient or subrecipient has ineligible underruns (for example, actual costs are less than the amount FEMA awarded based on initial estimates); fails to comply with a term of this Agreement or the approved award/Project Worksheet documents; if costs are unreasonable; or as a result of misrepresentation or fraud. FEMA and the State will follow the reimbursement procedures provided above in Part IV, Funding, Section A, Payments.

B. DUPLICATION OF BENEFITS.

1. General. The State shall take all actions necessary and reasonable to ensure that all who receive federal assistance are aware of their responsibility to repay federal assistance that is duplicated by amounts available from insurance or any other source for the same purpose. FEMA may at any time pre-award or post-award adjust the level of funding provided to account for financial assistance provided from any other source for the same purpose as the federal assistance, or to account for benefits available for the same purpose from another source.

2. Insurance. Within his/her authorities, the Governor shall ensure, through the state agency responsible for regulation of the insurance industry, that insurance companies make full payment of eligible insurance benefits to disaster survivors and others who receive federal assistance. The State shall also take all reasonable steps to ensure that disaster survivors are aware of procedures for filing insurance claims, and are informed of any state procedures instituted for assisting insured disaster survivors.

C. COOPERATION. The State agrees, on its behalf and on behalf of its political subdivisions and others that receive federal assistance, to cooperate with the Federal Government in seeking recovery of federal assistance against any party or parties whose intentional acts or omissions or whose negligence or other tortious conduct may have caused or contributed to the damage or hardship for which federal assistance was provided under this Agreement. If applicable, FEMA will treat recovered funds as duplicated benefits available to the recipient/ subrecipient in accordance with Section 312 of the Stafford Act (42 U.S.C. § 5155).

D. STATE RESPONSIBILITIES. The State is responsible for the recovery of federal assistance expended in error, misrepresentation, fraud, or for costs otherwise disallowed or unused.

1. The State shall adjust its expenditures as it recovers funding and will report these adjustments quarterly on the Federal Financial Report, SF 425.

2. The State shall designate on its PA quarterly progress reports the applicants/ subrecipients from which they have not processed recoveries but from which recoveries are due FEMA.

3. The State is responsible for notifying FEMA of any potential debt as a result of federal funds expended in error, misrepresentation, fraud, or for costs otherwise disallowed or unused.

4. The State shall report all cases of suspected fraud to the DHS Office of Inspector General. The State agrees to cooperate with any investigation conducted by the DHS Office of Inspector General.

5. The State shall cooperate with FEMA regarding any and all lawsuits that may result from the State or FEMA's attempt to recover funds or disallow costs.

E. STATUTE OF LIMITATIONS. The three-year statute of limitations limiting FEMA's ability to recover funds paid as provided for in Section 705(a) of the Stafford Act (42 U.S.C. § 5205(a)) begins with the State's submission of the "final expenditure report" as follows:

1. The statute of limitations for recovering funds directly from the State as the recipient (that is, funds not passed through to a subrecipient) begins to run on the date that the State submits to FEMA the last complete and accurate SF 425 (Federal Financial Report) for the relevant FEMA program, as required in Part V, Reporting, Section A, Federal Financial Reports.

2. The statute of limitations for recovering funds the State passed through to a governmental subrecipient begins to run on the date the State submits to FEMA the final expenditure report for the governmental subrecipient. The final expenditure report is the complete and accurate quarterly SF 425 in which the State indicates it reflects the final expenditures for the governmental subrecipient for the relevant FEMA program under the Declaration, as required in Part V, Reporting, Section A, Federal Financial Reports, Subsection 2, Subrecipient Final Financial Report.

F. REFUNDS, REBATES AND CREDITS. The State shall transfer to FEMA the appropriate share, based on the federal support percentage, of any refund, rebate, credit or other amounts arising from the performance of this agreement. The State shall take necessary action to promptly collect all monies due or which may become due and if

applicable, to cooperate with the Federal Government in any claim or suit in connection with amounts due.

VII. CONSTRUCTION REQUIREMENTS

Prior to the start of any construction activity, the State will ensure that all applicable federal, state, and local permits and approvals are obtained and all permit conditions are addressed including FEMA and recipient/subrecipient compliance with the National Environmental Policy Act, the National Historic Preservation Act, the Endangered Species Act, and all other applicable environmental laws and executive orders. All construction should be in accordance with approved permits, projects plans and specifications, applicable building codes and program guidance.

VIII. PERFORMANCE PERIODS

A. PROGRAM/GRANT AWARD. The State will complete all grant award activities, including all projects and/or activities approved under each federal grant award, within the time period prescribed in FEMA regulations, program guidance and on the award documents.

B. EXTENSIONS. The State will include with any written request for an extension information and documentation to support the amendment and a schedule for completion. FEMA may approve subsequent work, monetary increase amendments, or activity time extension amendments only if the State submits all financial and performance reports to the appropriate Regional Office. FEMA will only approve extensions to the federal grant award period of performance or project completion timelines (if applicable) that comply with program regulatory timeframes. FEMA will not approve extensions for delays caused by lack of non-federal share funding.

IX. REMEDIES FOR NONCOMPLIANCE

FEMA may take action as it determines appropriate under the circumstances including but not limited to withholding of payments, disallowance of costs, suspension or termination of the award if the State or sub-recipient fails to comply with applicable Federal statutes, regulations or the terms of this Agreement pursuant to 2 CFR § 200.338 (Remedies for Noncompliance).

X. ATTACHMENTS, PROGRAMMATIC ADDENDUMS AND AMENDMENTS

A. ATTACHMENTS. Attached and also made part of this Agreement are the following Attachments which contain the terms and conditions applicable to all assistance provided under this Agreement:

Attachment 1: List of State Certification Officers

Attachment 2: Certification Regarding Lobbying

Attachment 3: List of Designated Programs and Areas

Attachment 4: Amendments

B. PROGRAMMATIC ADDENDUMS. Attached and also made part of this Agreement, if applicable, are the following Programmatic Addendums, which unless indicated otherwise in Attachment 1 may be signed or agreed to on behalf of the State by the Governor's Authorized Representative (GAR) listed in Attachment 1, and are included on a case by case basis depending on the assistance designated and whether additional terms and conditions for implementation of specific assistance programs are needed:

Public Assistance Programmatic Addendum:

- *Subpart A: PA Performance Measures as needed*
- *Subpart B: Alternative Procedures, as needed*
- *Subpart C-XX as needed*
- *Subpart B-XX as needed*

C. AMENDMENTS. This Agreement may be amended at any time by written approval of both parties and will be reflected as follows:

1. All amendments to this Agreement will be listed in Attachment 4, Subpart A to this Agreement;

2. Amendments to the State Certification Officers will be reflected in updates to Attachment 1;

3. Amendments to the programs and areas designated for this Declaration will be reflected in updates to Attachment 3;

4. Amendments to any of the cost share provisions will be reflected in Attachment 4, Subpart B;

5. Amendments to the Incident, such as type and period, will be reflected in Attachment 4, Subpart C; and

6. Amendments to any other term or condition contained in this Agreement or to the Declaration will be reflected in Attachment 4, Subpart D.

XI. SIGNATURES AND EFFECTIVE DATE

A. COUNTERPART SIGNATURES. This Agreement may be executed in two or more counterparts, each of which together shall be deemed an original, but all of which together shall constitute one and the same instrument. In the event that any signature is delivered by facsimile transmission or by e-mail delivery of a .pdf format data file, such signature shall create a valid and binding obligation of the party executing with the same force and effect as if such facsimile or .pdf signature page were an original thereof.

B. EFFECTIVE DATE. This FEMA-State Agreement becomes effective on the date of signature by the last Party.

ATTACHMENT 1
LIST OF STATE CERTIFICATION OFFICERS

1. The Governor hereby certifies that Anthony Katarsky is the Governor's Authorized Representative (GAR) empowered to execute on behalf of the State all necessary documents for federal assistance, including approval of subawards and certification of claims for Public Assistance. Captain Chris A. Kelenske is the Alternate Governor's Authorized Representative and is similarly empowered. Their specimen signatures follow:

GAR

Anthony Katarsky

Alternate GAR

Chris A. Kelenske

Captain Chris A. Kelenske

2. The Governor hereby certifies that Captain Chris A. Kelenske and Anthony Katarsky are the State Coordinating Officer (SCO) and Alternate SCO, respectively, who will act in cooperation with the Federal Coordinating Officer under this Declaration.

3. The Governor hereby certifies that Richard Thelen is the representative of the State authorized to receive donations or loans of surplus property on behalf of the State and to execute certification, agreements, and other necessary documents with regard thereto.

4. The Governor hereby certifies that Brianna Briggs is the State official authorized to execute compliance reports, carry out compliance reviews, and distribute informational material as required by FEMA to ensure that all recipients of federal assistance are in full compliance with FEMA nondiscrimination regulations (44 CFR Part 7, *Nondiscrimination in Federally-Assisted Programs* and 44 CFR § 206.11, *Nondiscrimination in disaster assistance*).

5. The Governor hereby certifies that Brianna Briggs is the State official who will execute compliance reports, carry out compliance reviews, and distribute informational material as required by FEMA to ensure that all recipients of federal assistance are in compliance with the General Services Administration List of Parties Excluded from Federal Procurement and Nonprocurement Programs.

Restrictions on approval authority of the above named officials: N/A.

Agreed:

Rick Snyder
Governor

FEMA-STATE AGREEMENT
FEMA-3375-EM-MICHIGAN

ATTACHMENT 2
CERTIFICATION REGARDING LOBBYING

Certification for Contracts, Grants, Loans, and Cooperative Agreements

This certification is required by the regulations implementing the New Restrictions on Lobbying, 44 CFR Part 18. The undersigned certifies, to the best of his or her knowledge and belief, that:

1. No federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any federal contract, the making of any federal grant, the making of any federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any federal contract, grant, loan, or cooperative agreement.

2. If any funds other than federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, *Disclosure Form to Report Lobbying*, in accordance with its instructions.

3. The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by 31 U.S.C. § 1352. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

Chris A. Kelenske
Captain Chris A. Kelenske
State Coordinating Officer

FEMA-STATE AGREEMENT
FEMA-3375-EM-MICHIGAN

ATTACHMENT 3

LIST OF DESIGNATED AREAS AND PROGRAMS

Genesee County is eligible for emergency protective measures (Category B), limited to Direct Federal Assistance, under the Public Assistance program.

This Direct Federal Assistance is specifically limited to FEMA providing water, water filters, water filter cartridges, water test kits, and other necessary related items for a period of no more than 90 days from the date of the emergency disaster declaration.

FEMA-STATE AGREEMENT
FEMA-3375-EM-MICHIGAN

ATTACHMENT 4
AMENDMENTS

[This attachment is a placeholder to be added to and modified to reflect changes to the cost share, incident period, designated areas, designated officials, etc., that are authorized after the original FEMA-State Agreement is signed.]

Subpart A: List of Amendments (including listing amendments to the Declaration that are not reflected as amendments to the Agreement)

Subpart B: Cost Share Amendments

Subpart C: Amendments to the Incident (Type and Period)

Subpart D: Other Amendments not otherwise reflected in Attachments 1(List of State Certification Officers) or 3 (List of Designated Programs and Areas) and including Amendments to the Declaration that are not reflected as amendments to the Agreement

FEMA-STATE AGREEMENT
FEMA-3375-EM-MICHIGAN

PUBLIC ASSISTANCE PROGRAMMATIC ADDENDUM

SUBPART A: PA GRANT PERFORMANCE GOALS

(TBD per new requirements in 2 CFR § 200.210)

SUBPART B: ALTERNATIVE PROCEDURES

[This section applies only when an applicant elects section 428 procedures. Insert and modify to reflect elected 428 procedures, as applicable.]

1. **Prevailing Terms and Conditions.**

FEMA has adopted several alternative procedures for the provision of Public Assistance (PA) as a pilot program pursuant to Section 428 of the Stafford Act (42 U.S.C. § 5189f). Alternative procedures are provided for in the Public Assistance Alternative Procedures for Debris Removal Pilot Guide (Version 3) dated *June 28, 2015*, the terms and conditions of which are hereby incorporated into this Agreement. Participation in the alternative procedures is at the election of the PA applicant for the subaward.

2. **Special Cost Share Adjustments for Eligible Debris Removal Projects.**

The PAAP for Debris Removal Pilot Guide provides for the use of a sliding scale for determining the federal share for removal of debris and wreckage based on the time it takes to complete debris and wreckage removal per the declared incident and also provides for a one-time incentive per applicant/subrecipient of a 2 percent cost share adjustment applied to debris removal work completed within 90 days when an applicant/subrecipient has a FEMA-accepted debris management plan before the date of the declared incident period.

Projects properly carried out under either procedure will be subject to adjustments in the federal cost share as established by the Pilot Guide which will be recorded in Attachment 4, Subpart B, Cost Share Adjustments.

[Insert any additional terms regarding the pilot programs specific to this declared incident]

SUBPART C-XX (*If Needed*)

Attached is the MDHHS Request Matrix for 8Feb2016. This is the latest version based on the discussions with Task Force leads and State Review. All projects are either "Response task force active/in-progress" or in a "Response task force complete" state. Please review and if you have any questions please let the information management group know. When you provide updates, please remember to include the task number with any of the updates you provide us. Jeanne and John, from Info Mgmt., are rotating out; please remember to submit your updates to gwisdalla.david@epa.gov<mailto:gwisdalla.david@epa.gov> and IRCT1.CMO@hhs.gov<mailto:IRCT1.CMO@hhs.gov>. We appreciate the due diligence given to this matrix and want to properly reflect the work being done. The collaboration and teamwork has been tremendous.

All

Good afternoon.

Please note that beginning today David Gwisdalla will be replacing me in the info cell and Bill Benerman will be replacing John Wierzbowski
David can be reached at gwisdalla.david@epa.gov and Bill's email is IRCT1.CMO@hhs.gov . You may also use the flint.ucg@hhs.gov to communicate with the info cell.

I will be working with David on transition but he will be making all updates to the matrix moving forward. As of **NOW** all changes / updates can go to both of us. As of Tuesday February 9, 2016 0800 all emails will go to David.

Attached is the MDHHS Request Matrix for 7Feb2016. This is the latest version based on the discussions with Task Force leads and State Review.
All projects are either "active/in-progress" or in a "monitoring" state. Please review and if you have any questions please let the info management group know. We appreciate the due diligence given to this matrix and want to properly reflect the work being done. The collaboration and teamwork has been tremendous.

REMOVE AND DESTROY ALL OTHER COPIES –

Subject: RE: FILTERS: Flint water main break

Update: I just received a call from the Flint Water Treatment Plant lab informing me that all of the results from the samples collected yesterday are non-detect for coliform bacteria. Again, there is no reason to believe at this point that any wide spread bacti contamination has occurred as a result of the water main break. Additional samples were collected today and those results will be available about this time tomorrow. If those sample results are good, the boil advisory can be lifted.

Subject: RE: FILTERS: Flint water main break

Update: I went to the Water Treatment Plant this morning and visited with the lab folks. 18 bacti samples were collected yesterday between 10 am and 1 pm throughout the city, not just in the lower pressure areas that occurred as a result of the water main break. There was good free chlorine residual at all the collection sites. The results from that sampling will be available about 1:30 pm today. We looked at the samples so far, and none were turning color. Again, there is no reason to believe at this point that any wide spread bacti contamination has occurred as a result of the water main break.

Subject: RE: FILTERS: Flint water main break

All,

I am sorry I was out of the UCG for much of the day when all this was developing. I understand a press release is nearly ready to go that will tell folks to replace their filter cartridges when the boil advisory is lifted. I am also sorry to see in the City's notice (link below) that they say the same thing. A boil notice for a water main break is precautionary, not because bacteria are actually known to exist in the water. The absence (or presence) of bacteria is confirmed after the water main break is repaired and bacti sample results are received, usually about 48 hours after the main is repaired. Only if bacteria are actually present in appreciable concentrations throughout the City does it makes sense to replace all the cartridges throughout the City. While we are waiting for bacti results, folks are protected by boiling the water.

https://www.cityofflint.com/wp-content/uploads/Precautionary-Boil-Water-Notice-2-9-16.pdf

Thanks. Bryce

Subject: RE: FILTERS: Flint water main break

NSF International confirmed:

When the boiled water advisory is lifted, filters exposed to contaminated water are safe to use after the cartridge has been replaced. The user should be sure to follow the manufacturer's replacement instructions as some have additional procedures that must be performed (rinsing, flushing the cartridge, resetting an indicator, etc.).

Please work with Wendy Braun to deliver accurate messaging to the citizens affected by the water main break.

Thank you,

JEN WOLF

A slightly modified statement that addresses lead reduction at the same time would be: "These filters are not certified to reduce microbiological contaminants from drinking water. Residents should boil their filtered water to ensure that their water is microbiologically safe. Residents should replace the cartridge / filter after the Boil Water Advisory has been lifted. The lead reduction capabilities of the filter should not be adversely affected by the presence of bacteria, if present."

Mitch, Jen, and others,

So, I got what feedback I could and it is essentially what we had briefly discussed.

The standards are based on treating potable water, which is microbiologically safe water, so our certification to the standards would essentially be null and void if there is bacteria in the influent. This is akin to the issue of lead levels being over 150 ppb. The filters used in Flint are not certified to remove microbiological contaminants to drinking water. Residents should boil their filtered water to ensure that their water is microbiologically safe. The, replace the cartridge / filter after the Boil Water Advisory has been lifted.

Hope this gives you what you need. If you need anything else, please let me know.

Sir,

I do not believe we will change the recommendation about changing filter cartridges after the boil advisory is lifted. There has been a lot of information pushed already about changing the cartridges and to change that at this point will only cause confusion.

The end result will be that some may change their filters early, but it has been about a month for most of them and it should be very close to the time to change them anyway.

Subject: RE: FILTERS: Flint water main break

Update: I went to the Water Treatment Plant this morning and visited with the lab folks. 18 bacti samples were collected yesterday between 10 am and 1 pm throughout the city, not just in the lower pressure areas that occurred as a result of the water main break. There was good free chlorine residual at all the collection sites. The results from that sampling will be available about 1:30 pm today. We looked at the samples so far, and none were turning color. Again, there is no reason to believe at this point that any wide spread bacti contamination has occurred as a result of the water main break.

Subject: RE: FILTERS: Flint water main break

All,

I am sorry I was out of the UCG for much of the day when all this was developing. I understand a press release is nearly ready to go that will tell folks to replace their filter cartridges when the boil advisory is lifted. I am also sorry to see in the City's notice (link below) that they say the same thing. A boil notice for a water main break is precautionary, not because bacteria are actually known to exist in the water. The absence (or presence) of bacteria is confirmed after the water main break is repaired and bacti sample results are received, usually about 48 hours after the main is repaired. Only if bacteria are actually present in appreciable concentrations throughout the City does it makes sense to replace all the cartridges throughout the City. While we are waiting for bacti results, folks are protected by boiling the water.

https://www.cityofflint.com/wp-content/uploads/Precautionary-Boil-Water-Notice-2-9-16.pdf

Thanks. Bryce

Subject: RE: FILTERS: Flint water main break

NSF International confirmed:

When the boiled water advisory is lifted, filters exposed to contaminated water are safe to use after the cartridge has been replaced. The user should be sure to follow the manufacturer's replacement instructions as some have additional procedures that must be performed (rinsing, flushing the cartridge, resetting an indicator, etc.).

Please work with Wendy Braun to deliver accurate messaging to the citizens affected by the water main break.

Thank you,

JEN WOLF

Mitch, Jen, and others,

So, I got what feedback I could and it is essentially what we had briefly discussed.

The standards are based on treating potable water, which is microbiologically safe water, so our certification to the standards would essentially be null and void if there is bacteria in the influent. This is akin to the issue of lead levels being over 150 ppb. The filters used in Flint are not certified to remove microbiological contaminants to drinking water. Residents should boil their filtered water to ensure that their water is microbiologically safe. The, replace the cartridge / filter after the Boil Water Advisory has been lifted.

Hope this gives you what you need. If you need anything else, please let me know.

> Thank you very much. How about two below. I cut copied and pasted this from email below.

#12- Clarification on Establish quality assurance system to verify safe water sources at impacted homes, schools and businesses. What is the metric? All homes, all businesses, a percentage of these facilities tested?

#37 – Infographics in clear format to demonstrate water testing results – Is the EPA map with test results enough for this?

On Feb 7, 2016, at 4:56 PM, MSP-SEOCOPSC <MSP-SEOCOPSC@michigan.gov> wrote:

Mark,

I hope this closes the loop on this question. This was an "offer" from MDHHS due to the fact that Barbara Reynolds was in the state, and might be able to provide crisis communications training to the Governor's office and DEQ should they want it.

I would like the MDHHS PIO to work with those in the JIC to determine the need if it becomes available again in the future. Thanks!

To: MSP-SEOCOPSC
Subject: RE: Request/Status Updates

In relation to #43, Barbara Reynolds has left Michigan for the time being and is not available to provide training in the near future. However, MDHHS is trying to determine whether or not she will be coming back soon. If so, we can request that she provide this training to state officials in the Governor's office and MDEQ.

Russo, Mark (MSP)

From: Galbreath, Wendy (MSP)
Sent: Monday, February 08, 2016 1:24 PM
To: Russo, Mark (MSP); April Pickard; Yount, Jane (MSP)
Subject: RE: CERT TEAMS FEMA

Hi All. The "keeper" to those sites are the teams. Unfortunately we have struggled for years for them to update the information, to no avail. No matter how much we hound them, it still is not getting done. I believe there is still a place out there that is showing Kevin Sweeney as the coordinator for that County, however, Kevin Sweeney has never been a county coordinator as you know. We understand and appreciate your frustration, we feel it too.

Jane can reach out to FEMA to see if they can do another push for updating information and she can also talk about it at her next Focus Group meeting. In the meantime, if you need instructors, feel free to send Jane and email and she can reach out to the Focus Group to get some assistance.

Sorry ☹

Wendy M. Galbreath
Support & Outreach Unit Manager
Michigan State Police, Emergency Management
And Homeland Security Division

PLEASE NOTE: Effective **February 1, 2016**, our office is moving.

Subject: RE: CERT TEAMS FEMA

Mark,

I've asked Abby for direction because I am extremely frustrated. I am hoping you would be able to help me with this issue to bring clarification to the problem. Below is some information Abby found while digging around looking for contact information for me. I am the Volunteer Program Coordinator for Newaygo County MRC and CERT programs. There are times when I need to get in touch with our neighboring programs and I have had such a difficult time because contact information is wrong, individuals who are listed as POC's are no longer there and some programs are not even viable. I was interested in finding out that Mecosta County's program is still listed under James Buttleman, considering the fact that he's been gone for almost two years now. I couldn't tell you who the new contact person is. Isabella County has four individuals in their program that meet regularly every month, but there have been talks with them merging with Montcolm/Ionia County. Lake County has a MRC and CERT Program listed, however Renee Kopach hasn't done anything with the MRC since I've been involved with Newaygo County for the past 4 years. James Andolor is listed as the CERT contact, but I don't think he's done anything with it either. I'm trying to find instructors to help teach a CERT class and I can't even begin to do that without having correct information. My other concern is Lake County has some grant funded equipment (i.e. CPR manikins) that needs to be audited to have it reallocated to active and viable programs (i.e. Newaygo County). Could you please help us with this issue? I would greatly appreciate it!

Thank you,

New Phone List

WELCOME HOME!!!

do spell *team?* E-M-H-S-D!
e, just like any new house, we'll have some adjustments to make. Roller blades seem like a necessity, some of us may need to leave *a lot* earlier to find the room, and we still have a few boxes and lots of clutter around the place. But as as we get unpacked and settled a bit, it's going to be great. You've all done an tanding job staying on task and getting EMHSD up and running in record . That's teamwork people. Nobody does it as well as you do.

General Information

SION MEETING: Due to the current SEOC activation (and everything else!) we are elling the Division Meeting previously scheduled for February 18, 2016.

ion 1 Coordinator: For those of you who are not aware, Ken High will be covering on 1 until a replacement is found for Lt. Kevin Mark. Please direct all correspondence for on 1 to Ken in the interim.

"I am the Shadout Mapes, the *HOUSEKEEPER...*"

eep our little island harmonious, here are a couple of things we'd like you to pay attention

CHEN: Be mindful not to use supplies marked for SEOC use. Be mindful not to eat ebody else's food that is stored in the kitchen, and... Please be mindful to HELP RSELVES to food in the kitchen that is marked (with a sign) as available for your snacking sure!! 'Bus your own table,' toss your own cans, wipe up your own spills. OG hates ning things. Do not be like OG.

NFERENCE ROOMS: You may reserve conference rooms on-line via the global address ow. On your Welcome Mat (placed at your desk prior to the move) you will see a listing of ns and their capacity. Please use those addresses to ***RESERVE*** the conference room to using it. We will be placing laminated room instruction sheets in each conference

room, instructing you on who to call for technical issues, and how the room is to be set up after you use it. Basically, leave it the way you found it, and turn off the tech stuff if you use it. That's coming soon to a conference room near you!

PHONE LIST: I've attached a revised version for your use. As always, the EMHSD Staff Phone list is strictly confidential and for internal use only.

DATES TO BE AWARE OF:

Wednesday February 10 – Director's Meeting. The Director, Executive Council and several other high ranking MSP members will pop in to tour the SEOC at approximately 8:15 a.m. on Wednesday. Good behavior; indoor voices; no soliciting. Following their tour, they will go to the training academy for the bulk portion of their meeting. Both Tony and Captain Kelenske will be attending, so please get any urgent approvals to us PRIOR to Wednesday, or they will have to wait.

Thursday February 11 – Please join us at 10:30 a.m., in the PEM of the YEAR/Donald S. Leonard conference rooms to commemorate the departure of Lt. Kevin Mark....*boooooo!!*

Tuesday February 16 – Please join us at 11:00 a.m., in celebrating the retirement of Lt. Mark Martinez. Location is TBD but I'm sure Joyce will send out a notification as the date gets closer.

Employee Appreciation Committee:

Soon....very soon!

STAFF BULLETIN BOARD

- If you want to join the water fund, it is $5.00 a month to Pam Strobel.
- Coffee club members pay $5.00 a month to Joel Pepper.
- Trevor Hawks is the keeper of the EMHSD calendar. Please send items to him. We're avoiding conflicts and showing people how busy we are.
- The EMHSD INTERNAL PHONE LIST is for Staff Use Only – Please send revisions to OG.
- Remember to use MI HR to update your personal information with the SOM. This includes your address, emergency contact numbers, and beneficiaries. Welcome to the MI HR Gateway

EMHSD Position Vacancies

If you are interested in any of the vacant positions above, or know a qualified applicant, please encourage them to view the posting on the state of Michigan's "Jobs" website where they can apply.

Good Morning,

Attached are the guidelines for entering your time in DCDS by coding block for those of you that are working **overtime** for the City of Flint Contamination/Shortage event. Please use **Index 28900 with PCA 28670** for overtime worked for this event. Do not use these codes for your regular hours.

Please contact one of the division timekeepers if you need additional guidance in entering the special codes for recording your overtime worked on this special event. Division timekeepers are Michelle Gilsdorf, Richard Sheaffer, and Nancy Downs.

Thank you,
Nancy

Subject: Coding for City of Flint Water Contamination incident

Good Afternoon:

For any **overtime hours** spent working in the SEOC with the City of Flint Water Contamination/Shortage event, please use the following coding:

Index 28900 with PCA 28670

Any **non-payroll** costs (travel, SEOC meals during activation, etc.) should be coded to:

Index 28900 with PCA 28671.

These codes are not yet active in DCDS but will be by the end of the week. Please let me know if you have any questions.

Thanks,
Penny

Subject: RE: Water Main Breaks

All,

Lt. Russo made contact with Foreman Jeff Church at the city Water Distribution and Sewer Maintenance Building. Mr. Church reached out to Water Distribution Supervisor Robert Benczsik over the phone, so he was part of the discussion. In regard to the questions that have been asked regarding water main breaks in Flint:

How many water main breaks over the last two years?
- Over 600 in the last two winters.

How many boiled water advisories were issued in the last two years?
- For this winter alone (2015/2016), 12 Boiled Water Advisories would have been issued. Did not have information on two-year-time frame.

Resources available to respond to breaks?
- Due to a hiring freeze, the water department is currently understaffed by 11 personnel.
- Due to a purchasing freeze, they do not have access to an budget for purchase and maintenance of budget (generally over $1 million annually in the past).
- They work with a contractor to support them if they do not have the capabilities to respond to a water main break, but this is not cost efficient.

I might still be assigned to flint, but I could come in for the meeting in the morning.

Based on the issues with even getting a room (and the possibility of being kicked out), I'll discuss with Lt Russo if we should cancel the meeting. Not great timing anyway with everything that is going on.

Subject: Water main break info

Lt. Russo,

You spoke with Rob Bencsik (?), Water Distribution Supervisor for City of Flint, the other day. Can you please reach out to him again and find out the following information:
- How many water main breaks did the City of Flint respond to over the last two years?
- How many Boiled Water Advisories have been issued in response to these breaks?
- Does the city have adequate staff and resources available to respond to water main breaks that might occur due to the currently falling temperatures, or is there assistance that could be provided to ensure that breaks can be addressed as efficiently as possible?

Since you already had direct communications, it would probably be easier for you to request that information from him instead of us reaching out through the City Liaison in the EOC.

Thanks,
Henrik

I am trying to facilitate contact with the City of Flint Water Distribution Supervisor. Until then, this is the most up to date information we have at the County EOC (via Wendy Braun Daly, Genesee County EOC City of Flint Liaison; April Swartout, Genesee County Health Department Liaison):

- City of Flint Public Works was working to close off the line on both sides of the break.
- When the water line is closed on both sides of the break, they will fix the pipe. No estimated time for when the pipe will be ready.
- Currently, water should be available to all customers on the water system. Customers might experience lower water pressure than usual.
- Once the pipe is fixed and before it goes back into use, a Boiled Water Advisory will be issued.
- Messaging for the Boiled Water Advisory is currently being developed with input from EPA and Genesee County Health Department.
- Messaging will be disseminated from City of Flint. No estimated time for when messaging will go out.
- Messaging/Boiled Water Advisory will advise residents to use bottled water or boil filtered water. They will be advised NOT to boil unfiltered water.

Mark,

Please refer to items 4 & 5 for confirmation.

Chris

DRAFT FLINT UCG INTERIM OPERATING PROCEDURE:

ROUTING AND MANAGEMENT OF STATE AND LOCAL REQUESTS (Rev # 1)

1. If UCG is **notified of a likely request**, DHHS and Federal Partners are to provide requestor with the Flint UCG Request Form (Attached).

2. Requesting city, county or State agency should attach any supporting or explanatory documentation to the Flint UCG Request Form.

3. If a request **is received** by a DHHS or Federal Partner, they are to provide requestor with the Flint UCG Request Form or assist the requestor in completing it.

4. DHHS and Federal Partners are to ask **city and county** requestors to route the request to the County EOCwho will route them to the State Emergency Operations Center on approved requests.

5. **State agency** requests are be sent to the State Emergency Operations Center for concurrence.

6. All State Coordinating Officer approved Flint UCG Request Forms and supporting or explanatory documentation are to be sent to FLINT.UCG@HHS.GOV.

7. The Deputy FHCO and IRCT Commander will monitor the FLINT.UCG@HHS.GOV account. All electronic requests will be retained in a DHHS e-mail file folder maintained by the EMG

8. The Deputy FHCO or IRCT Commander will review the Flint UCG Request Form and complete or clarify as needed before submitting to the FHCO.

9. New requests will be forwarded to the FHCO for review and approval and then to the InfoCell if approved.

10. FHCO approved requests will then be routed to the OPS Section Chief for assignment, 204 Development and Tactics plaining and operationalization.

11. If the request may obligate additional costs outside of the FHCO's authority, the FHCO may defer approval of a requests to an ASPR, CDC or other Federal Partner for approval via the UCG agency representative.

12. For any requests forwarded to another DHHS or Federal partner agency for approval, the agency's UCG representative, will track the request and return the agency's final decision on the request to the FLINT.UCG@HHS.GOV address.

13. The InfoCell will assign a tracking number to the requests and log the request on the Request Tracker.

At the Direction of the FHCO, the Flint UCG Request Form and supporting documentation may be sent to the ASPR SOC for situational awareness

Sorry, I hope this is what you are looking for. Once the locals have exhausted their resources they can request a governors declaration for a state of emergency or state of disaster, requesting state resources. The Governor then may seek federal assistance in warranted. The Michigan State Police Emergency Management and Homeland Security Division will assist in this process. Please advise if this is what you are looking for. Sorry

Under the current non-Stafford Act DHHS lead Flint Water Emergency Response, does the SEOC expect a county, county or state agency to route all new requests for federal assistance to the SEOC for concurrence/approval?

I ask because I am drafting at the request of the FHCO, an internal UCG SOP on how to process future new request the UCG may receive from a State, county or city agency.

Russo, Mark (MSP)

Subject:	*UCG In-brief (Command and General Staff/Section Chiefs) and Safety 101 (SOFR).*
Location:	UCG, 125 E Union St, 5th floor
Start:	Sat 2/13/2016 9:30 AM
End:	Sat 2/13/2016 10:00 AM
Recurrence:	(none)
Meeting Status:	Accepted
Organizer:	IRCT1.PLANS (HHS/ASPR)

Both BH Teams # 1 (outgoing) and # 2 (incoming) have been instructed to report to the UCG Flint on Saturday morning by 0930 HRS.

At that time they will attend a UCG In-brief (Command and General Staff/Section Chiefs) and Safety 101 (SOFR).

Following that they will receive a mission out-briefing from Team #1.

Insp and Ron-

FYI on the below. I just spoke to F/Lt Wolf and she has a call into Scott Schafer (at the local EOC) to discuss this with Wendy Braun. Wendy is with the city of Flint and is at the local EOC as well according to F/Lt Wolf. Scott with advise F/Lt Wolf on what the plan is as far as messaging goes and what help the city wants from the state (if any) as it pertains to this message

I'll keep you posted

Subject: RE: FILTERS: Flint water main break

NSF International confirmed:

When the boiled water advisory is lifted, filters exposed to contaminated water are safe to use after the cartridge has been replaced. The user should be sure to follow the manufacturer's replacement instructions as some have additional procedures that must be performed (rinsing, flushing the cartridge, resetting an indicator, etc.).

Please work with Wendy Braun to deliver accurate messaging to the citizens affected by the water main break.

Thank you,

JEN WOLF

The city must alter its communications as the public notice must by law be issued by them. We can reflect supplemental communications from the state's end. Who from state is in touch with the city on this issue?

Sentinel Site Teams to Discuss Process For Testing Water at Homes Across the City
402 Flint Households to Help Determine When City's Water Safe to Drink

FOR IMMEDIATE RELEASE
February 11, 2016

DATE:
Friday, Feb.12, 2016

TIME:
9 a.m.

WHERE:
Local Emergency Operations Center
Genesee County Administration Building
1101 Beach Street
Flint, MI 48502

WHO:
Sentinel site teams comprised of Michigan Department of Environmental Quality (DEQ) employees and licensed plumbers.

WHAT:
Yesterday, 10 sentinel site teams began visiting 402 identified Flint homes across the city to teach residents how to test their water in a scientifically accurate manner so they may submit regular samples to the state for testing. This in-depth level of data collection will help confirm when Flint's drinking water is safe and provide a more streamlined level of post-testing services for resident health and wellness.

To protect individuals' privacy, demonstrations will not be given at residences.

This is an opportunity for media to get photos and video of the information teams that will cover with homeowners.

This is exactly the work and service we need to provide. I greatly appreciate everyone's work on this and I know it was appreciated by the family. You clearly have shown time and time again how you all are invested in this. Thanks again for all the hours and hard work you have put into helping the citizens of Flint and serving with a purpose.

Capt.

I just left . I dropped off 3 cases of water and a Pur replacement cartridge. I spoke to home owner and her daughter who was visiting. They were not clear they could get water and cartridges from pods. I explained the process and reminded them about 211. is and was very appreciative. The daughter advised Atherton fire barn is close and will go there for more supplies when needed for her mom.

This was given to the governor's office by a group of pastors. They need to be folded into the mix and tom should work to integrated this with what he has been working on. Some may not end up being the hub if others are already in place. Pastor Hawkins was the POC on it.

Brian,

The water sample was not collected using the proper protocols for residential home sampling. Because of that we do not want it to be part of the overall database. If it is not useful to EPA then please just dump the sample and recycle the bottle. Thanks.

Scott Schaefer

Subject: RE: Flint resident- needs help/ water resources

Scott/Mark Ducharme,

The faucet looks like a normal faucet; no black debris or slime. Based on pervious discussions with the Test America there is not enough material to test.

Also, the water sample dropped off with the faucet is the grab type that needs to go to the state lab. Do you want us to bring it to the county EOC or drop it off at a fire station?

This moringna at 10:00 am I had contact at residence
Accompanied by Elevated Lead and Copper Initial Assessment Task Force #11 with UA 370 P@P Dale Collins, MDEQ Environmental Advisor Pisha Williams and MDHHS Health Advisor Carly Adams.

Dale Collins inspected his kitchen faucet and water meter. He advised has galvanized plumbing. He also stated there is black debris in the hose from the sink faucet.

provided the faucet head to Pisha Williams MDEQ, who placed it in a plastic bag and took possession of it. She advised she would have the head tested. Also taken from the residence was a water sample.

UA 370 Collins advised they would schedule a visit next week to install a new faucet.

also added he believes the water pump station located a few residence from his house is tainted with debris from the Flint river. He believes when the water was supplied from the Flint river it corroded the screen/filter at the local pumping station causing it to provide black tainted water. The pumping station is located at Chevrolet and Stevenson.

Today called again.....

Does not have a water filter and has been trying to get someone to come to his home to deliver one and help him attach it. He also has not been able to get his blood tested. His address is
Flint, MI 48504. He says he has called multiple times and no one has been to his house yet.

Subject: RE: Flint resident- needs help/ water resources

Mark Russo, I can call , and tell him there is not enough material in his faucet to test.

Scott, can DEQ arrange for a water sample to be collected following proper procedures? Timeframe? When I call him back I would like to give him an update on both the faucet and water testing.

Brian Kelly

Subject: RE: Flint resident- needs help/ water resources

Brian,

The water sample was not collected using the proper protocols for residential home sampling. Because of that we do not want it to be part of the overall database. If it is not useful to EPA then please just dump the sample and recycle the bottle. Thanks.

Scott Schaefer
DEQ – RRD

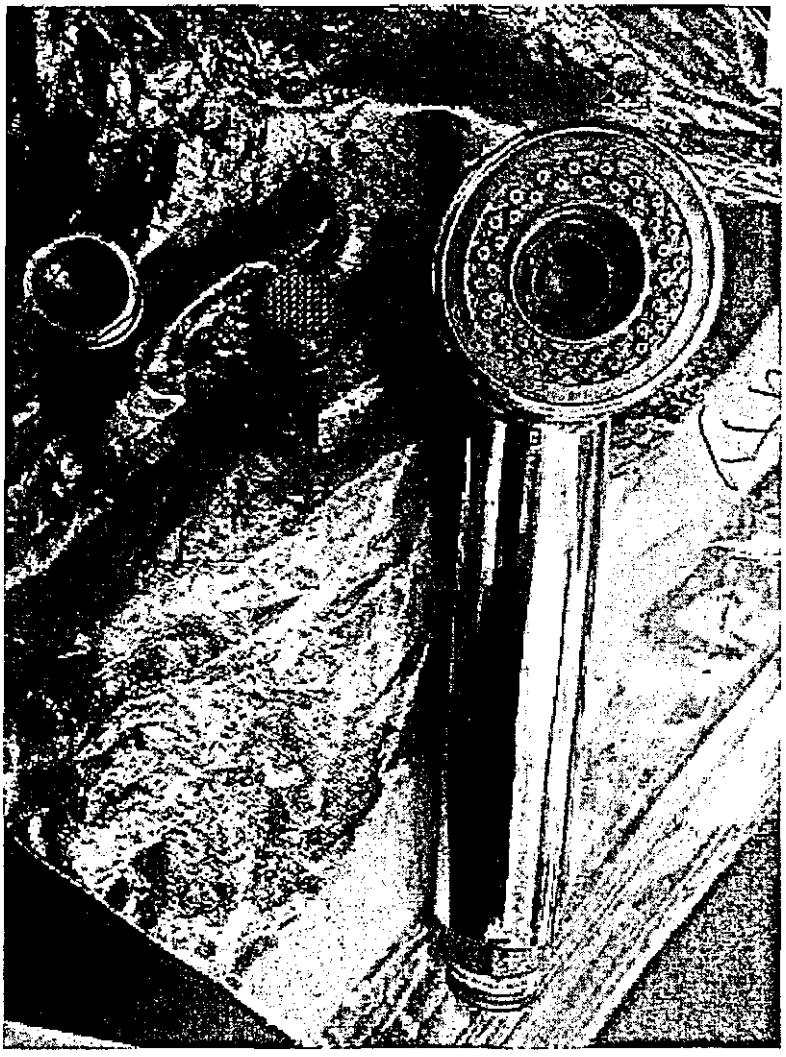
Scott/Mark Ducharme,

The faucet looks like a normal faucet; no black debris or slime. Based on pervious discussions with the Test America there is not enough material to test.

Also, the water sample dropped off with the faucet is the grab type that needs to go to the state lab. Do you want us to bring it to the county EOC or drop it off at a fire station?



Brian Kelly
Federal On-Scene Coordinator
Environmental Protection Agency, Region 5

This moringna at 10:00 am I had contact at
Accompanied by Elevated Lead and Copper Initial Assessment Task Force #11 with UA 370 P@P Dale Collins, MDEQ Environmental Advisor Pisha Williams and MDHHS Health Advisor Carly Adams.

Dale Collins inspected his kitchen faucet and water meter. He advised has galvanized plumbing. He also stated there is black debris in the hose from the sink faucet.

provided the faucet head to Pisha Williams MDEQ, who placed it in a plastic bag and took possession of it. She advised she would have the head tested. Also taken from the residence was a water sample.

UA 370 Collins advised they would schedule a visit next week to install a new faucet.

also added he believes the water pump station located a few residence from his house is tainted with debris from the Flint river. He believes when the water was supplied from the Flint river it corroded the screen/filter at the local pumping station causing it to provide black tainted water. The pumping station is located at Chevrolet and Stevenson.

We can certainly take a look at the faucet head and the material evaluate it for potential sampling. Can the DEQ sampler bring it to our Command Post? I've cc'd the folks that could be there to take a look at it?

This moringna at 10:00 am I had contact at . residence
Accompanied by Elevated Lead and Copper Initial Assessment Task Force #11 with UA 370 P@P Dale Collins, MDEQ Environmental Advisor Pisha Williams and MDHHS Health Advisor Carly Adams.

Dale Collins inspected his kitchen faucet and water meter. He advised has galvanized plumbing. He also stated there is black debris in the hose from the sink faucet.

provided the faucet head to Pisha Williams MDEQ, who placed it in a plastic bag and took possession of it. She advised she would have the head tested. Also taken from the residence was a water sample.

UA 370 Collins advised they would schedule a visit next week to install a new faucet.

also added he believes the water pump station located a few residence from his house is tainted with debris from the Flint river. He believes when the water was supplied from the Flint river it corroded the screen/filter at the local pumping station causing it to provide black tainted water. The pumping station is located at Chevrolet and Stevenson.

Just as an FYI:

12,275 Parcels Marked Vacant by Field Teams (this number has gone up since the last time this subset of data was pulled)
7,279 Parcels Marked Vacant by Field Teams but have a confirmed filter.
4,996 Parcels Marked Vacant by Field Teams and do not have a confirmed filter. These could be accurate vacant parcels but the above data casts some doubt on that.

LT Russo,

Late morning today Cheryl, the Flint Postmaster, returned my call to her regarding the request below.

In my discussion with her I broke down the request to forwarded addresses, both temporary and permanent, and a list of locations where they did not deliver mail. I suspect Cheryl may not have been entirely clear on the request originally.

Cheryl advised she sent the request to her district office for approval as sharing this information was not something they normally did.

Cheryl shared the information was kept by the Postal Service National Customer Support Center (800-238-3150) and that I was welcome to call them as well.

I advised I would wait a bit to see if she heard back from her district office and then go from there.

Subject: USPS Request

Jackie,

As you requested below is a summary of my contact with the Postmaster's Office in Flint.

On Wednesday, February 3rd, I contacted the Postmaster's Office in Flint at 810-257-1506 and spoke to Cheryl. I explained to her that we needed data on all addresses within the City of Flint where mail had been forwarded or service had been stopped for some reason (vacancy, destruction of property, etc.). I explained that I was with the State EOC and MSP and that I was requesting that information under the Michigan Emergency Management Act (PA 390). She said that she would pass along the request to the Postmaster.

I called back later that day and Cheryl informed me that I was making a rather large request and that the Postmaster had forwarded the request to the District Office and that the Postmaster's office would contact me when they had an answer. I was then out of the SEOC until this morning. There were no messages or emails from USPS during that time.

After Capt. Kelenske asked about USPS at this morning's briefing, I followed up with the Postmaster's Office where I was told that the District Office denied our request for information and that they were therefore unable to provide it. They did not provide any explanation.

I hope this is useful. Please let me know if I can be of any further assistance.

Thank you,

Alex

FYI – to go out in a few minutes. I will send the link when it's posted.

EPA Statement of Flint Water Main Break, Boil Water Order

U.S. EPA is working closely with the City of Flint and Michigan Department of Environmental Quality on the recent water main break and boil order. After the water transmission line broke on Feb. 9, EPA coordinated with CDC, ATSDR and other members of the Flint Water Response Unified Coordination Group to determine what additional steps residents should take given the current issues with lead in drinking water.

Flint residents have been advised to either drink bottled water or to drink boiled water that has been already been filtered through an NSF-certified filter rated to remove lead. Use only bottled water for water, food and formula given to babies under 1 year old. Bottled water is the safest choice for pregnant or breastfeeding women and kids under 6 years of age.

The city has isolated the broken main, and following established protocols, has checked residual chlorine levels in the drinking water system and conducted two rounds of microbial testing. The first round of microbial testing found no contamination. If the second round is also clean, the city will lift the boil order, although residents should still drink only filtered or bottled water because of the ongoing lead issue.

Especially in winter, water main breaks are common in Flint and other cities with older infrastructure. When these breaks occur, cities follow established protocols to notify residents and to ensure the safety of drinking water.

The department has been directed to provide copies of all records in our possession related to the Flint water matter to the Governor's office. You are receiving this email because you have been identified as an individual who may have records that must be produced. If there are any department members who you think may be in possession of records related to Flint water, please forward this message to those members.

Records include memos, handwritten notes, emails and attachments, and text messages in your possession, regardless of who produced the record. Be sure when you search your email messages that you look in your inbox, sent box, and trash. In preparation for the production, you must estimate the number of records you have in your possession and provide that estimate to Ms. Lori Hinkley no later than **2:00 PM on Friday, February 12, 2016.**

You must then provide a copy of each record in your possession to the Legislative and Legal Resources Section no later than close of business on **Thursday, February 18, 2016.**

Members who work at Headquarters must provide paper copies to F/Lt. Chris Hawkins in the Office of the Director. Members who work at the State Secondary Complex must provide a paper copies Ms. Lori Hinkley. Ms. Hinkley is located on the second floor of the new Headquarters building. Department members who work outside of these worksites may send copies of records in their possession via e-mail to MSP-FOIAProject@michigan.gov.

In addition to this initial production of records, the department is required to provide copies of newly created records on an ongoing basis. Until further notice, copies of all newly created records shall be forwarded to MSP-FOIAProject@michigan.gov.

REMINDER: Public records can only be disposed of consistent with an approved retention schedule. As it applies to emails and text messages related to the Flint water matter, please use the retention schedule in place for general correspondence which is **two years.** Please save all emails and text messages for at least two years. Prior to expiration of the two year period you will have an opportunity to re-evaluate the content of the messages to determine if an additional retention period is necessary. If you have issues with accommodating emails based on your mailbox size, please archive them. Do not print and file them as the metadata must be retained as well.

If you have any questions with these instructions, please contact Ms. Lori Hinkley.

Lt. Covey,,,Good morning,

I checked with Lt. Roach, and she will know Thursday regarding what her relief schedule will look like for this weekend. I informed her I am available and will wait for her call. Michelle K. and I did an overlap yesterday at the UCG. I also informed her I am available to provide her relief as well. I will keep you in the loop.

I will continue to participate in the Con Calls so I can stay current.

I will head back to west Michigan today.

Attachments: Vacant_NoFilter_20160209.xlsx; ATT00001.htm

Tom,

Here is a list of parcels that have been marked vacant by field teams and do not have confirmation of a filter. This list can be compared to the USPS information identifying homes that do not receive mail delivery.

Let me know if you have any questions.

Thanks,

Michelle Kuzera

Cc: plangc; MSP-SEOCGIS; MSP-SEOCGIS2
Subject: Residential Parcels Marked Vacant By Field Teams

Attached is the spreadsheet of addresses marked vacant by the Field Teams and do not have a filter.

Just as an FYI:

12,275 Parcels Marked Vacant by Field Teams (this number has gone up since the last time this subset of data was pulled)
7,279 Parcels Marked Vacant by Field Teams but have a confirmed filter.
4,996 Parcels Marked Vacant by Field Teams and do not have a confirmed filter. These could be accurate vacant parcels but the above data casts some doubt on that.

Subject: Coordination of efforts for Initial Flint Water Assessment Teams

Scott,

Thank you very much for the informative discussion about the types of teams that DEQ is sending to assist the Flint residents. I want to verify our discussion. When DEQ sends their "site sentinel monitoring teams" to homes, DHHS will NOT include a team member due to the type of work and length of each visit. When DEQ sends their "initial assessment team" for lead &/or copper, DHHS will send a health representative to assist with health questions of the residents. This protocol will demonstrate coordination of effort and sensitivity of the resident's needs. The CHECC is coordinating the health representatives and will assist you with your health team members. It is important to have as much advance notice of team deployment as possible. Currently, we will plan on one health representative per day unless notified otherwise. We stand ready to increase numbers to meet DEQ's needs.

Sincerely,

Jacqueline S. Scott, D.V.M., Ph.D.

Good Afternoon,

During our status update meeting the following questions were asked and I need additional clarification from state agencies:

#12- Clarification on Establish quality assurance system to verify safe water sources at impacted homes, schools and businesses. What is the metric? All homes, all businesses, a percentage of these facilities tested?

#37 – Infographics in clear format to demonstrate water testing results – Is the EPA map with test results enough for this?

#43 – Does Barbara Reynolds need to train state officials in the Governor's office and MDEQ? What is the timeline/schedule for the governor's staff?

Please call Lt. Russo tomorrow with any follow up questions.

Michelle Kuzera

Can someone look into these sites to see if they need anything for Sunday and to also coordinate with long term recovery.

Lt Roach - probably handle the Sunday items if you are in and weber on LTR. Lt covey to coordinate these tasks. Thanks.

> Hi BJ/Dave,
>
> Here's the rough working draft of a Water Operations Concept Plan for going forward into long term recovery. The idea is to transition this to a community based plan for making resources available, with whatever state support is necessary, until the water system can stand on its own.
>
> We'd like to have a meeting sometime prior to the community leaders meeting on Thursday, noonish or morning. Let me know your thoughts. I worked with Cap and FEMA to identify a list of people to invite to the working group (and POD work will have to proceed with a subgroup at a quicker pace). The list as follows; let me know your thoughts on that too.

Hi All,

The units will also have UV light for any viruses that's in the water so we will be taking out lead and viruses with the lead filter and UV light and it will produce one gallon of water per minute and can run it 24 hours if needed.

We will also send extra replacement kits with every unit so you won't have to have filters and UV lights for two years before we need new filters and lights.

Thanks, Leon

Yes indeed! Let him know we have 3 custom made units that is designed especially for the schools in Flint that take out that lead that they have.

We are having the units made as we speak and wil have them next week. We will display those units at the Gunnar Nordstroms art gallery show for a photo take along with the other two solar mobile water units that will be going to Swaziland for the orphan children who parents died of AIDS and the children and their families in Swaziland.

I just talked to Gunnar Nordstrom and he knows about the units that will be on display at his art gallery event for the world to see the Swaziland units and the units that's going to Flint Michigan.

Thanks, Leon

Hi Lt. Roach,

I'm Ali Lee and am part of the coalition team for H2O Flint. We were given your name from Ms. Bayer.

I want to thank you for all of the work you are doing. I wanted to then submit an outline for our proposal to work in collaboration in bringing clean water to schools.

We look forward to the working with the schools and their communities. I am happy to give you a call or a team conference call, if this would work for you.

Here is our outline for the water plan:

Flint Project
H2O flint clean water coalition

Mission :
provide immediate clean water to the community through every school.

Members of the coalition:
City of Flint Mayor Karen Weavers office
Oakland Community college - Deborah Bayer
Clean Water Foundation- Leon McLaughlin CWF Founder
Karen Swift - marketing and Media Director
Girl Rising Regional Ambassador Ali Lee

iUrban Teen CEO Deena Pierott
Eco8 International

Plan:

1 provide a counter top filtration unit and a pallet of bottle water to ever school in Flint MI

How:
The joint coalition will raise funds through partner organizations
Push out social media

CWF- supply the units and coordinate logistics
Girl Rising ambassadors will partner with the schools message and work as program coordinator
IUrbam Teen will help in distribution and assembly with volunteer students on assembly and data assessment
City of Flint will guarantee commitment of the ongoing clean water program and collaboration

Result
Immediate clean water that will result in 600 gal every 10 hours per unit which is 1 gal per minute

Cost
$450 COD per unit
Pallet water bottles - $485

Thank you for your time.

Best,

Ali Lee

Partners,

Mid-day today, Saturday 6 February 2016, Team Rubicon will depart the Flint area and disperse to our homes. It has been a valuable and productive experience assisting the population of Flint during this challenging time. We thank you for allowing us to come alongside you and become part of the cumulative effort. We could not have accomplished what we did without the assistance of our response partners. Kudos to you and your outstanding cooperation and teamwork.

Best regards to each of you.

Subject: HHS Press Release to go out later today associated with Secretary's visit.

Thursday, February 18, 2016
HHS awards $500,000 in funding to Flint health centers
FLINT, Mich. – U.S. Department of Health and Human Services Secretary Sylvia M. Burwell today announced $500,000 in funding to help two area health centers increase and expand activities in response to the lead contamination of Flint's water.

Following a tour of the Hamilton Community Health Network, Inc. (HCHN), Burwell and HHS Assistant Secretary for Preparedness and Response Dr. Nicole Lurie, who is leading the federal response and recovery effort in Flint, announced that HCHN and Genesee Health System (GHS) will each receive $250,000 in emergency supplemental funding to hire additional personnel and provide more lead testing, treatment, outreach, and education to meet the increased need for health services in the Flint community.

"We are focused on supporting the people of Flint by helping to ensure they have access to clean water and the health services they need to mitigate the effects of lead exposure," said Burwell. "This additional funding will allow health centers in Flint to enhance their lead testing efforts and quickly hire more staff for community outreach and to better meet the needs of the people they serve."

In addition to touring HCHN, Burwell met with community members and elected officials, including Governor Rick Snyder, about the federal government's response and recovery effort. The focus of the federal response is to work at every level of government to support state and local officials in ensuring Flint has access to safe water, and there is a clear understanding of the impact of lead exposure on residents' health in order to mitigate the damage.

"Primary care, which includes ongoing lead screening, follow up, and continued attention to a child's development, is important for children in Flint," Lurie added. "The funding we're announcing today is one of many ways we are supporting health recovery for the community, and we will continue to look across federal programs, including in health, nutrition and education, to assist the people of Flint."

Last week, during a meeting with members of House Democratic leadership and the Michigan delegation, Burwell and Lurie confirmed that HHS anticipates being able to quickly approve a number of requests, including a major Medicaid coverage expansion for children and pregnant women in Flint that would include blood-lead level monitoring, behavioral health services nutritional support, and comprehensive targeted case management, among other services.

More than 1,300 health centers, supported by Health Resources and Services Administration, operate approximately 9,000 service delivery sites in every U.S. state, D.C., Puerto Rico, the Virgin Islands and

the Pacific Basin. These health centers employ more than 170,000 staff who provide care for nearly 23 million patients. For millions of Americans, including some of the most vulnerable individuals and families, health centers are the essential medical home where they find services that promote health, diagnose and treat disease and disability, and help them cope with environmental challenges that put them at risk.

Subject: Flint Water Crisis Partner Updated Activities

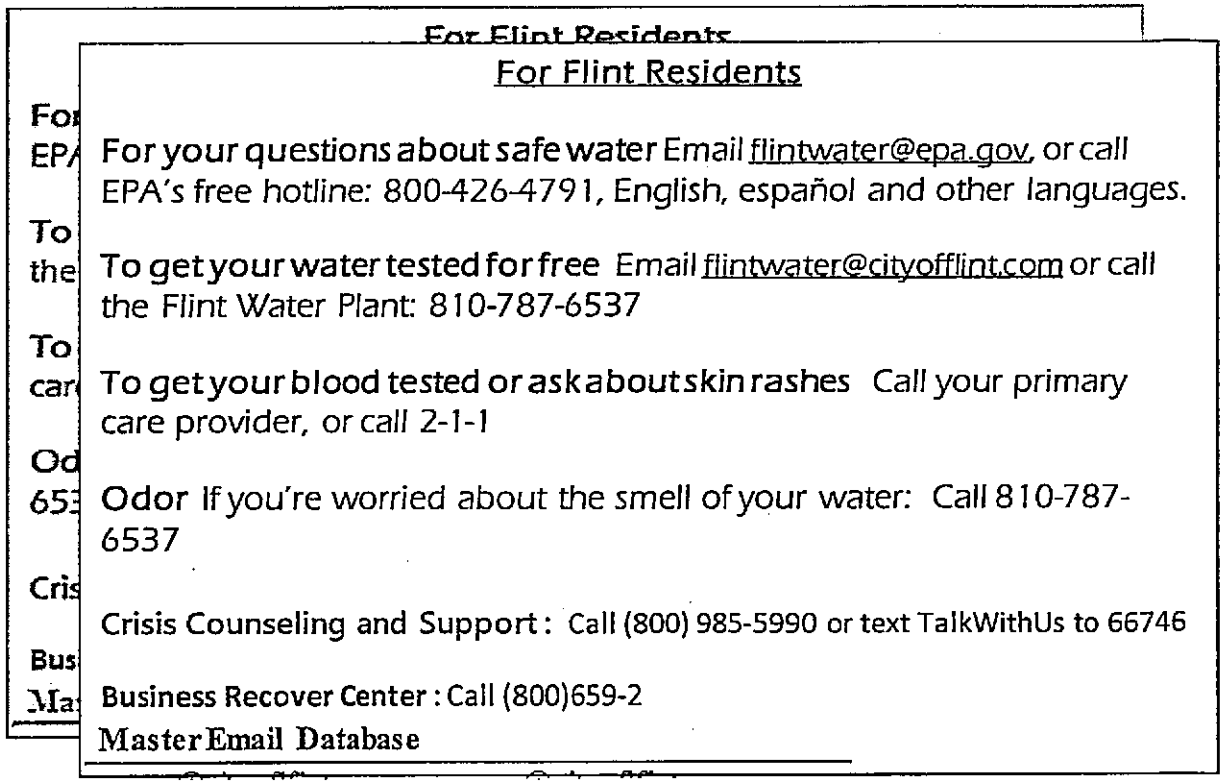
Dear Flint Water Response Partner—

In an effort to keep you updated on state and federal efforts in support of the people of Flint, we offer this **Snapshot** of how we are working across the state and federal governments to mobilize the capabilities and resources of existing programs. We hope you find the information beneficial.

Please let us know if you have any questions.

Responding to the Flint Water Crisis:
Federal, State, County and City Partners
February 10, 2016 Update

Federal agencies continue to work with state and local officials to respond to the Flint, Michigan, water crisis. Some 70 representatives from Federal agencies are co-located with state and local partners in Flint.
All levels of government are focusing their capabilities and resources on helping Flint residents recover from the water crisis. The community has shown great resilience and fortitude as it has confronted these essentially unprecedented circumstances and carried on despite the challenges.



Actions

Water Quality

To address immediate needs, government partners are working to provide safe drinking water for all Flint residents, by:

- Conducting water testing in Flint homes; more than 1,000 samples from 150 home have been collected so far
- Providing lead-removal faucet filters and replacement cartridges, to reduce lead levels in the tap water; water filters have been installed in all 2,350 privately owned homes that are overseen by HUD,
- Inspecting home drinking water systems for lead; the State of Michigan is scheduled to begin regular sampling (every two weeks) to monitor the city's water system.
- Distributing water bottles and water filters to home-delivered meal recipients,
- Showing residents how to clean accumulated debris from their home faucets, hot water heaters, and whole-house water filtration systems,
- Helping seniors and the disabled community install their water filters, and

As of today, FEMA and the State of Michigan have distributed nearly two million liters of water (1,913,982 liters) and FEMA has distributed 127,764 water filter replacement cartridges, plus 40,000 faucet and pitcher filters. Additional water contributions have come from private organizations and individuals across the country.
CDC and EPA are visiting homes with high lead levels or skin rash complaints to investigate and help ensure that Flint's water supply is as safe as possible.
EPA is working to understand the extent of lead contamination in the city's water supply by collecting drinking water samples from Flint homeowners and testing the city's water distribution system. EPA continues to post Flint sampling results by location on an interactive map at www.epa.gov/flint . The Agency has also established a hotline (800-426-4791) and an email address (flintwater@epa.gov) so that Flint residents can find results of water testing. The hotline provides immediate telephone translations into multiple languages.

Community Impact
Government partners are also looking further down the road to address the longer-term issues that are likely to arise.

A Strike Team for High Lead Homes will soon begin visiting homes with the highest lead levels to gather follow-up samples and provide information to residents.
HHS is working with the city, county, and state to ensure that children under 6 have the opportunity to have their blood sampled and analyzed for lead levels.
U.S. Public Health Service Commissioned Corps officers assisted the county health department in clearing a backlog of blood lead level screening results. The Federal team cataloged results of almost 800 finger-prick blood tests and packaged letters to parents providing test results and educational materials.
Government partners are also helping Flint officials tap into existing government funds to help address lead contamination in water and follow-up challenges.

- **TANF**: Help low-income families with children travel to testing and water distribution sites, by using USDA's TANF funds to buy bottled water and gas cards/bus passes to reach testing sites. TANF is USDA's Temporary Assistance for Needy Families program.
- **Food**: Flint schools can use certain USDA funds to buy foods high in Vitamin C, calcium and iron; these foods help block lead from getting into the blood; these foods are also being identified das important for the Flint food bank, which then distributes them to soup kitchens and food pantries as well as to other local agencies involved in food delivery.

- **WIC:** Participants in the WIC program can use their WIC vouchers to buy ready-to-feed infant formula, which does not need to be mixed with water, WIC is USDA's Special Supplemental Nutrition Program for Women, Infants, and Children.
- **Food at Schools:** Flint schools can use certain USDA funds to purchase foods high in Vitamin C, calcium, and iron that help block lead from getting into the blood,
- **Mental Health:** Flint children and families who experience emotional distress can call **(800) 985-5990** or text TalkWithUs to **66746** to talk to a trained crisis counselor.
- **Small Business Loans:** Flint business owners affected by lead contamination can apply for Small Business Association (SBA) economic injury loans. SBA will open a Business Recovery Center in Flint to administer the loans on February 10.
- **Homebuyers:** Responding to concerns that homebuyers in Flint cannot secure Federal Housing Administration (FHA)-insured loans, the Department of Housing and Urban Development (HUD) posted guidance on its website reiterating that FHA-insured loans can be made to eligible borrowers in the impacted area provided that a sufficient supply of safe and potable water is available through the installation of an eligible water purification system.

Federal Partners

As this is primarily a public health crisis, the U.S. Department of Health and Human Services (HHS) was designated as the lead federal agency responsible for coordinating the federal response and recovery efforts. HHS has joined together with other federal, state and local partners to mobilize and strengthen existing programs. They are working to identify the size and scope of the water problem and to identify and carry out actions that will improve health and decrease the impact of exposure to lead.

Federal partners include the Federal Emergency Management Agency (FEMA), the Environmental Protection Agency (EPA), Small Business Administration (SBA), Department of Housing and Urban Development (HUD), Department of Education (DoEd) and the Department of Agriculture (USDA).

Yes. Here are the draft message we will be getting out to state agencies this week, that I will be finalizing yet today or tomorrow with Lisa Briseno of the CDC:

As a result of the response in Flint, the U.S. Centers for Disease Control and Prevention are offering three opportunities for a brief crisis and risk communications for Michigan agencies. If you or someone within your agency are interested in receiving this training, please see the following dates and times:

Skype Training for Michigan Agencies
Friday, Feb. 12 from 10-11:30 a.m. EST
Tuesday, Feb. 16 from 1-2:30 p.m. EST

Crisis and Emergency Risk Communications Training via Skype
Thursday, Feb. 18 from 1-4:30 p.m. EST

To attend these trainings,

Angela,,

Would this be correct? See below answer to question #43

#43 – Does Barbara Reynolds need to train state officials in the Governor's office and MDEQ? What is the timeline/schedule for the governor's staff?

In relation to #43, Barbara Reynolds has left Michigan for the time being and is not available to provide training in the near future. However, MDHHS is trying to determine whether or not she will be coming back soon. If so, we can request that she provide this training to state officials in the Governor's office and MDEQ.

Per Ms. Minicuci,, JIC, they will be coordinating training/webinar with Barbara Reynolds. This

11:00 am. I contacted Juani Olivares Woodside Church at 810-624-0599. I followed up to inform her should be receiving supplies from the warehouse that included Spanish test kits and door hangers.

She informed me they would be cancelling their event today,, because they did not receive the medical blood kits that were ordered from their source. They were informed those kits would not be delivered until Monday

Morning

Just learned that Woodside Church is hosting a blood testing event tomorrow and Juani Olivares (one of the Hispanic community advocates) is engaged in that endeavor. She asked if it was possible to get some Spanish information materials for the event and her general door-to-door outreach that she has been engaged in.

Not sure whom to ask, but can you send some palm cards, testing materials, and if they come in on time recycling pieces in Spanish over there? The event is 2p-5p.
If already engaged for this just let me know so I can tell her as well.

Happy to put in a tasking if that is needed – just need to know whom to task.

Subject: RE: FILTERS: Flint water main break

NSF International confirmed:

When the boiled water advisory is lifted, filters exposed to contaminated water are safe to use after the cartridge has been replaced. The user should be sure to follow the manufacturer's replacement instructions as some have additional procedures that must be performed (rinsing, flushing the cartridge, resetting an indicator, etc.).

Please work with Wendy Braun to deliver accurate messaging to the citizens affected by the water main break.

Thank you,

The city must alter its communications as the public notice must by law be issued by them. We can reflect supplemental communications from the state's end. Who from state is in touch with the city on this issue?

Mitch, Jen, and others,

So, I got what feedback I could and it is essentially what we had briefly discussed.

The standards are based on treating potable water, which is microbiologically safe water, so our certification to the standards would essentially be null and void if there is bacteria in the influent. This is akin to the issue of lead levels being over 150 ppb. The filters used in Flint are not certified to remove microbiological contaminants to drinking water. Residents should boil their filtered water to ensure that their water is microbiologically safe. The, replace the cartridge / filter after the Boil Water Advisory has been lifted.

Hope this gives you what you need. If you need anything else, please let me know.

Cc: MSP-EOC-MDEQ; MSP-EOC-MDCH; MSP-EOC-MDARD; Russo, Mark (MSP)
Subject: Request/Status Updates

Good Afternoon,

During our status update meeting the following questions were asked and I need additional clarification from state agencies:

#12- Clarification on Establish quality assurance system to verify safe water sources at impacted homes, schools and businesses. What is the metric? All homes, all businesses, a percentage of these facilities tested?

#37 – Infographics in clear format to demonstrate water testing results – Is the EPA map with test results enough for this?

#43 – Does Barbara Reynolds need to train state officials in the Governor's office and MDEQ? What is the timeline/schedule for the governor's staff?

Please call Lt. Russo tomorrow with any follow up questions.

Michelle Kuzera
PLEASE NOTE: Effective **February 1, 2016, the State and Local Support Section** and the **Technical Support & Mapping Section/Emergency Management and Homeland Security Division** are moving.

Subject: RE: USPS Request

LT Russo,

Late morning today Cheryl, the Flint Postmaster, returned my call to her regarding the request below.

In my discussion with her I broke down the request to forwarded addresses, both temporary and permanent, and a list of locations where they did not deliver mail. I suspect Cheryl may not have been entirely clear on the request originally.

Cheryl advised she sent the request to her district office for approval as sharing this information was not something they normally did.

Cheryl shared the information was kept by the Postal Service National Customer Support Center (800-238-3150) and that I was welcome to call them as well.

I advised I would wait a bit to see if she heard back from her district office and then go from there.

Tom

From: MSP-SEOC10
Sent: Monday, February 08, 2016 12:23 PM
To: MSP-SEOCOPSC
Subject: USPS Request

Jackie,

As you requested below is a summary of my contact with the Postmaster's Office in Flint.

On Wednesday, February 3rd, I contacted the Postmaster's Office in Flint at 810-257-1506 and spoke to Cheryl. I explained to her that we needed data on all addresses within the City of Flint where mail had been forwarded or service had been stopped for some reason (vacancy, destruction of property, etc.). I explained that I was with the State EOC and MSP and that I was requesting that information under the Michigan Emergency Management Act (PA 390). She said that she would pass along the request to the Postmaster.

I called back later that day and Cheryl informed me that I was making a rather large request and that the Postmaster had forwarded the request to the District Office and that the Postmaster's office would contact me when they had an answer. I was then out of the SEOC until this morning. There were no messages or emails from USPS during that time.

After Capt. Kelenske asked about USPS at this morning's briefing, I followed up with the Postmaster's Office where I was told that the District Office denied our request for information and that they were therefore unable to provide it. They did not provide any explanation.

I hope this is useful. Please let me know if I can be of any further assistance.

Thank you,

Alex

2-14-16 UCG 8:30 am Conference Call Meeting

Water Quality Task Force:
• One person from EPA was admitted to the hospital which was non work related. They are scheduled for surgery today.
• Today the will be doing 8 filter grabs
• 1 sequential testing
• 40 door knocks and scheduling of sequential test, along with filter grabs

USDA:
• Nothing to report

Health and Medical Task Force:
• Tom Bowman's last day is today
• They will be meeting with the US Behavioral Health for a team meeting, to integrate with the Flint Recovery Group.
• Setting up for the incoming team with nurse case managers who are arriving today.

Public and External Affairs:
• They have a week full of visitors and meetings
• MI AGs office issued alert on scams.
• Surgeon General will be arriving tomorrow for a two day visit

American Red Cross
• Today at UCG they have a 3:00 pm meeting to review the ARC Recovery Framework, and to identify the federal representatives who will be on the recovery groups.

FEMA:

• No report

HUD:
• No report

MDEQ:
• They have a couple sentinel teams out today with 3 MDEQ and one UA 370 P & P.

CHECC:
• Per Dr. Scott residents are stating the website is confusing. They are not getting the information they want.
• The UCG advised they will work on getting infographics to make it less confusing

Genesee County Health Department:
• They are discussing how they can target the population that cannot get out and to obtain resources

3:00 pm. Participated in a UCG Community Recovery Group planning meeting with ARC LNO and UCG. ARC who is facilitating the CRG meeting is requesting the UCG to provide a point of contact for the sub groups IE: Resources, Control & Coordination, Communication, Physical Health, Mental Health, and Education.

There was further discussion of the role would be of the federal partners in these groups.

Robert Gaskill-Clemons of American Red Cross advised he did send out an invite to a few state partners to participate in the Community Recovery Group planning and sub groups.

Subject: Additional DCDS Coding - City of Flint
Attachments: Activity Tab DCDS.png

Good Afternoon:

The State Budget Office (SBO) has requested some additional coding in DCDS for staff that work on the City of Flint Water Emergency. We will still be coding all overtime costs to PCA 28670. But at their request, we will also be utilizing the "Activity" code in DCDS.

To enter Activity Code

- Open Employee Data Collection
- Click on **Activity Tab** of DCDS timesheet
- On the Unit Entry tab, under Activity column at left, enter F in drop down box and select **FDWP** when it appears.
- Enter total of **"regular and overtime hours"** related to the Flint Water emergency in cell for each date worked.
- These hours should match the total hours for each day you have entered into your timesheet.
- Save when you have entered your activity hours.

Again, this is only for hours spent working on the City of Flint Emergency and should begin with this current pay period. Please let me know if you have questions.

Thanks,
Penny

Subject: Warehouse concerns

Hello –

I have some answers/solutions to some of your concerns regarding the Kroger Warehouse:

- Temp is set at 70 degrees – owner had to turn it up to 70 due to the fact the equipment to keep the forklifts were freezing up near the rear dock.
- Lights left on – the main lights are on a rotating timer, the lights in the refrigerated areas will be turned off. He thought the Food Bank wanted to potentially us the refrigerated areas, but that is not the case so we are having those turned off.
- Doors leading to "opening" to the bottom floor – the owner of the building is going over to padlock the doors to the upstairs. This will not allow anyone to go up to that office space.

Thanks for bringing this to our attention.

Jeanette! It's been approved by the Governor's office. Can you work first thing with the Maureen to secure the lease? We will want month-to-month, full access to the entire building, as well as the parking lot. Also, Ramsey mentioned we could have use of the forklifts and pallet jacks. Another thing, we will need 99% of the shelving removed. I think the coolers can stay, but probably not the freezers.

Thanks so much Jeanette! This is so exciting!!!

Chad, if you could please proceed with getting the Adventists to staff it?

Just an FYI for everyone else.

Tom,

Here is a list of parcels that have been marked vacant by field teams and do not have confirmation of a filter. This list can be compared to the USPS information identifying homes that do not receive mail delivery.

Let me know if you have any questions.

Thanks,

Michelle Kuzera

Just as an FYI:

12,275 Parcels Marked Vacant by Field Teams (this number has gone up since the last time this subset of data was pulled)
7,279 Parcels Marked Vacant by Field Teams but have a confirmed filter.
4,996 Parcels Marked Vacant by Field Teams and do not have a confirmed filter. These could be accurate vacant parcels but the above data casts some doubt on that.

Subject: RE: USPS Request

LT Russo,

Late morning today Cheryl, the Flint Postmaster, returned my call to her regarding the request below.

In my discussion with her I broke down the request to forwarded addresses, both temporary and permanent, and a list of locations where they did not deliver mail. I suspect Cheryl may not have been entirely clear on the request originally.

Cheryl advised she sent the request to her district office for approval as sharing this information was not something they normally did.

Cheryl shared the information was kept by the Postal Service National Customer Support Center (800-238-3150) and that I was welcome to call them as well.

I advised I would wait a bit to see if she heard back from her district office and then go from there.

Subject: USPS Request

Jackie,

As you requested below is a summary of my contact with the Postmaster's Office in Flint.

On Wednesday, February 3rd, I contacted the Postmaster's Office in Flint at 810-257-1506 and spoke to Cheryl. I explained to her that we needed data on all addresses within the City of Flint where mail had been forwarded or service had been stopped for some reason (vacancy, destruction of property, etc.). I explained that I was with the State EOC and MSP and that I was requesting that information under the Michigan Emergency Management Act (PA 390). She said that she would pass along the request to the Postmaster.

I called back later that day and Cheryl informed me that I was making a rather large request and that the Postmaster had forwarded the request to the District Office and that the Postmaster's office would contact me when they had an answer. I was then out of the SEOC until this morning. There were no messages or emails from USPS during that time.

After Capt. Kelenske asked about USPS at this morning's briefing, I followed up with the Postmaster's Office where I was told that the District Office denied our request for information and that they were therefore unable to provide it. They did not provide any explanation.

I hope this is useful. Please let me know if I can be of any further assistance.

Thank you,

Alex

Subject: USPS Request

Jackie,

As you requested below is a summary of my contact with the Postmaster's Office in Flint.

On Wednesday, February 3rd, I contacted the Postmaster's Office in Flint at 810-257-1506 and spoke to Cheryl. I explained to her that we needed data on all addresses within the City of Flint where mail had been forwarded or service had been stopped for some reason (vacancy, destruction of property, etc.). I explained that I was with the State EOC and MSP and that I was requesting that information under the Michigan Emergency Management Act (PA 390). She said that she would pass along the request to the Postmaster.

I called back later that day and Cheryl informed me that I was making a rather large request and that the Postmaster had forwarded the request to the District Office and that the Postmaster's office would contact me when they had an answer. I was then out of the SEOC until this morning. There were no messages or emails from USPS during that time.

After Capt. Kelenske asked about USPS at this morning's briefing, I followed up with the Postmaster's Office where I was told that the District Office denied our request for information and that they were therefore unable to provide it. They did not provide any explanation.

I hope this is useful. Please let me know if I can be of any further assistance.

Thank you,

Alex

Who can tell us what the normal amount of water main breaks Flint has? Trying to determine what we should expect for the remainder of the winter.

What are the typical number of breaks this time of year?
Do they have the tools and supplies necessary to make a quick fix?

Subject: Residential Parcels Marked Vacant By Field Teams

Attached is the spreadsheet of addresses marked vacant by the Field Teams and do not have a filter.

Just as an FYI:

12,275 Parcels Marked Vacant by Field Teams (this number has gone up since the last time this subset of data was pulled)
7,279 Parcels Marked Vacant by Field Teams but have a confirmed filter.
4,996 Parcels Marked Vacant by Field Teams and do not have a confirmed filter. These could be accurate vacant parcels but the above data casts some doubt on that.

LT Russo,

Late morning today Cheryl, the Flint Postmaster, returned my call to her regarding the request below.

In my discussion with her I broke down the request to forwarded addresses, both temporary and permanent, and a list of locations where they did not deliver mail. I suspect Cheryl may not have been entirely clear on the request originally.

Cheryl advised she sent the request to her district office for approval as sharing this information was not something they normally did.

Cheryl shared the information was kept by the Postal Service National Customer Support Center (800-238-3150) and that I was welcome to call them as well.

I advised I would wait a bit to see if she heard back from her district office and then go from there.

I am trying to facilitate contact with the City of Flint Water Distribution Supervisor. Until then, this is the most up to date information we have at the County EOC (via Wendy Braun Daly, Genesee County EOC City of Flint Liaison; April Swartout, Genesee County Health Department Liaison):

- City of Flint Public Works was working to close off the line on both sides of the break.
- When the water line is closed on both sides of the break, they will fix the pipe. No estimated time for when the pipe will be ready.
- Currently, water should be available to all customers on the water system. Customers might experience lower water pressure than usual.
- Once the pipe is fixed and before it goes back into use, a Boiled Water Advisory will be issued.
- Messaging for the Boiled Water Advisory is currently being developed with input from EPA and Genesee County Health Department.
- Messaging will be disseminated from City of Flint. No estimated time for when messaging will go out.
- Messaging/Boiled Water Advisory will advise residents to use bottled water or boil filtered water. They will be advised NOT to boil unfiltered water.

Thank you very much. How about two below. I cut copied and pasted this from email below.

#12- Clarification on Establish quality assurance system to verify safe water sources at impacted homes, schools and businesses. What is the metric? All homes, all businesses, a percentage of these facilities tested?

#37 – Infographics in clear format to demonstrate water testing results – Is the EPA map with test results enough for this?

Mark,

I hope this closes the loop on this question. This was an "offer" from MDHHS due to the fact that Barbara Reynolds was in the state, and might be able to provide crisis communications training to the Governor's office and DEQ should they want it.

I would like the MDHHS PIO to work with those in the JIC to determine the need if it becomes available again in the future. Thanks!

To: MSP-SEOCOPSC
Subject: RE: Request/Status Updates

In relation to #43, Barbara Reynolds has left Michigan for the time being and is not available to provide training in the near future. However, MDHHS is trying to determine whether or not she will be coming back soon. If so, we can request that she provide this training to state officials in the Governor's office and MDEQ.

Subject: RE: Request/Status Updates

Hi Mark,

Just looking for clarification for DEQ. Do you need a response from DEQ on all 3 questions? Also, What is the training in reference to in #43.

Thanks! ~Jen

To: MSP-SEOCOPSC
Cc: MSP-EOC-MDEQ; MSP-EOC-MDCH; MSP-EOC-MDARD; Russo, Mark (MSP)
Subject: Request/Status Updates

Good Afternoon,

During our status update meeting the following questions were asked and I need additional clarification from state agencies:

#12- Clarification on Establish quality assurance system to verify safe water sources at impacted homes, schools and businesses. What is the metric? All homes, all businesses, a percentage of these facilities tested?

#37 – Infographics in clear format to demonstrate water testing results – Is the EPA map with test results enough for this?

#43 – Does Barbara Reynolds need to train state officials in the Governor's office and MDEQ? What is the timeline/schedule for the governor's staff?

Please call Lt. Russo tomorrow with any follow up questions.

Michelle Kuzera
PLEASE NOTE: Effective **February 1, 2016**, the **State and Local Support Section** and the **Technical Support & Mapping Section/Emergency Management and Homeland Security Division** are moving.

I replied to this already. See attached. I didn't reply to #12 and # 43 as the message implied they were not for DEQ. Regardless, I will be in the UCG tomorrow and can discuss with Sgt. Russo. Thanks. Bryce

Mark,

I hope this closes the loop on this question. This was an "offer" from MDHHS due to the fact that Barbara Reynolds was in the state, and might be able to provide crisis communications training to the Governor's office and DEQ should they want it.

I would like the MDHHS PIO to work with those in the JIC to determine the need if it becomes available again in the future. Thanks!

In relation to #43, Barbara Reynolds has left Michigan for the time being and is not available to provide training in the near future. However, MDHHS is trying to determine whether or not she will be coming back soon. If so, we can request that she provide this training to state officials in the Governor's office and MDEQ.

Subject: RE: FILTERS: Flint water main break

Jen,

The city has published info to their web site and to news agency that recommends replacement of cartridge.

Here is one
link: http://www.mlive.com/news/flint/index.ssf/2016/02/city_of_flint_issues_boil_wate.html

Wendy
Will you please confirm if the City is giving out the attached info of replacing filter after the boil water is lifted? Thanks

Scott Schaefer

Insp and Ron-

FYI on the below. I just spoke to F/Lt Wolf and she has a call into Scott Schafer (at the local EOC) to discuss this with Wendy Braun. Wendy is with the city of Flint and is at the local EOC as well according to F/Lt Wolf. Scott with advise F/Lt Wolf on what the plan is as far as messaging goes and what help the city wants from the state (if any) as it pertains to this message

I'll keep you posted

Mitch, Jen, and others,

So, I got what feedback I could and it is essentially what we had briefly discussed.

The standards are based on treating potable water, which is microbiologically safe water, so our certification to the standards would essentially be null and void if there is bacteria in the influent. This is akin to the issue of lead levels being over 150 ppb. The filters used in Flint are not certified to remove microbiological contaminants to drinking water. Residents should boil their filtered water to ensure that their water is microbiologically safe. The, replace the cartridge / filter after the Boil Water Advisory has been lifted.

Hope this gives you what you need. If you need anything else, please let me know.

All,

You have two options on the emails that need to be printed (that relate to Flint) and this needs to be done early next week.

1. Come to Lansing and print off the emails yourself.
2. Put all of your emails in a folder and then give Oralya your email password; she will go into your email and print off the emails for you (from that folder).

Still no update on the texts and how to collect them, so standby on that.

Let me know if you have any questions,
Gabe

OG,

I have a number of staff that are not in Lansing and need to do the FOIA request (emails/text):

Lt. Roach
Henrik
Lt. de Castro
Michelle Kuzera
Lt. Russo

What do you think would be the best way for them to get their information in? I had heard that today's deadline has been extended? If that's true, can we schedule them for a day next week to come in?

Lastly, what about the text messaging? I'm still "standing by" on that.

Thanks,
Gabe

Update: I went to the Water Treatment Plant this morning and visited with the lab folks. 18 bacti samples were collected yesterday between 10 am and 1 pm throughout the city, not just in the lower pressure areas that occurred as a result of the water main break. There was good free chlorine residual at all the collection sites. The results from that sampling will be available about 1:30 pm today. We looked at the samples so far, and none were turning color. Again, there is no reason to believe at this point that any wide spread bacti contamination has occurred as a result of the water main break.

Subject: RE: FILTERS: Flint water main break

All,

I am sorry I was out of the UCG for much of the day when all this was developing. I understand a press release is nearly ready to go that will tell folks to replace their filter cartridges when the boil advisory is lifted. I am also sorry to see in the City's notice (link below) that they say the same thing. A boil notice for a water main break is precautionary, not because bacteria are actually known to exist in the water. The absence (or presence) of bacteria is confirmed after the water main break is repaired and bacti sample results are received, usually about 48 hours after the main is repaired. Only if bacteria are actually present in appreciable concentrations throughout the City does it makes sense to replace all the cartridges throughout the City. While we are waiting for bacti results, folks are protected by boiling the water.

https://www.cityofflint.com/wp-content/uploads/Precautionary-Boil-Water-Notice-2-9-16.pdf

Subject: Flint water main break

Mitch, Jen, and others,

So, I got what feedback I could and it is essentially what we had briefly discussed.

The standards are based on treating potable water, which is microbiologically safe water, so our certification to the standards would essentially be null and void if there is bacteria in the influent. This is akin to the issue of lead levels being over 150 ppb. The filters used in Flint are not certified to remove microbiological contaminants to drinking water. Residents should boil their filtered water to ensure that their water is microbiologically safe. The, replace the cartridge / filter after the Boil Water Advisory has been lifted.

Hope this gives you what you need. If you need anything else, please let me know.

Capt. Kelenske,

Attached is the Governor's Data Report. There is a decrease in number of total residential parcels and total residential active water subscribers. Seven parcels were originally classified as residential parcels and were found to be right-of-way or easements. The data has been updated to remove those seven properties. Per my conversation with Sam this morning, the graphs were updated by Ben last night.

Please let me know if you have any questions.

I was indeed. I understand we need most of the food shelving out. My site manager, Justin Campau will be at the site at 1 p.m. if you or someone would like to show us which shelves need to be moved out we can get the movers to get on it. I understand trucks of water are coming (or waiting) so I am ready to turn it over quickly. You let me know what your next move is and we will be ready (or so I hope)!

Lt. You guys are doing a GREAT JOB THANKS SO MUCH.

AO

On Jan 29, 2016, at 6:38 PM, Russo, Mark (MSP) <RussoM3@michigan.gov> wrote:

Pastor Ellison, Harris, and Overton,

Below is a list of churches that have volunteered to be Church Distribution Hubs. I had direct contact with the pastors and their point of contacts. I have also conducted site assessments at their facilities. It was conveyed to them that this initial plan was a collaborative effort, and may change with input from all parties involved.
It was discussed, and agreed that the HUB churches would network with the surrounding churches, and set up their own agreed upon distribution schedule. It was requested that the HUB church provide a list of churches that are obtaining their water from the HUB church. This list can be sent via email to Lt. Roach at Roachb@michigan.gov.
Hopefully this plan will further assist and augment our initiative of getting water to our residents more efficiently.

Request for Water

At this time the Church HUB point of contact is Lt. Roach . The Church HUB will call and provide the quantity of water, and schedule the delivery time. This should be scheduled at least 24 hours in advance.

Deliveries

The deliveries will be conducted by a Mi DTMB driver, and truck. They have a pallet jack and the capability of moving pallets from their truck to a staging area. If the water needs to be transported to an upper or lower level, there needs to be people to assist off-loading.

Church Distributions

The Church Distribution HUB would be responsible to network with the surrounding churches, and set up a distribution schedule, along with amounts of water needed.

Pastor Ellison, Harris, and Overton,

Tomorrow I plan on finalizing the Church Hub Distribution plan. I have met with several Pastors and have conducted several site visits. The plan is a good start knowing we can always edit and change. I will send it out to you tomorrow for review.

Subject: RE: Flint resident- needs help/ water resources

Brian,

The water sample was not collected using the proper protocols for residential home sampling. Because of that we do not want it to be part of the overall database. If it is not useful to EPA then please just dump the sample and recycle the bottle. Thanks.

Scott/Mark Ducharme,

The faucet looks like a normal faucet; no black debris or slime. Based on pervious discussions with the Test America there is not enough material to test.

Also, the water sample dropped off with the faucet is the grab type that needs to go to the state lab. Do you want us to bring it to the county EOC or drop it off at a fire station?

This moringna at 10:00 am I had contact at . esidence
Accompanied by Elevated Lead and Copper Initial Assessment Task Force #11 with UA 370 P@P Dale Collins, MDEQ Environmental Advisor Pisha Williams and MDHHS Health Advisor Carly Adams.

Dale Collins inspected his kitchen faucet and water meter. He advised . has galvanized plumbing. He also stated there is black debris in the hose from the sink faucet.

provided the faucet head to Pisha Williams MDEQ, who placed it in a plastic bag and took possession of it. She advised she would have the head tested. Also taken from the residence was a water sample.

UA 370 Collins advised they would schedule a visit next week to install a new faucet.

also added he believes the water pump station located a few residence from his house is tainted with debris from the Flint river. He believes when the water was supplied from the Flint river it corroded the screen/filter at the local pumping station causing it to provide black tainted water. The pumping station is located at Chevrolet and Stevenson.

Good morning, just giving an update on situation. I contacted Wendy Daily, Flint Water Dept. Wendy advised I contact Rob at the Flint Water Dept. being Rob handles citizen complaints/issues. I contacted Rob this morning and advised him of the situation. Rob said he would call I called to advise him Rob was going to contact him. As I was talking with Rob rang in. I just talked tc . Rob did call him but the conversation sounded a little confrontational. felt Rob was trying to diagnose his water and disregard there was a problem without ever seeing it. Rob did advise the station located down the road from was not a pumping station. Rob did agree to send someone from the city to house, possibly today. I will follow-up with later today. Once again, he was very appreciative for the help received by the team that visited his house. Lt. Roach

Subject: Genesee Co Jail

Hi Rachel, I just spoke to Commissioner Curtis, Genesee Co Board Chair, reference water testing at the Genesee Co Jail. Comm. Curtis advised independent water testing at the jail has been performed by a certified lab. The testing showed the jail had one wash sink in the medical room that was problematic. The sink was only a wash sink and not used for drinking. Due to that, the sink was removed and replaced with a California certified faucet as a precaution. The latest testing was approx. 2 weeks ago. Comm. Curtis is more than happy to provide test results and documents to you when he returns to work on Tuesday. I hope you find this helpful. Thank you, Lt. Roach

Subject: FW: Flint resident- needs help/ water resources

Hi Capt., I wanted to pass along another shining example of Lt. Russo's fine work in Flint. was extremely upset over the condition of his water and felt no one was listening. understands Flint has a lead issue but is concerned about the black tainted water coming out of his faucets. Lt. Russo made it a point to visit to try to understand what his frustrations are and what could be done to try to alleviate them. Lt. Russo listened to and arranged for a DEQ team to go to his home. A water sample was taken and is faucet examined. Although, the problem with water is not currently solved, he took the time to call Lt. Russo and thank him for personally visiting him and asking the "right" questions. y felt that someone finally listened to him. We will continue to follow-up with with the city of Flint water dept. and DEQ. Any questions, please let me know. Thank you. Lt. Roach

Brian,

He was given a water sample bottle and training on how he can sample his water himself which would the best way since the tap needs to have not been used for 6 hrs. That would be the easiest way for this to be completed.

Mark Russo, I can call and tell him there is not enough material in his faucet to test.

Scott, can DEQ arrange for a water sample to be collected following proper procedures? Timeframe? When I call him back I would like to give him an update on both the faucet and water testing.

Subject: RE: Flint resident- needs help/ water resources

Brian,

The water sample was not collected using the proper protocols for residential home sampling. Because of that we do not want it to be part of the overall database. If it is not useful to EPA then please just dump the sample and recycle the bottle. Thanks.

Scott/Mark Ducharme,

The faucet looks like a normal faucet; no black debris or slime. Based on pervious discussions with the Test America there is not enough material to test.

Also, the water sample dropped off with the faucet is the grab type that needs to go to the state lab. Do you want us to bring it to the county EOC or drop it off at a fire station?

This moringna at 10:00 am I had contact at residence
Accompanied by Elevated Lead and Copper Initial Assessment Task Force #11 with UA 370 P@P Dale Collins, MDEQ Environmental Advisor Pisha Williams and MDHHS Health Advisor Carly Adams.

Dale Collins inspected his kitchen faucet and water meter. He advised has galvanized plumbing. He also stated there is black debris in the hose from the sink faucet.

provided the faucet head to Pisha Williams MDEQ, who placed it in a plastic bag and took possession of it. She advised she would have the head tested. Also taken from the residence was a water sample.

UA 370 Collins advised they would schedule a visit next week to install a new faucet.

also added he believes the water pump station located a few residence from his house is tainted with debris from the Flint river. He believes when the water was supplied from the Flint river it corroded the screen/filter at the local pumping station causing it to provide black tainted water. The pumping station is located at Chevrolet and Stevenson.

Morning

Just learned that Woodside Church is hosting a blood testing event tomorrow and Juani Olivares (one of the Hispanic community advocates) is engaged in that endeavor. She asked if it was possible to get some Spanish information materials for the event and her general door-to-door outreach that she has been engaged in.

Not sure whom to ask, but can you send some palm cards, testing materials, and if they come in on time recycling pieces in Spanish over there? The event is 2p-5p.
If already engaged for this just let me know so I can tell her as well.

Happy to put in a tasking if that is needed – just need to know whom to task.

The city must alter its communications as the public notice must by law be issued by them. We can reflect supplemental communications from the state's end. Who from state is in touch with the city on this issue?

All
A slightly modified statement that addresses lead reduction at the same time would be: "These filters are not certified to reduce microbiological contaminants from drinking water. Residents should boil their filtered water to ensure that their water is microbiologically safe. Residents should replace the cartridge / filter after the Boil Water Advisory has been lifted. The lead reduction capabilities of the filter should not be adversely affected by the presence of bacteria, if present."
Thanks

Subject: Flint water main break

Mitch, Jen, and others,

So, I got what feedback I could and it is essentially what we had briefly discussed.

The standards are based on treating potable water, which is microbiologically safe water, so our certification to the standards would essentially be null and void if there is bacteria in the influent. This is akin to the issue of lead levels being over 150 ppb. The filters used in Flint are not certified to remove microbiological contaminants to drinking water. Residents should boil their filtered water to ensure that their water is microbiologically safe. The, replace the cartridge / filter after the Boil Water Advisory has been lifted.

Hope this gives you what you need. If you need anything else, please let me know.

Subject: Signal One Request

Good morning Operations Lieutenants:

Capt. Christopher Stolicker, Acting FSB Commander, has authorized a Signal One in preparation for the potential of civil unrest in the City of Flint today, Friday, February 19, 2016. The Signal One will be for on-duty regularly scheduled day and afternoon shift personnel at Third District posts. Would please send out the notification as outlined in Official Order #4:

Signal One – Third District posts - Regularly scheduled day and afternoon patrols

A Signal One is in effect immediately for scheduled Third District posts.

The Signal One is in preparation for the potential of civil unrest resulting from a planned protest in the City of Flint today, February 19, 2016.

Impacted personnel are to take the appropriate actions in response to the Signal One, as outlined in Official Order #4. The MIOC and Third District command will continue to monitor events for public safety and situational awareness recognizing that all citizens have a constitutionally protected right to assemble.

Authority: Capt. Christopher W. Stolicker, Acting Deputy Director, Field Services Bureau

Cc: NG MI MIARNG List JOCJFHQStaffOnly; armyinfantry31@yahoo.com
Subject: Moving Forward

Sir,

I was asked to join a meeting this morning as the National Guard's Liaison. It ended up being more like a "moving forward" briefing. Representatives from the following agencies were there:

State Police (LT Roach)
Genesee County Office of the Sheriff (Sheriff Pickell and Cpt Tafoya)
April from the Genesee County Health Department
Genesee County Emergency Manager Chris
4 Local Pastors from different Churches all within Flint

Pastor Jeffery Hawkins from Prince of Peace Missionary Baptist Church in Flint, led the meeting. Pastor Hawkins developed a plan and is pitching it to local resources.

Pastor Hawkins would like for each of Flint's 9 Wards to have an assigned "Hub". Each Ward will also have 3 Sub-Hubs.

Hubs would be Churches that would store water, filters, and water test kits. Each Hub would take on the responsibility of a POD while also being responsible for supplying their Ward's Sub-Hubs.

Sub-Hubs would also be Churches within the Ward. These Sub-Hubs would also act as a POD.

Pastor Hawkins has thought this through. He has all Hub locations identified and their Pastors on board. He is suggesting that the Fire Station PODs be closed and that these Hubs take over. He is not suggesting the National Guard's

Mission be over, just that the National Guard Soldiers assist at the 9 Hubs. The overall consensus of the room was that this is a good plan, the wrinkles just need to be ironed out. This idea sounds like a better long term sustainment plan. This would put the water emergency back into the local population's hands. Sheriff Pickell stated that he is 100% behind this plan and that he fully supports Pastor Hawkins.

Pastor Hawkins would like all questions be sent to him via email at p_pastor@att.net
His timeline for this operation to kick off is 01 March 2016. He is requesting all questions be sent to him by Monday 08 Feb 2016 and that a follow-up meeting be conducted 17 Feb 2016.

I am requesting that this COA be considered and either I can receive some feedback I can take to the follow up meeting; or that someone with a higher authority than me be present in the follow up meeting.

Attached is Pastor Hawkins' plan.

Michelle,

For Monday,,,

In a few minutes I am going to advise Anthony Voirin and Deputy FHCO John Smart to disregard looking into the USPS request. I believe this was requested last Monday, so it may not be an ASK they can accomplish. I spoke with Tom Bowman today before he left, and there was no significant update.

Also, regarding the below update from my activity log..... Robert Glaskill-Clemons advised there was a request sent to the Governor's office and SEOC for participation in the Community Recovery Group.

I believe Tom Weber is involved, but not aware of other state agencies. I asked Robert to forward me the plan, because I have not received it, unless you have it. Also I asked him to forward the invite that he sent to the SOEC.

Glaskill-Clemons also asked for the status of the plan Tom Weber is working on. I advised him, I believe it is in draft form.

3:00 pm. Participated in a UCG Community Recovery Group planning meeting with ARC LNO and UCG. ARC who is facilitating the CRG meeting is requesting the UCG to provide a point of contact for the sub groups IE: Resources, Control & Coordination, Communication, Physical Health, Mental Health, and Education.

There was further discussion of the role would be of the federal partners in these groups.

Robert Gaskill-Clemons of American Red Cross advised he did send out an invite to a few state partners to participate in the Community Recovery Group planning and sub groups.

Resources, Control & Coordination, Communication, Physical Health, Mental Health, and Education.

There was further discussion of the role would be of the federal partners in these groups.

Robert Gaskill-Clemons of American Red Cross advised he did send out an invite to a few state partners to participate in the Community Recovery Group planning and sub groups.

Subject: Bullet Reminder
Importance: High

Good afternoon all,

This is your reminder to send me your daily activity bullet points.

ACTIONS:
1. Compile a short list (5-7) of bullet pointed major activities for today.
2. Email the completed bullet points to msp-seocda1@michigan.gov.

Bullet points are due by 5p.m.

Thank you,

Zach Baker, PEM
Situation/Documentation Unit Leader, State Emergency Operations Center
Michigan State Police/Emergency Management and Homeland Security

> Hi Rachel, I just spoke to Commissioner Curtis, Genesee Co Board Chair, reference water testing at the Genesee Co Jail. Comm. Curtis advised independent water testing at the jail has been performed by a certified lab. The testing showed the jail had one wash sink in the medical room that was problematic. The sink was only a wash sink and not used for drinking. Due to that, the sink was removed and replaced with a California certified faucet as a precaution. The latest testing was approx. 2 weeks ago. Comm. Curtis is more than happy to provide test results and documents to you when he returns to work on Tuesday. I hope you find this helpful. Thank you, Lt. Roach

Brian,

The water sample was not collected using the proper protocols for residential home sampling. Because of that we do not want it to be part of the overall database. If it is not useful to EPA then please just dump the sample and recycle the bottle. Thanks.

Scott/Mark Ducharme,

The faucet looks like a normal faucet; no black debris or slime. Based on pervious discussions with the Test America there is not enough material to test.

Also, the water sample dropped off with the faucet is the grab type that needs to go to the state lab. Do you want us to bring it to the county EOC or drop it off at a fire station?

This moringna at 10:00 am I had contact at residence
Accompanied by Elevated Lead and Copper Initial Assessment Task Force #11 with UA 370 P@P Dale Collins, MDEQ Environmental Advisor Pisha Williams and MDHHS Health Advisor Carly Adams.

Dale Collins inspected his kitchen faucet and water meter. He advised has galvanized plumbing. He also stated there is black debris in the hose from the sink faucet.

provided the faucet head to Pisha Williams MDEQ, who placed it in a plastic bag and took possession of it. She advised she would have the head tested. Also taken from the residence was a water sample.

UA 370 Collins advised they would schedule a visit next week to install a new faucet.

also added he believes the water pump station located a few residence from his house is tainted with debris from the Flint river. He believes when the water was supplied from the Flint river it corroded the screen/filter at the local pumping station causing it to provide black tainted water. The pumping station is located at Chevrolet and Stevenson.

Jesse Jackson, church leaders planning Flint water contamination march

FLINT, Mich. (WLS) --
Civil Rights leader Rev. Jesse Jackson and some Flint, Mich., church leaders are **planning a massive march in protest of the water contamination crisis.** Jackson and the leaders say **they have their own plan to restore clean water to the city.** The leader of the Rainbow PUSH Coalition didn't hold back his feelings about the way the people of Flint have been treated. "An attempt to save short-term money has created a multi-billion dollar project. New pipes, a new water system. There's at one layer there's it's unethical what has happened, another level its illegal. But the third level, there's reconstruction," Jackson said. Jackson says flint is the defining moment in urban reconstruction, in rebuilding America and putting America back to work. **The march is being planned for Friday, Feb. 19.**

Capt. Kelenske,

Attached is the Governor's Data Report. There is a decrease in number of total residential parcels and total residential active water subscribers. Seven parcels were originally classified as residential parcels and were found to be right-of-way or easements. The data has been updated to remove those seven properties. Per my conversation with Sam this morning, the graphs were updated by Ben last night.

Please let me know if you have any questions.

Sent: Tuesday, February 09, 2016 6:49 PM
To: Russo, Mark (MSP)
Subject: RE: USPS Request

LT Russo,

Late morning today Cheryl, the Flint Postmaster, returned my call to her regarding the request below.

In my discussion with her I broke down the request to forwarded addresses, both temporary and permanent, and a list of locations where they did not deliver mail. I suspect Cheryl may not have been entirely clear on the request originally.

Cheryl advised she sent the request to her district office for approval as sharing this information was not something they normally did.

Cheryl shared the information was kept by the Postal Service National Customer Support Center (800-238-3150) and that I was welcome to call them as well.

I advised I would wait a bit to see if she heard back from her district office and then go from there.

Tom

Sent: Monday, February 08, 2016 12:23 PM
To: MSP-SEOCOPSC
Subject: USPS Request

Jackie,

As you requested below is a summary of my contact with the Postmaster's Office in Flint.

On Wednesday, February 3rd, I contacted the Postmaster's Office in Flint at 810-257-1506 and spoke to Cheryl. I explained to her that we needed data on all addresses within the City of Flint where mail had been forwarded or service had been stopped for some reason (vacancy, destruction of property, etc.). I explained that I was with the State EOC and MSP and that I was requesting that information under the Michigan Emergency Management Act (PA 390). She said that she would pass along the request to the Postmaster.

I called back later that day and Cheryl informed me that I was making a rather large request and that the Postmaster had forwarded the request to the District Office and that the Postmaster's office would contact me when they had an answer. I was then out of the SEOC until this morning. There were no messages or emails from USPS during that time.

After Capt. Kelenske asked about USPS at this morning's briefing, I followed up with the Postmaster's Office where I was told that the District Office denied our request for information and that they were therefore unable to provide it. They did not provide any explanation.

I hope this is useful. Please let me know if I can be of any further assistance.

Thank you,

Alex

Subject: Activity Log

As a follow up from the below Activity Log entry from 2-13-16,, MDEQ Mark Ducharme took the faucet head and transported it to the EPA for further testing. I spoke with Mark Durno EPA at the UCG, he advised once the testing is complete EPA will make contact with John Duty.

Lt. Roach will make contact with City of Flint water Mark Glasgow 810-820-0829, and have them make contact with Mr. Duty regarding the pumping station.

Form 2-13-16: 10:00 am: Contact at residence :
Accompanied by Elevated Lead and Copper Initial Assessment Task Force #11 with UA 370 P@P Dale Collins, MDEQ Environmental Advisor Pisha Williams and MDHHS Health Advisor Carly Adams.

Dale Collins inspected his kitchen faucet and water meter. He advised has galvanized plumbing. He also stated there is black debris in the hose from the sink faucet.

provided the faucet head to Pisha Williams MDEQ, who placed it in a plastic bag and took possession of it. She advised she would have the head tested. Also taken from the residence was a water sample.

UA 370 Collins advised they would schedule a visit next week to install a new faucet.

also added he believes the water pump station located a few residence from his house is tainted with debris from the Flint river. He believes when the water was supplied from the Flint river it corroded the screen/filter at the local pumping station causing it to provide black tainted water. The pumping station is located at Chevrolet and Stevenson.

Subject: Lesonya Burrell of Philedelphia Pennsylvania

Ms. Ginna Holmes Executive Director Michigan Community Service Commission received a telephone call from Ms. Lesonya Burrell of Philadelphia Pennsylvania . Ms. Burrell advised she was en-route from the state of Pennsylvania to Flint with approximately 20 cases of water to donate. Accompanying was Ms. Burrell's two children.

At 4:00 pm I received a call from Ms. Burrell advising she was in Streetsboro Ohio with vehicle problems. She advised her vehicle had issues with the windshield wipers and window cleaner dispenser. She indicated the weather was getting bad and was asking if we could assist.

Ms Holmes. Lt. Roach and I assisted by contacting the Ohio State Highway Patrol, and spoke with Tpr. William Head 440-317-0587. We requested to send a trooper to Ms. Burrell's location to assist. A trooper made contact with Ms. Burrell at Sheetz Gas Station Streetsboro OH.

We contacted the local Wal-Mart Assistant Store Director Ray K @ 330-626-9990 . Ray advised they would be able to receive the water from Ms. Burrell, and facilitate the donation. Ray further advised when the water was dropped off by Ms. Burrell, she went inside the store and purchased another 20 cases of water to be donated to Flint.

Ray K. from Wal-Mart added they will be contacting their Invoice Department to coordinate the donations with the local United Way and Catholic Charities.

Please reach out to Mike Glasgow 810-820-0829 Flint City Water. Please share with him . concerns about the Chevrolet and Stevenson Road Water Pump station. believes the screens/filter is tainted with black debris, from the Flint River. I believe the City should make personal contact with . to address his concerns. Below is what we did this weekend. I will call in a few to tell him the faucet is now at the EPA.

10:00 am: Contact at residence . Accompanied by Elevated Lead and Copper Initial Assessment Task Force #11 with UA 370 P@P Dale Collins, MDEQ Environmental Advisor Pisha Williams and MDHHS Health Advisor Carly Adams.

Dale Collins inspected his kitchen faucet and water meter. He advised has galvanized plumbing. He also stated there is black debris in the hose from the sink faucet.

Subject: Warehouse concerns

Hello –

I have some answers/solutions to some of your concerns regarding the Kroger Warehouse:

- Temp is set at 70 degrees – owner had to turn it up to 70 due to the fact the equipment to keep the forklifts were freezing up near the rear dock.
- Lights left on – the main lights are on a rotating timer, the lights in the refrigerated areas will be turned off. He thought the Food Bank wanted to potentially us the refrigerated areas, but that is not the case so we are having those turned off.
- Doors leading to "opening" to the bottom floor – the owner of the building is going over to padlock the doors to the upstairs. This will not allow anyone to go up to that office space.

Thanks for bringing this to our attention.

Scott,

See below,, can we have that faucet head delivered to the UCG. I can bring Pisha Williams there if that will work?

Subject: RE: Flint resident- needs help/ water resources

We can certainly take a look at the faucet head and the material evaluate it for potential sampling. Can the DEQ sampler bring it to our Command Post? I've cc'd the folks that could be there to take a look at it?

This moringna at 10:00 am I had contact at residence
Accompanied by Elevated Lead and Copper Initial Assessment Task Force #11 with UA 370 P@P Dale Collins, MDEQ Environmental Advisor Pisha Williams and MDHHS Health Advisor Carly Adams.

Dale Collins inspected his kitchen faucet and water meter. He advised has galvanized plumbing. He also stated there is black debris in the hose from the sink faucet.

provided the faucet head to Pisha Williams MDEQ, who placed it in a plastic bag and took possession of it. She advised she would have the head tested. Also taken from the residence was a water sample.

UA 370 Collins advised they would schedule a visit next week to install a new faucet.

also added he believes the water pump station located a few residence from his house is tainted with debris from the Flint river. He believes when the water was supplied from the Flint river it corroded the screen/filter at the local pumping station causing it to provide black tainted water. The pumping station is located at Chevrolet and Stevenson.

11:00 am. I contacted Juani Olivares Woodside Church at 810-624-0599. I followed up to inform her should be receiving supplies from the warehouse that included Spanish test kits and door hangers.

She informed me they would be cancelling their event today,, because they did not receive the medical blood kits that were ordered from their source. They were informed those kits would not be delivered until Monday

Morning

Just learned that Woodside Church is hosting a blood testing event tomorrow and Juani Olivares (one of the Hispanic community advocates) is engaged in that endeavor. She asked if it was possible to get some Spanish information materials for the event and her general door-to-door outreach that she has been engaged in.

Not sure whom to ask, but can you send some palm cards, testing materials, and if they come in on time recycling pieces in Spanish over there? The event is 2p-5p.
If already engaged for this just let me know so I can tell her as well.

Happy to put in a tasking if that is needed – just need to know whom to task.

Tom,

Here is a list of parcels that have been marked vacant by field teams and do not have confirmation of a filter. This list can be compared to the USPS information identifying homes that do not receive mail delivery.

Let me know if you have any questions.

Thanks,

Michelle Kuzera

Subject: Residential Parcels Marked Vacant By Field Teams

Attached is the spreadsheet of addresses marked vacant by the Field Teams and do not have a filter.

Just as an FYI:

12,275 Parcels Marked Vacant by Field Teams (this number has gone up since the last time this subset of data was pulled)
7,279 Parcels Marked Vacant by Field Teams but have a confirmed filter.
4,996 Parcels Marked Vacant by Field Teams and do not have a confirmed filter. These could be accurate vacant parcels but the above data casts some doubt on that.

Jackie,

As you requested below is a summary of my contact with the Postmaster's Office in Flint.

On Wednesday, February 3rd, I contacted the Postmaster's Office in Flint at 810-257-1506 and spoke to Cheryl. I explained to her that we needed data on all addresses within the City of Flint where mail had been forwarded or service had been stopped for some reason (vacancy, destruction of property, etc.). I explained that I was with the State EOC and MSP and that I was requesting that information under the Michigan Emergency Management Act (PA 390). She said that she would pass along the request to the Postmaster.

I called back later that day and Cheryl informed me that I was making a rather large request and that the Postmaster had forwarded the request to the District Office and that the Postmaster's office would contact me when they had an answer. I was then out of the SEOC until this morning. There were no messages or emails from USPS during that time.

After Capt. Kelenske asked about USPS at this morning's briefing, I followed up with the Postmaster's Office where I was told that the District Office denied our request for information and that they were therefore unable to provide it. They did not provide any explanation.

I hope this is useful. Please let me know if I can be of any further assistance.

Thank you,

Alex

Status of

I had telephone conversation with at 5:00 pm. He advised the American Red Cross team was at his residence today and supplied him with water. He has a non-traditional faucet, so he cannot use the Brita or Pur filter system. He does have a pitcher filter system, however he is drinking bottle water due to the water being very dark. He advised he lives near the water pumping station his water quality is very poor.

He asked if his water could be tested.

As a result of this call,, tomorrow we are sending the DEQ Initial Assessment Team, which has a plumber assigned. The plumber and pipe fighters have Kohler products available, if a new faucet should be installed.

Subject: USPS Request

Jackie,

As you requested below is a summary of my contact with the Postmaster's Office in Flint.

On Wednesday, February 3rd, I contacted the Postmaster's Office in Flint at 810-257-1506 and spoke to Cheryl. I explained to her that we needed data on all addresses within the City of Flint where mail had been forwarded or service had been stopped for some reason (vacancy, destruction of property, etc.). I explained that I was with the State EOC and MSP and that I was requesting that information under the Michigan Emergency Management Act (PA 390). She said that she would pass along the request to the Postmaster.

I called back later that day and Cheryl informed me that I was making a rather large request and that the Postmaster had forwarded the request to the District Office and that the Postmaster's office would contact me when they had an answer. I was then out of the SEOC until this morning. There were no messages or emails from USPS during that time.

After Capt. Kelenske asked about USPS at this morning's briefing, I followed up with the Postmaster's Office where I was told that the District Office denied our request for information and that they were therefore unable to provide it. They did not provide any explanation.

I hope this is useful. Please let me know if I can be of any further assistance.

Thank you,

Alex

Tom,

Here is a list of parcels that have been marked vacant by field teams and do not have confirmation of a filter. This list can be compared to the USPS information identifying homes that do not receive mail delivery.

Let me know if you have any questions.

Thanks,

Michelle Kuzera
PLEASE NOTE: Effective **February 1, 2016**, the **State and Local Support Section/Emergency Management and Homeland Security Division** are moving.

Subject: Residential Parcels Marked Vacant By Field Teams

Attached is the spreadsheet of addresses marked vacant by the Field Teams and do not have a filter.

Just as an FYI:

12,275 Parcels Marked Vacant by Field Teams (this number has gone up since the last time this subset of data was pulled)
7,279 Parcels Marked Vacant by Field Teams but have a confirmed filter.
4,996 Parcels Marked Vacant by Field Teams and do not have a confirmed filter. These could be accurate vacant parcels but the above data casts some doubt on that.

Subject: RE: USPS Request

LT Russo,

Late morning today Cheryl, the Flint Postmaster, returned my call to her regarding the request below.

In my discussion with her I broke down the request to forwarded addresses, both temporary and permanent, and a list of locations where they did not deliver mail. I suspect Cheryl may not have been entirely clear on the request originally.

Cheryl advised she sent the request to her district office for approval as sharing this information was not something they normally did.

Cheryl shared the information was kept by the Postal Service National Customer Support Center (800-238-3150) and that I was welcome to call them as well.

I advised I would wait a bit to see if she heard back from her district office and then go from there.

Flint police chief says he's been fired by mayor

Robert Allen, Detroit Free Press 2:48 p.m. EST February 12, 2016

Flint Police Chief James Tolbert said he was fired Friday unexpectedly. "I don't know how it came about," said Tolbert, 55, a former deputy police chief in Detroit. "With the restoration of power to the mayor, the mayor has full authority to hire and fire as she sees fit."

Tolbert said there hadn't been any problems between him and Mayor Karen Weaver, and being police chief of the city was "a really great experience." He was in the position for about two years and four months before he said Weaver told him Friday morning that he was fired. "I really enjoyed working with the outstanding officers," he said. "They do an outstanding job with limited resources."

Flint has been under an emergency manager the past few years, and under that system, the mayor's office loses power to decide who the police chief is. In Detroit, Police Chief James Craig was appointed under an emergency manager, but Mayor Mike Duggan decided to keep him in the position

after the emergency management ended. WZZM13.com also reports that **Flint Fire Chief David Cox Jr. was fired.**

Tolbert has 38 years of law enforcement experience and previously worked for Detroit Police Department. He said he doesn't have plans yet for what to do next. "Of course I would've loved to see a lot of the initiatives I started all the way to fruition," he said. "That's just the way it is in the field of chiefs of police. **You are serving at the will of the mayor."**

EPA Statement of Flint Water Main Break, Boil Water Order

U.S. EPA is working closely with the City of Flint and Michigan Department of Environmental Quality on the recent water main break and boil order. After the water transmission line broke on Feb. 9, EPA coordinated with CDC, ATSDR and other members of the Flint Water Response Unified Coordination Group to determine what additional steps residents should take given the current issues with lead in drinking water.

Flint residents have been advised to either drink bottled water or to drink boiled water that has been already been filtered through an NSF-certified filter rated to remove lead. Use only bottled water for water, food and formula given to babies under 1 year old. Bottled water is the safest choice for pregnant or breastfeeding women and kids under 6 years of age.

The city has isolated the broken main, and following established protocols, has checked residual chlorine levels in the drinking water system and conducted two rounds of microbial testing. The first round of microbial testing found no contamination. If the second round is also clean, the city will lift the boil order, although residents should still drink only filtered or bottled water because of the ongoing lead issue.

Especially in winter, water main breaks are common in Flint and other cities with older infrastructure. When these breaks occur, cities follow established protocols to notify residents and to ensure the safety of drinking water.

Mike,

This is Ionia's EMPG report,,,, EM Devries advises the Plan is at the State,,, what does that mean?

Top of Form

EMD-031a (6/2015)
MICHIGAN STATE POLICE
Emergency Management and Homeland Security Division

IV. Hazard Mitigation

The EMC should participate in activities to eliminate hazards or mitigate the effects of hazards that cannot be reasonably prevented. If the jurisdiction intends to receive mitigation funds, the EMC shall ensure that the jurisdiction's hazard mitigation plan is developed and updated every five (5) years.

Document whether your community has a developed a hazard mitigation plan. Community is covered by a hazard mitigation plan: **Document whether your community has a developed a hazard mitigation plan.**

Community is covered by a hazard mitigation plan:

1. Yes
2. No
3. Adopted County Plan

Plan is expired: **Plan is expired:**

1. Yes
2. No

Your answer to question 4c. (Expiration Date:) must be a valid date.
Confirm the expiration date of the jurisdiction's hazard mitigation plan: **Confirm the expiration date of the jurisdiction's hazard mitigation plan:**
Expiration Date:
Format: mm/dd/yyyy
Document appropriate steps taken by your jurisdiction to create a new or update expired plan between 10/1/15 and 12/31/15: **Document appropriate steps taken by your jurisdiction to create a new or update expired plan between 10/1/15 and 12/31/15:**

1. Assembling a local planning team
2. Collecting information about local hazard impacts
3. Identifying vulnerabilities
4. Editing the document
5. Offering the document for stakeholder and public review
6. Meetings to brainstorm and select hazard mitigation actions
7. Describing the details of action item implementation
8. Official plan adoption by participating jurisdictions

Report how many action items listed in the hazard mitigation plan have been completed between 10/1/15 and 12/31/15: **Report how many action items listed in the hazard mitigation plan have been completed between 10/1/15 and 12/31/15:**

Descriptions	Number of Action Items

I did not send BJ this email. I am not going to bother her today.

Schedule:
2-12-2016- I am relieving BJ at Genesee County EOC
2-13-2016- Genesee Count EOC
2-14-2016- I will be relieving Michelle at UCG. Soon as I clear UCG Sunday, I will be going to County EOC to relieve BJ for the evening. After I clear EOC Sunday I will be heading back to 6th District.

I just left I dropped off 3 cases of water and a Pur replacement cartridge. I spoke to home owner and her daughter who was visiting. They were not clear they could get water and cartridges from pods. I explained the process and reminded them about 211. and was very appreciative. The daughter advised Atherton fire barn is close and will go there for more supplies when needed for her mom.

Mark,

Thank you for all of your support and assistance. Please find attached a list of Stakeholders, Community Partners and Faith based organizations complied from the American Red Cross, the list you provided, and by way of my on-line research. Some of these contacts may repeat and be duplicative. However, its the master comprehensive list.

I have enjoyed working with you. Please reach out if I can be of further assistance.

Kesha

Lt. Covey,,,Good morning,

I checked with Lt. Roach, and she will know Thursday regarding what her relief schedule will look like for this weekend. I informed her I am available and will wait for her call. Michelle K. and I did an overlap yesterday at the UCG. I also informed her I am available to provide her relief as well. I will keep you in the loop.

I will continue to participate in the Con Calls so I can stay current.

I will head back to west Michigan today.

NSF International confirmed:

When the boiled water advisory is lifted, filters exposed to contaminated water are safe to use after the cartridge has been replaced. The user should be sure to follow the manufacturer's replacement instructions as some have additional procedures that must be performed (rinsing, flushing the cartridge, resetting an indicator, etc.).

Please work with Wendy Braun to deliver accurate messaging to the citizens affected by the water main break.

Thank you,

JEN WOLF

The city must alter its communications as the public notice must by law be issued by them. We can reflect supplemental communications from the state's end. Who from state is in touch with the city on this issue?

> The standards are based on treating potable water, which is microbiologically safe water, so our certification to the standards would essentially be null and void if there is bacteria in the influent. This is akin to the issue of lead levels being over 150 ppb. The filters used in Flint are not certified to remove microbiological contaminants to drinking water. Residents should boil their filtered water to ensure that their water is

microbiologically safe. The, replace the cartridge / filter after the Boil Water Advisory has been lifted.

Hope this gives you what you need. If you need anything else, please let me know.

Subject: Flint water main break

Mitch, Jen, and others,

So, I got what feedback I could and it is essentially what we had briefly discussed.

The standards are based on treating potable water, which is microbiologically safe water, so our certification to the standards would essentially be null and void if there is bacteria in the influent. This is akin to the issue of lead levels being over 150 ppb. The filters used in Flint are not certified to remove microbiological contaminants to drinking water. Residents should boil their filtered water to ensure that their water is microbiologically safe. The, replace the cartridge / filter after the Boil Water Advisory has been lifted.

Hope this gives you what you need. If you need anything else, please let me know.

LT Russo,

Late morning today Cheryl, the Flint Postmaster, returned my call to her regarding the request below.

In my discussion with her I broke down the request to forwarded addresses, both temporary and permanent, and a list of locations where they did not deliver mail. I suspect Cheryl may not have been entirely clear on the request originally.

Cheryl advised she sent the request to her district office for approval as sharing this information was not something they normally did.

Cheryl shared the information was kept by the Postal Service National Customer Support Center (800-238-3150) and that I was welcome to call them as well.

I advised I would wait a bit to see if she heard back from her district office and then go from there.

Jackie,

As you requested below is a summary of my contact with the Postmaster's Office in Flint.

On Wednesday, February 3rd, I contacted the Postmaster's Office in Flint at 810-257-1506 and spoke to Cheryl. I explained to her that we needed data on all addresses within the City of Flint where mail had been forwarded or service had been stopped for some reason (vacancy, destruction of property, etc.). I explained that I was with the State EOC and MSP and that I was requesting that information under the Michigan Emergency Management Act (PA 390). She said that she would pass along the request to the Postmaster.

I called back later that day and Cheryl informed me that I was making a rather large request and that the Postmaster had forwarded the request to the District Office and that the Postmaster's office would contact me when they had an answer. I was then out of the SEOC until this morning. There were no messages or emails from USPS during that time.

After Capt. Kelenske asked about USPS at this morning's briefing, I followed up with the Postmaster's Office where I was told that the District Office denied our request for information and that they were therefore unable to provide it. They did not provide any explanation.

I hope this is useful. Please let me know if I can be of any further assistance.

Thank you,

Alex

Tom Bowman Deputy FHCO advised he is continuing to work on this request. He advised he will be providing me an email update. He stated he has had communication with the local Post Master.

During the 4:00 pm SEOC Con Call,, ARC Paul Spata stated there are about 200 residence they have yet to contact. Should we narrow the USPS request to, what is the status of the 200 residence that are pending contact (per ARC). Maybe this will lessen the burden of the USPS request asking for data on all addresses within the City of Flint where mail had been forwarded or service had been stopped for some reason (vacancy, destruction of property, etc.).

Attachments:	Church PODa.docx

I did receive a call from our contact at Church Hub St. Marks on Dupont. She was waiting for their weekly delivery of water. We need to communicate to the churches that the interim policy/procedure is for them to call and order water when needed.

Request for Water

At this time the Church HUB point of contact is Lt. Roach The Church HUB will call and provide the quantity of water, and schedule the delivery time. This should be scheduled at least 24 hours in advance.

Until Tom Weber and his team puts into place the long term Church distribution plan,,, we need to get this out to the Churches as a reminder. I will forward the plan to Pastors Ellison, Harris, and Overton for them to disseminate.

Subject: RE: Declaration Request Cover Letter Template-1

For this SOP,, we can have the local and state partners complete this form, and send to the EOC or SEOC. SEOC can approve,,, via the State Coordination Officer or State Director, which then can have form sent to UCG via flint.ucg@hhs.gov.
As for the MICIMS Resource Request,,, we can have the form added as an attachment. The question is who does it get assigned to, and who creates the Resource request?
After speaking with UCG,, they would like to have a SCO, however that is not the case in this event, and we need to identify who/title is approving the ASK/REQUEST at the SEOC that gets forward to UCG. See 4,5 and 6 below. I highlighted it in red.

ROUTING AND MANAGEMENT OF STATE AND LOCAL REQUESTS (Rev # 1)

1. If UCG is **notified of a likely request**, DHHS and Federal Partners are to provide requestor with the Flint UCG Request Form (Attached).

2. Requesting city, county or State agency should attach any supporting or explanatory documentation to the Flint UCG Request Form.

3. If a request **is received** by a DHHS or Federal Partner, they are to provide requestor with the Flint UCG Request Form or assist the requestor in completing it.

4. DHHS and Federal Partners are to ask **city and county** requestors to route the request to the County EOCwho will route them to the State Emergency Operations Center on approved requests.

5. **State agency** requests are be sent to the State Emergency Operations Center for concurrence.

6. All State Coordinating Officer approved Flint UCG Request Forms and supporting or explanatory documentation are to be sent to FLINT.UCG@HHS.GOV.

7. The Deputy FHCO and IRCT Commander will monitor the FLINT.UCG@HHS.GOV account. All electronic requests will be retained in a DHHS e-mail file folder maintained by the EMG

8. The Deputy FHCO or IRCT Commander will review the Flint UCG Request Form and complete or clarify as needed before submitting to the FHCO.

9. New requests will be forwarded to the FHCO for review and approval and then to the InfoCell if approved.

10. FHCO approved requests will then be routed to the OPS Section Chief for assignment, 204 Development and Tactics plaining and operationalization.

11. If the request may obligate additional costs outside of the FHCO's authority, the FHCO may defer approval of a requests to an ASPR, CDC or other Federal Partner for approval via the UCG agency representative.

12. For any requests forwarded to another DHHS or Federal partner agency for approval, the agency's UCG representative, will track the request and return the agency's final decision on the request to the FLINT.UCG@HHS.GOV address.

13. The InfoCell will assign a tracking number to the requests and log the request on the Request Tracker.

At the Direction of the FHCO, the Flint UCG Request Form and supporting documentation may be sent to the ASPR SOC for situational awareness

Subject: Re: News release for approval

This from Jeff Kelly at EPA.

We've looked at this version. We're not concerned about the information presented; however, we feel that it will cause confusion and highlight an issue that probably doesn't need to be raised as a press release.

For example, discussing the RDA for copper in the same paragraph describing health issues related to too much copper is mixing messages. They may want to take that entire paragraph out.

Also, the news release talks about the filters not being able to remove copper, then tells people where to go get filters.

From: MSP-SEOC10
Sent: Monday, February 08, 2016 12:23 PM
To: MSP-SEOCOPSC
Subject: USPS Request

Jackie,

As you requested below is a summary of my contact with the Postmaster's Office in Flint.

On Wednesday, February 3rd, I contacted the Postmaster's Office in Flint at 810-257-1506 and spoke to Cheryl. I explained to her that we needed data on all addresses within the City of Flint where mail had been forwarded or service had been stopped for some reason (vacancy, destruction of property, etc.). I explained that I was with the State EOC and MSP and that I was requesting that information under the Michigan Emergency Management Act (PA 390). She said that she would pass along the request to the Postmaster.

I called back later that day and Cheryl informed me that I was making a rather large request and that the Postmaster had forwarded the request to the District Office and that the Postmaster's office would contact me when they had an answer. I was then out of the SEOC until this morning. There were no messages or emails from USPS during that time.

After Capt. Kelenske asked about USPS at this morning's briefing, I followed up with the Postmaster's Office where I was told that the District Office denied our request for information and that they were therefore unable to provide it. They did not provide any explanation.

I hope this is useful. Please let me know if I can be of any further assistance.

Thank you,

Alex

I would recommend referring people to www.helpforflint.com. From this single location, people can make financial donations, learn how to volunteer, and read our water donation guidelines. This is the site the State is promoting for people who want to help.

Chris,

Can you please facilitate this request? Unified Coordination Group Liaison Don Boyce, Director of Emergency Management for US Department of Health and Human Services, would like to have an informal meet with Genesee County Emergency Management and Health Departments. He is hoping to possibly meet at your office or EOC tomorrow. I suggested meeting with Captain Tafoya, April Swartou, and you. Is there a time and location that will work for you tomorrow?

I Cced all parties.

Michelle,

Regarding the attached form I believe #6 should be changed to the appropriate person/section for approval. We do not have a State Coordinating Officer. Unless this is the State Director??

#6. All State Coordinating Officer approved Flint UCG Request Forms and supporting or explanatory documentation are to be sent to FLINT.UCG@HHS.GOV.

To: MSP-SEOCOPSC
Subject: USPS Request

Jackie,

As you requested below is a summary of my contact with the Postmaster's Office in Flint.

On Wednesday, February 3rd, I contacted the Postmaster's Office in Flint at 810-257-1506 and spoke to Cheryl. I explained to her that we needed data on all addresses within the City of Flint where mail had been forwarded or service had been stopped for some reason (vacancy, destruction of property, etc.). I explained that I was with the State EOC and MSP and that I was requesting that information under the Michigan Emergency Management Act (PA 390). She said that she would pass along the request to the Postmaster.

I called back later that day and Cheryl informed me that I was making a rather large request and that the Postmaster had forwarded the request to the District Office and that the Postmaster's office would contact me when they had an answer. I was then out of the SEOC until this morning. There were no messages or emails from USPS during that time.

After Capt. Kelenske asked about USPS at this morning's briefing, I followed up with the Postmaster's Office where I was told that the District Office denied our request for information and that they were therefore unable to provide it. They did not provide any explanation.

I hope this is useful. Please let me know if I can be of any further assistance.

Thank you,

Alex

DRAFT FLINT UCG INTERIM OPERATING PROCEDURE:

ROUTING AND MANAGEMENT OF STATE AND LOCAL REQUESTS (Rev # 1)

1. If UCG is **notified of a likely request**, DHHS and Federal Partners are to provide requestor with the Flint UCG Request Form (Attached).

2. Requesting city, county or State agency should attach any supporting or explanatory documentation to the Flint UCG Request Form.

3. If a request **is received** by a DHHS or Federal Partner, they are to provide requestor with the Flint UCG Request Form or assist the requestor in completing it.

4. DHHS and Federal Partners are to ask **city and county** requestors to route the request to the County EOCwho will route them to the State Emergency Operations Center on approved requests.

5. **State agency** requests are be sent to the State Emergency Operations Center for concurrence.

6. All State Coordinating Officer approved Flint UCG Request Forms and supporting or explanatory documentation are to be sent to FLINT.UCG@HHS.GOV.

7. The Deputy FHCO and IRCT Commander will monitor the FLINT.UCG@HHS.GOV account. All electronic requests will be retained in a DHHS e-mail file folder maintained by the EMG

8. The Deputy FHCO or IRCT Commander will review the Flint UCG Request Form and complete or clarify as needed before submitting to the FHCO.

9. New requests will be forwarded to the FHCO for review and approval and then to the InfoCell if approved.

10. FHCO approved requests will then be routed to the OPS Section Chief for assignment, 204 Development and Tactics plaining and operationalization.

11. If the request may obligate additional costs outside of the FHCO's authority, the FHCO may defer approval of a requests to an ASPR, CDC or other Federal Partner for approval via the UCG agency representative.

12. For any requests forwarded to another DHHS or Federal partner agency for approval, the agency's UCG representative, will track the request and return the agency's final decision on the request to the FLINT.UCG@HHS.GOV address.

13. The InfoCell will assign a tracking number to the requests and log the request on the Request Tracker.

At the Direction of the FHCO, the Flint UCG Request Form and supporting documentation may be sent to the ASPR SOC for situational awareness

Captain Roesler,

Today, I asked Lt. Poulson to make contact at Pastor Greer's church. Tpr. Buie contacted Pastor Greer, and asked him to call me. Pastor Greer did call, and informed me, Sam's Club transport the semi-trailer of water to Mt. Olive Baptist Church, which was 19 pallets of water.

I asked about the lose cases of water, and he advised they will be bringing the water to Flint Tuesday. No additional request were made.

I will update this in MiCIMS.

Subject: Re: Declaration Request Cover Letter Template-1

Mark,

Please refer to items 4 & 5 for confirmation.

Chris

DRAFT FLINT UCG INTERIM OPERATING PROCEDURE:

ROUTING AND MANAGEMENT OF STATE AND LOCAL REQUESTS (Rev # 1)

1. If UCG is **notified of a likely request,** DHHS and Federal Partners are to provide requestor with the Flint UCG Request Form (Attached).

2. Requesting city, county or State agency should attach any supporting or explanatory documentation to the Flint UCG Request Form.

3. If a request is received by a DHHS or Federal Partner, they are to provide requestor with the Flint UCG Request Form or assist the requestor in completing it.

4. DHHS and Federal Partners are to ask **city and county** requestors to route the request to the County EOCwho will route them to the State Emergency Operations Center on approved requests.

5. **State agency** requests are be sent to the State Emergency Operations Center for concurrence.

6. All State Coordinating Officer approved Flint UCG Request Forms and supporting or explanatory documentation are to be sent to FLINT.UCG@HHS.GOV.

7. The Deputy FHCO and IRCT Commander will monitor the FLINT.UCG@HHS.GOV account. All electronic requests will be retained in a DHHS e-mail file folder maintained by the EMG

8. The Deputy FHCO or IRCT Commander will review the Flint UCG Request Form and complete or clarify as needed before submitting to the FHCO.

9. New requests will be forwarded to the FHCO for review and approval and then to the InfoCell if approved.

10. FHCO approved requests will then be routed to the OPS Section Chief for assignment, 204 Development and Tactics plaining and operationalization.

11. If the request may obligate additional costs outside of the FHCO's authority, the FHCO may defer approval of a requests to an ASPR, CDC or other Federal Partner for approval via the UCG agency representative.

12. For any requests forwarded to another DHHS or Federal partner agency for approval, the agency's UCG representative, will track the request and return the agency's final decision on the request to the FLINT.UCG@HHS.GOV address.

13. The InfoCell will assign a tracking number to the requests and log the request on the Request Tracker.

At the Direction of the FHCO, the Flint UCG Request Form and supporting documentation may be sent to the ASPR SOC for situational awareness

---

Subject: Declaration Request Cover Letter Template-1

Sorry, I hope this is what you are looking for. Once the locals have exhausted their resources they can request a governors declaration for a state of emergency or state of disaster, requesting state resources. The Governor then may seek federal assistance

in warranted. The Michigan State Police Emergency Management and Homeland Security Division will assist in this process. Please advise if this is what you are looking for. Sorry

Bryce advised he would be able to answer #12 at the Matrix meeting today at 1:00 pm.

#12 – I think DEQ has to address this - we are tracking to ensure all homes have a filter...I'm not positive how/when it will be verified that all water sources are once again safe.

Subject: RE: Request/Status Updates

I thought these items on the matrix were items the UCG wanted to keep on their radar....do they want answers from us?

#12 – I think DEQ has to address this - we are tracking to ensure all homes have a filter...I'm not positive how/when it will be verified that all water sources are once again safe.

#37 – Is this a question the UCG is asking of themselves? DEQ is posting results on their website. I'm not familiar with what the EPA is doing.

Mark,

I hope this closes the loop on this question. This was an "offer" from MDHHS due to the fact that Barbara Reynolds was in the state, and might be able to provide crisis communications training to the Governor's office and DEQ should they want it.

I would like the MDHHS PIO to work with those in the JIC to determine the need if it becomes available again in the future. Thanks!

Jen,

Take a look at the attached,,, I highlighted in YELLOW the MATRIX ASKs that are refered to below: #12, #37, and #43. It appears those asks are from MDHHS. I believe our MiDHHS should clarify.

I hope this helps.

Subject: Request/Status Updates

Good Afternoon,

During our status update meeting the following questions were asked and I need additional clarification from state agencies:

#12- Clarification on Establish quality assurance system to verify safe water sources at impacted homes, schools and businesses. What is the metric? All homes, all businesses, a percentage of these facilities tested?

#37 – Infographics in clear format to demonstrate water testing results – Is the EPA map with test results enough for this?

#43 – Does Barbara Reynolds need to train state officials in the Governor's office and MDEQ? What is the timeline/schedule for the governor's staff?

Please call Lt. Russo tomorrow with any follow up questions.

Michelle Kuzera

Angela,,

Would this be correct? See below answer to question #43

#43 – Does Barbara Reynolds need to train state officials in the Governor's office and MDEQ? What is the timeline/schedule for the governor's staff?

In relation to #43, Barbara Reynolds has left Michigan for the time being and is not available to provide training in the near future. However, MDHHS is trying to determine whether or not she will be coming back soon. If so, we can request that she provide this training to state officials in the Governor's office and MDEQ.

Per Ms. Minicuci,, JIC, they will be coordinating training/webinar with Barbara Reynolds. This

Subject: RE: Request/Status Updates

In relation to #43, Barbara Reynolds has left Michigan for the time being and is not available to provide training in the near future. However, MDHHS is trying to determine whether or not she will be coming back soon. If so, we can request that she provide this training to state officials in the Governor's office and MDEQ.

Jen,

Take a look at the attached,,, I highlighted in YELLOW the MATRIX ASKs that are refered to below: #12, #37, and #43. It appears those asks are from MDHHS. I believe our MiDHHS should clarify.

I hope this helps.

Hi Mark,

Just looking for clarification for DEQ. Do you need a response from DEQ on all 3 questions? Also, What is the training in reference to in #43.

Thanks! ~Jen

Subject: Request/Status Updates

Good Afternoon,

During our status update meeting the following questions were asked and I need additional clarification from state agencies:

#12- Clarification on Establish quality assurance system to verify safe water sources at impacted homes, schools and businesses. What is the metric? All homes, all businesses, a percentage of these facilities tested?

#37 – Infographics in clear format to demonstrate water testing results – Is the EPA map with test results enough for this?

#43 – Does Barbara Reynolds need to train state officials in the Governor's office and MDEQ? What is the timeline/schedule for the governor's staff?

Please call Lt. Russo tomorrow with any follow up questions.

Michelle Kuzera

I would like the MDHHS PIO to work with those in the JIC to determine the need if it becomes available again in the future. Thanks!

Subject: RE: Request/Status Updates

In relation to #43, Barbara Reynolds has left Michigan for the time being and is not available to provide training in the near future. However, MDHHS is trying to determine whether or not she will be coming back soon. If so, we can request that she provide this training to state officials in the Governor's office and MDEQ.

Subject: FW: Request/Status Updates

I realize this is going around in circles, but we need to land the plane. Mary McQueen indicated this may have come from DHHS (Health), especially #43. How can we finalize any necessary action?

Jen,

Take a look at the attached,,, I highlighted in YELLOW the MATRIX ASKs that are refered to below: #12, #37, and #43. It appears those asks are from MDHHS. I believe our MiDHHS should clarify.

I hope this helps.

Lt. Mark A. Russo

Hi Mark,

Just looking for clarification for DEQ. Do you need a response from DEQ on all 3 questions? Also, What is the training in reference to in #43.

Thanks! ~Jen

Cc: MSP-EOC-MDEQ; MSP-EOC-MDCH; MSP-EOC-MDARD; Russo, Mark (MSP)
Subject: Request/Status Updates

Good Afternoon,

During our status update meeting the following questions were asked and I need additional clarification from state agencies:

#12- Clarification on Establish quality assurance system to verify safe water sources at impacted homes, schools and businesses. What is the metric? All homes, all businesses, a percentage of these facilities tested?

#37 – Infographics in clear format to demonstrate water testing results – Is the EPA map with test results enough for this?

#43 – Does Barbara Reynolds need to train state officials in the Governor's office and MDEQ? What is the timeline/schedule for the governor's staff?

Please call Lt. Russo tomorrow with any follow up questions.

Michelle Kuzera
PLEASE NOTE: Effective **February 1, 2016**, the **State and Local Support Section** and the **Technical Support & Mapping Section/Emergency Management and Homeland Security Division** are moving.

To: JICManager
Cc: Banner, Shanon (MSP); Leix, Ron (MSP); Kuzera, Michelle (MSP)
Subject: UCG Task Force Meeting

The Unified Coordination Group has Task Force meetings. As of Tuesday they want to consolidate all the Task Forces for one scheduled meeting. I asked if the JIC should be represented at the Public and External Affairs Task Force meetings. Deputy FHCO Tom Bowman advised they are welcomed to attend. As of today the time and date of the next meeting has not been scheduled. Just an FYI.

Sorry, I hope this is what you are looking for. Once the locals have exhausted their resources they can request a governors declaration for a state of emergency or state of disaster, requesting state resources. The Governor then may seek federal assistance in warranted. The Michigan State Police Emergency Management and Homeland Security Division will assist in this process. Please advise if this is what you are looking for. Sorry

Just a follow up. Attached (in MiCIMS) is the 2016 Flint Water Response MDHHS Request List. This matrix is utilized by UCG to track these request. Michelle K. has created RESOURCE/TASK (several) request based on the IAP Objectives, which is attached and also in MICIMS. It was decided yesterday to take the updates from the comment section off the Matrix, and add them to the appropriate RESOURCE REQUESTs in the comment section. The purpose is to provide you with the status of the request, not to request action. Hopefully this did not cause any confusion. We will continue to update these. Our next Matrix review is tomorrow.

I participated in a UCG and American Red Cross meeting. Dave Gutierrez and Robert Gaskill-Clemons was present from ARC. The meeting was initiated by UCG. ARC will have a seat at the UCG starting this afternoon. They discussed the Community Partnership meetings the ARC has facilitated, along with asking for UCG representatives to attend the Recovery Leadership meeting next Tuesday. They discussed having a representative from Genesee County at the UCG IE: Emergency Manager. The UCG may be making a formal request, or at the very least inviting him/them on the 8:30 am conference/call UCG meeting. They also discussed sharing the plan ARC has been working on, for UCG inclusion.

Captain and Mr. Katarsky,, would you like the call in number to UCG con/call meeting? It is at 8:30 am with UCG and state partners?

Jen,

Take a look at the attached,,, I highlighted in YELLOW the MATRIX ASKs that are refered to below: #12, #37, and #43. It appears those asks are from MDHHS. I believe our MiDHHS should clarify.

I hope this helps.

Hi Mark,

Just looking for clarification for DEQ. Do you need a response from DEQ on all 3 questions? Also, What is the training in reference to in #43.

Thanks! ~Jen

Cc: MSP-EOC-MDEQ; MSP-EOC-MDCH; MSP-EOC-MDARD; Russo, Mark (MSP)
Subject: Request/Status Updates

Good Afternoon,

During our status update meeting the following questions were asked and I need additional clarification from state agencies:

#12- Clarification on Establish quality assurance system to verify safe water sources at impacted homes, schools and businesses. What is the metric? All homes, all businesses, a percentage of these facilities tested?

#37 – Infographics in clear format to demonstrate water testing results – Is the EPA map with test results enough for this?

#43 – Does Barbara Reynolds need to train state officials in the Governor's office and MDEQ? What is the timeline/schedule for the governor's staff?

Please call Lt. Russo tomorrow with any follow up questions.

Michelle Kuzera
PLEASE NOTE: Effective February 1, 2016, the State and Local Support Section and the Technical Support & Mapping Section/Emergency Management and Homeland Security Division are moving.

Subject: MDHHS Request Matrix

ALCON

Attached is the MDHHS Request Matrix for 6Feb2016. This is the latest version based on the discussions with Task Force leads and State Review. All projects are either "active/in-progress" or in a "monitoring" state. Please review and if you have any questions please let the info management group know. We appreciate the due diligence given to this matrix and want to properly reflect the work being done. The collaboration and teamwork has been tremendous.

REMOVE AND DESTROY ALL OTHER COPIES –

Thank you for your attention to this matter

Respectfully,
Jeanne

Tom,

Attached is the POD map Lt. Roach and I created for the initial Church Distribution Plan. Please use at your discretion.. You may want to ask GIS to add the Flint City Ward boundaries as an overlay. Ken Kolenda, should be able to print this out for your visual aid. Again,, our plan was just an initial plan.

Today, I asked Lt. Poulson to make contact at Pastor Greer's church. Tpr. Buie contacted Pastor Greer, and asked him to call me. Pastor Greer did call, and informed me, Sam's Club transport the semi-trailer of water to Mt. Olive Baptist Church, which was 19 pallets of water.

I asked about the lose cases of water, and he advised they will be bringing the water to Flint Tuesday. No additional request were made.

I will update this in MiCIMS.

Captain Roesler,

I met with Pastor Greer from Queen Ester Baptist Church of Muskegon Heights. His church along with other congregations have appoximately 200 cases of water they would like to donate to Flint. Muskegon County Sheriff department also have a few hundred cases to donate. Our initial discussions resulted in possibly having the sheriff department transport the combined donations to a Flint area faith based church. This delivery is anticipated to be Wednesday or Friday next week.

Pastor Greer also advised he has a semi-trailer with 19 pallets of just recently purchased water. The issue we are addressing is,, they do not have a truck tractor and driver at this time to haul. I am working with the Genesee County EOC liaison for donations to seek a driver and truck to donate their services.

Pastor Greer also has receive a monetary contribution they would like to donate,,, I have instructed them to the site FLINTKIDS.ORG.

Just to provide you a follow up. I did not hear back from Pastor Greer. I have a call into is mobile phone (does not take voicemail) and his office phone at the church, where I left a message to call me. He has not returned my call. Lt. Poulson MSP 61, sent a troop over to the parish 2220 Superior Muskegon to make personal contact, and did not get a response at the door. I will continue to call his mobile phone tomorrow. Soon as I make contact with him, I will get the information on semi-trailer and water that he needs delivered to Flint.

Lt. Russo, please forgive my late response to this e-mail, my computer hs been in the repair shop the last 3 weeks. i just got it back Friday February 5th. Needless to say, I had over850 unread e-mails. just finishing about 300 e-mails. The rest is going to take awhile. I am very interested in working with the team. Please keep me abreast in advance as much as possible so that I can adjust my schedule to accomodate serving with the team. I am not a great e-mail corresponder already (try to check every 1-2 days) So the best way to get a hold of me is my old fashioned cell phone Look foward to sharring with you soon. Supt. Marshall

Captain Roesler,

I met with Pastor Greer from Queen Ester Baptist Church of Muskegon Heights. His church along with other congregations have appoximately 200 cases of water they would like to donate to Flint. Muskegon County Sheriff department also have a few hundred cases to donate. Our initial discussions resulted in possibly having the sheriff department transport the combined donations to a Flint area faith based church. This delivery is anticipated to be Wednesday or Friday next week.

Pastor Greer also advised he has a semi-trailer with 19 pallets of just recently purchased water. The issue we are addressing is,, they do not have a truck tractor and driver at this time to haul. I am working with the Genesee County EOC liaison for donations to seek a driver and truck to donate their services.

Pastor Greer also has receive a monetary contribution they would like to donate,,, I have instructed them to the site FLINTKIDS.ORG.

Captain Roesler,

I met with Pastor Greer from Queen Ester Baptist Church of Muskegon Heights. His church along with other congregations have appoximately 200 cases of water they would like to donate to Flint. Muskegon County Sheriff department also have a few hundred cases to donate. Our initial discussions resulted in possibly having the sheriff department transport the combined donations to a Flint area faith based church. This delivery is anticipated to be Wednesday or Friday next week.

Pastor Greer also advised he has a semi-trailer with 19 pallets of just recently purchased water. The issue we are addressing is,, they do not have a truck tractor and driver at this time to haul. I am working with the Genesee County EOC liaison for donations to seek a driver and truck to donate their services.

Pastor Greer also has receive a monetary contribution they would like to donate,,, I have instructed them to the site FLINTKIDS.ORG.

I'm looking for some support on this. I'd like to possibly incorporate the campaign into the EFF mobilization and perhaps piggy back on the promoter's web site to reach out to festival goers ahead of time.

Banners, signage, etc..... for the event itself.

Is EMHSD running this or do you know who is?

Importance: High

Jeanette! It's been approved by the Governor's office. Can you work first thing with the Maureen to secure the lease? We will want month-to-month, full access to the entire building, as well as the parking lot. Also, Ramsey mentioned we could have use of the forklifts and pallet jacks. Another thing, we will need 99% of the shelving removed. I think the coolers can stay, but probably not the freezers.

Thanks so much Jeanette! This is so exciting!!!

Chad, if you could please proceed with getting the Adventists to staff it?

Just an FYI for everyone else.

Wendy,

Great job at getting the warehouse secured!! Whoo hoo!!`

Chad and I will check to see if there is an option for the Adventist to assist with staffing - I am not so sure they will do the entire component. I am thinking we may want to have another option. Is it possible to do what we are doing at the Clio Warehouse - with prison release time? Do we have the option of having another Bonnie? (she is amazing) I am thinking it may be able to be stood up quicker if it is staffed by people who are paid/provided release time.

Another question:

If this warehouse is going to serve as a distribution center, will there be an option to have National Guard members there to assist with the distribution of products and maintain safety?

LT Russo,

Didn't know if there's any validity to this claim and if this is something that can be resolved. And since you're so connected out there, I was hoping that you could inquire about it the next time your that way.

Subject: broken pallets

Fellas,

Station 3 reported that their pallets of water are coming in completely broken - broken wood pallet, mixed-matched cases, broken cases of water, lots of loose individual bottles of water... I knew the warehouse was receiving mixed-matched cases and were trying to assemble them into pallets but can we find out from the warehouse of this delivery was just especially fucked up or if we should expect many more deliveries like that. If there are going to be a lot more messed up pallets like that, we need to figure out a plan the resolve the issue because it makes unloading, tracking, and distribution at the POD's a nightmare. Let me know what you hear back.

Subject: Warehouse crash

Lt.

We need to have Sgt. Sparks assign a troop to the warehouse at 8:30 am (4315 Clio Road). This evening, it was reported a driver from MDOC struck the warehouse door with one of the trucks. Once we learned of the PDA the driver had went home.

Please have the troop take a 9300-2 non traffic crash. The driver is MDOC Rod Ridgeway he starts his shift at 8:30 am. The truck was left at the warehouse.

I will pass on to Sgt. Sparks that you completed the ICS-214.

Subject: water buffalo

Hello, just talked to Lt. Russo. While at the warehouse today he noticed a water buffalo/water tanker truck parked there. After making some inquiries, he was advised the tanker was parked at Fire Station 6 today while the POD was in operation filling up jugs for people. They were asked to leave the POD and somehow ended up at the warehouse where the truck is now parked. The truck has signage from "Joe Curry Well Drilling, Highland Twp., MI 248-887-1738. We confirmed with National Guard that the tanker was filling jugs with the permission of fire personnel. I spoke to Chief Cox, Flint Fire Dept., and he did not have knowledge of the event and would address it with all of his stations.

We had no knowledge that this truck until Lt. Russo saw it at the warehouse. Bonnie advised she let it park there because the driver said they were associated with the fire dept. Bonnie was advised at the warehouse the truck is not associates with us. Contact will be made with the driver of the tanker in the morning and he will be asked to leave the warehouse and not to distribute at any of our PODS. Any questions please let me know. Lt. Roach

Captain,

Just making sure you don't have any other concerns:

So, this list (the photo) is just a possible future plan for churches by Tom.

Lt. Roach and Russo have just implemented a church distribution plan, put into place two days ago, that identifies 5 hub churches that will be the "mother churches" and will distribute to smaller churches as necessary. Lt. Russo advises he is all set with this plan and it has been going smoothly so far.

Just as a precaution, Lt. Russo and de Castro are also calling those original churches (from a list by Lt. Roach) to make sure they don't have any unmet needs.

Let me know if you have any further questions reference this.

Thanks,
Gabe

Can someone look into these sites to see if they need anything for Sunday and to also coordinate with long term recovery.

Lt Roach - probably handle the Sunday items if you are in and weber on LTR. Lt covey to coordinate these tasks. Thanks.

Can you please add the attached Churches to the MSP Places of Worship map.

I would like to see these attached five churches HIGHLIGHTED with the name, address, pastor, and POC on the map. Not sure if they can create a little box with the info.

These churches are serving as HUBs for surrounding churches.

Jay,

Just to confirm,,, Mike is going to call the churches in blue,, and I will call the ones in yellow just to confirm,,, they are set for the weekend.

This may duplicate what BJ has already done,, however we want to make it right. If a church needs water we will email Jay to be placed on the delivery list.

Michelle,

Just an FYI regarding this email. The plan we worked on this week is in place (see attached). The churches that Lt. Roach has been coordinating with the last couple weeks have also been addressed. Jay E. advised Lt. Roach has provided him with the churches that are still in need of water deliveries.

Subject: RE: church list

Pastor Ellison, Harris, and Overton,

Below is a list of churches that have volunteered to be Church Distribution Hubs. I had direct contact with the pastors and their point of contacts. I have also conducted site assessments at their facilities.
It was conveyed to them that this initial plan was a collaborative effort, and may change with input from all parties involved.
It was discussed, and agreed that the HUB churches would network with the surrounding churches, and set up their own agreed upon distribution schedule. It was requested that the HUB church provide a list of churches that are obtaining their water from the HUB church. This list can be sent via email to Lt. Roach at Roachb@michigan.gov.
Hopefully this plan will further assist and augment our initiative of getting water to our residents more efficiently.

Request for Water

At this time the Church HUB point of contact is Lt. Roach he Church HUB will call and provide the quantity of water, and schedule the delivery time. This should be scheduled at least 24 hours in advance.

Deliveries

The deliveries will be conducted by a Mi DTMB driver, and truck. They have a pallet jack and the capability of moving pallets from their truck to a staging area. If the water needs to be transported to an upper or lower level, there needs to be people to assist off-loading.

Church Distributions

The Church Distribution HUB would be responsible to network with the surrounding churches, and set up a distribution schedule, along with amounts of water needed.

Michigan State Police Points of Contact

Lt. B.J. Roach Roachb@michigan.gov
Lt. Mark A. Russo Russom2@michigan.gov

CHURCH DISTRIBUTION HUBS

NORTH

Foss Avenue Baptist Church
1159 East Foss Avenue
Flint MI
Pastor Flynn
Point of Contact: Jackie Scott

Delivery: 4 pallets starting 2-2-2016 @ 12:30 pm

Can someone look into these sites to see if they need anything for Sunday and to also coordinate with long term recovery.

Lt Roach - probably handle the Sunday items if you are in and weber on LTR. Lt covey to coordinate these tasks. Thanks.

Flint Residents Warned Lead Levels May Be Higher Than Filters Can Handle
(AP)
Flint, Michigan: Flint residents were warned Friday that water samples from more than two dozen city locations have higher lead levels than filters can handle and that further tests are recommended. An official with the Department of Health and Human Services said the lead level in some Flint locations has exceeded 150 parts per billion (ppb), which is the level for which water filters are graded. She said people with levels over 150 ppb are being notified and their water being retested. The water was tested before it got to a filter, and the official stressed that the results do not mean officials think there's a problem with the filters. Flint residents have been told to drink only filtered or bottled water because of lead contamination in the city's supply.

Public Health

Norovirus Outbreak Sickens Dozens at Chicago Retirement Community
NBC Chicago
Chicago, IL: A norovirus outbreak has sickened dozens of people at a Chicago retirement home. The Chicago Department of Public Health said it began tracking illnesses at The Breakers facility at 5333 North Sheridan Ave. in Chicago's Edgewater Beach neighborhood last Friday. At one point, more than 50 patients showed symptoms of the virus, according to CDPH spokesman Matt Smith. The source of the norovirus outbreak has not yet been determined, but Smith said the area where meals were prepared at the site was inspected and no violations were found. Smith said the outbreak is especially dangerous for seniors at the facility as symptoms include vomiting, which can lead to dehydration.

Illinois health officials report 3rd case of Zika virus
Chicago Tribune
Illinois: A man who traveled to South America has developed the third case of Zika virus in Illinois. The Illinois Department of Public Health previously reported two pregnant women tested positive for the mosquito-borne virus after traveling in Honduras and Haiti. The department announced the third Illinois case on its website Thursday. Most people exposed to the virus suffer only mild symptoms. But the risk is far greater for pregnant women because of a possible link to a birth defect. Federal health officials

have posted Zika travel notices about countries in Central and South America and in the Caribbean. Also: Cape Verde, off the coast of western Africa, and Samoa in the South Pacific.

Health Official Says Major Zika Outbreak Unlikely In U.S.
(This Week)
United States: The Zika virus outbreak is unlikely to spread quickly to the United States, a top health official said Friday. "Zika is not coming up the coast so you don't have to worry," an official with the National Institute of Allergy and Infectious Diseases said. "We've not seen a major outbreak" in the continental U.S., the official stated, but said the National Institutes of Health (NIH) and its counterparts are not taking the issue lightly. The official added, "What we do is prepare for a major outbreak. In reality, we believe it is unlikely it will happen". The official said the Food and Drug Administration is looking into restricting those who can participate in donating blood due to the outbreak, but he isn't aware of any other major precautionary steps being prepared by the government, such as screening people at airports. Right now the best way to combat the virus is to control the mosquitoes that carry and transmit the virus, he said. Individuals can also use insect repellent and wear long sleeves and pants to protect themselves from being bit. The official said it would take "a few years" for a vaccine to be widely available, although the testing phase could begin by the end of the year.

Law Enforcement and Intelligence
Heightened Security Expected At Chicago Auto Show
(WGN-TV)
Chicago, IL: If you're heading to the Chicago Auto Show this year, you can expect to see a heightened police presence. A spokesperson for the agency that runs McCormick Place says the security here is "under review." Chicago firm Hillard Heintze is now conducting a comprehensive review of security at McCormick Place. The re-evaluation of safety procedures comes amid concerns after the deadly terror attacks in Paris– and gun violence closer to home. Just last weekend, a man was shot and killed in the lobby of the Hyatt Regency McCormick Place Hotel. The convention center is at the center of the city's tourism industry, drawing three million visitors a year. Dave Sloan, General Manager of the upcoming Chicago Auto Show, says he had a security meeting several weeks ago, including representatives from Chicago Police, the FBI, and Homeland Security. He says people attending the show, that's billed as the largest of its kind in North America, should expect to see increased police presence, along with police dog patrols. The auto show starts on February 13th.

> It was discussed, and agreed that the HUB churches would network with the surrounding churches, and set up their own agreed upon distribution schedule. It was requested that the HUB church provide a list of churches that are obtaining their water from the HUB church. This list can be sent via email to Lt. Roach at Roachb@michigan.gov.
> Hopefully this plan will further assist and augment our initiative of getting water to our residents more efficiently.

Request for Water

At this time the Church HUB point of contact is Lt. Roach . . . . The Church HUB will call and provide the quantity of water, and schedule the delivery time. This should be scheduled at least 24 hours in advance.

Deliveries

The deliveries will be conducted by a Mi DTMB driver, and truck. They have a pallet jack and the capability of moving pallets from their truck to a staging area. If the water needs to be transported to an upper or lower level, there needs to be people to assist off-loading.

Church Distributions

The Church Distribution HUB would be responsible to network with the surrounding churches, and set up a distribution schedule, along with amounts of water needed.

Subject: RE: church list
Attachments: Church PODa.docx

Pastor Ellison, Harris, and Overton,

Below is a list of churches that have volunteered to be Church Distribution Hubs. I had direct contact with the pastors and their point of contacts. I have also conducted site assessments at their facilities.
It was conveyed to them that this initial plan was a collaborative effort, and may change with input from all parties involved.
It was discussed, and agreed that the HUB churches would network with the surrounding churches, and set up their own agreed upon distribution schedule. It was requested that the HUB church provide a list of churches that are obtaining their water from the HUB church. This list can be sent via email to Lt. Roach at Roachb@michigan.gov.
Hopefully this plan will further assist and augment our initiative of getting water to our residents more efficiently.

Request for Water

At this time the Church HUB point of contact is Lt. Roach The Church HUB will call and provide the quantity of water, and schedule the delivery time. This should be scheduled at least 24 hours in advance.

Deliveries

The deliveries will be conducted by a Mi DTMB driver, and truck. They have a pallet jack and the capability of moving pallets from their truck to a staging area. If the water needs to be transported to an upper or lower level, there needs to be people to assist off-loading.

Church Distributions

The Church Distribution HUB would be responsible to network with the surrounding churches, and set up a distribution schedule, along with amounts of water needed.

Michigan State Police Points of Contact

Lt. B.J. Roach Roachb@michigan.gov
Lt. Mark A. Russo Russom2@michigan.gov

Pastor Ellison, Harris, and Overton,

Tomorrow I plan on finalizing the Church Hub Distribution plan. I have met with several Pastors and have conducted several site visits. The plan is a good start knowing we can always edit and change. I will send it out to you tomorrow for review.

Subject: Holiday overtime coding

If you worked the holiday, you record 8 hours holiday and code the overtime hours worked as **holiday overtime.**

Please keep in mind, the same rules apply for using annual leave or sick leave in the same pay period that you earn overtime. If you use annual leave or sick leave in this pay period, please contact me on how to record your time.

Thank you,
Nancy

Take a look partner,,,, this is a rough draft, which can be edited...

Also, I have SEOC mapping GIS putting the CHURCH HUBS on our CHURCH MAP. That was emailed to them 30 minutes ago,,,,,

Let me know what you think,,,, get out your RED pen and critique.....

Again,, I am here to help and to assist you..

Can you please add the attached Churches to the MSP Places of Worship map.

I would like to see these attached five churches HIGHLIGHTED with the name, address, pastor, and POC on the map. Not sure if they can create a little box with the info.

These churches are serving as HUBs for surrounding churches.

Hi Mark -

I'm in Lansing all day tomorrow, however this may be more of F/Lt Kaiser's lane as District PIO, so I'm copying him on this email to check his status. I'm not sure if this was run through the JIC, so I'm uncertain as to whether he may have already been looped in through that section.

Subject: Holiday overtime coding

If you worked the holiday, you record 8 hours holiday and code the overtime hours worked as **holiday overtime.**

Please keep in mind, the same rules apply for using annual leave or sick leave in the same pay period that you earn overtime. If you use annual leave or sick leave in this pay period, please contact me on how to record your time.

Thank you,
Nancy

Good Morning,

Attached are the guidelines for entering your time in DCDS by coding block for those of you that are working **overtime** for the City of Flint Contamination/Shortage event. Please use **Index 28900 with PCA 28670** for overtime worked for this event. Do not use these codes for your regular hours.

Please contact one of the division timekeepers if you need additional guidance in entering the special codes for recording your overtime worked on this special event. Division timekeepers are Michelle Gilsdorf, Richard Sheaffer, and Nancy Downs.

Thank you,
Nancy

Subject: Coding for City of Flint Water Contamination incident

Good Afternoon:

For any **overtime hours** spent working in the SEOC with the City of Flint Water Contamination/Shortage event, please use the following coding:

Index 28900 with PCA 28670

Any **non-payroll** costs (travel, SEOC meals during activation, etc.) should be coded to:

Index 28900 with PCA 28671.

These codes are not yet active in DCDS but will be by the end of the week. Please let me know if you have any questions.

Thanks,
Penny

Can you please confirm the below HOT SHOT deliveries were executed. These were provided to Capt. Heath.

- People came to her house today 1/18 and left a flyer but no water- needs water. Also, the filter does not fit on her sink so she doesn't know what to do. Says she followed the directions but the only part of her sink that works in the "sprayer" and the filter won't fit on this.
- We may need to get her a pitcher that filters water.

- Needs a water delivery- in back of apartment with a cane- takes about 3 minutes to answer the door- please do not leave until she gets to the door

Subject: Resident Assistance

I received two calls today that I need to pass on. I hope you can help or find the individual who can.

1. says he needs bottled water and can't leave his home. He was upset because he couldn't reach anyone today and he said 211 wasn't helpful. His number is

2. needs someone to come pick up her water sample. I normally can do this but I am inundated with sample returns and I was told anyone needing pickup or drop off of sample bottles should call 211. I didn't know if that was still accurate. Her number is

This may be a topic worth bringing up at the meeting Tuesday. Who will facilitate individual situations like these?

I'm headed out for the day. Thanks!

Sincerely,
Melanie Poisson, Clerk

Subject: Need assistance

HI team,

Please see below a few folks that need water resources:

- People came to her house today 1/18 and left a flyer but no water- needs water. Also, the filter does not fit on her sink so she doesn't know what to do. Says she followed the directions but the only part of her sink that works in the "sprayer" and the filter won't fit on this.
- We may need to get her a pitcher that filters water.

- Needs a water delivery- in back of apartment with a cane- takes about 3 minutes to answer the door- please do not leave until she gets to the door

- Needs water delivery- disabled and unable to leave home- has a filter

Good Morning,

Attached are the guidelines for entering your time in DCDS by coding block for those of you that are working **overtime** for the City of Flint Contamination/Shortage event. Please use **Index 28900 with PCA 28670** for overtime worked for this event. Do not use these codes for your regular hours.

Please contact one of the division timekeepers if you need additional guidance in entering the special codes for recording your overtime worked on this special event. Division timekeepers are Michelle Gilsdorf, Richard Sheaffer, and Nancy Downs.

Thank you,
Nancy

Subject: Coding for City of Flint Water Contamination incident

Good Afternoon:

For any **overtime hours** spent working in the SEOC with the City of Flint Water Contamination/Shortage event, please use the following coding:

Index 28900 with PCA 28670

Any **non-payroll** costs (travel, SEOC meals during activation, etc.) should be coded to:

Index 28900 with PCA 28671.

These codes are not yet active in DCDS but will be by the end of the week. Please let me know if you have any questions.

Thanks,
Penny

Just an FYI. Clare County residents will be arriving at the ARC Grand Traverse location within the hour. They have solicited donations from Clare County and have 4.5 pallets of water to be donated. They are bringing ng 6 volunteers to assist offloading the pallets. They left Clare County about 30 minutes ago.

Their point of contact is Ms. Nicole Haris 989-600-7155.

Please keep us in the loop if they do go to the VRC – they should be able to plug them in from there (but I just would like to know).

Additionally, who specifically from the EOC would know what additional wards/areas need to be covered for door-to-door work? Henrik or Jay? Do they assign them? I am curious what the expectation is for volunteer support in those areas (also noting that trucks would have to be provided and supervision would be needed to direct the volunteers). I would like to predict courses of action, or know that the police system and the Red Cross on their own have it covered.

Thank you,
Chad

There is a crew of volunteers (4-5) people from Clare County, POC Nicole Haring. They have a trailer with 4.5 pallets of loose cases of water. She is to call me when they leave Clare County. At this time I was informed they could bring this supply of water directly to Clio warehouse. I plan on meeting the crew when they arrive in Genesee County at a staging area. I will then assess if the volunteers should go directly to the VRC if they plan to volunteer, or if their intention is to just off load the water. I will hold off on sending the trailer to any location until I make a visual assessment, and have direction from Logistics. They plan on leaving Clare County MONDAY 1/18/2016 around 11:00 am.

Good Morning,

Attached are the guidelines for entering your time in DCDS by coding block for those of you that are working **overtime** for the City of Flint Contamination/Shortage event. Please use **Index 28900 with PCA 28670** for overtime worked for this event. Do not use these codes for your regular hours.

Please contact one of the division timekeepers if you need additional guidance in entering the special codes for recording your overtime worked on this special event. Division timekeepers are Michelle Gilsdorf, Richard Sheaffer, and Nancy Downs.

Thank you,
Nancy

Subject: Coding for City of Flint Water Contamination incident

Good Afternoon:

For any **overtime hours** spent working in the SEOC with the City of Flint Water Contamination/Shortage event, please use the following coding:

Index 28900 with PCA 28670

Any **non-payroll** costs (travel, SEOC meals during activation, etc.) should be coded to:

Index 28900 with PCA 28671.

These codes are not yet active in DCDS but will be by the end of the week. Please let me know if you have any questions.

Thanks,
Penny

Just an FYI. I just cleared . I Provided her a Pur water system and a replacement cartridge. Along with the filter i gave her a case of bottle and can water. I also provided literature. She was informed last nite that someone was to install the system. So i hooked up the filter onto her kitchen faucet. Because she is in a condo association in Township I suggested she contact her landlord to confirm what water system she is on. She will still utilize the test kit, and get her water tested. .

Subject: RE: Coding for City of Flint Water Contamination incident

Good Morning,

Attached are the guidelines for entering your time in DCDS by coding block for those of you that are working **overtime** for the City of Flint Contamination/Shortage event. Please use **Index 28900 with PCA 28670** for overtime worked for this event. Do not use these codes for your regular hours.

Please contact one of the division timekeepers if you need additional guidance in entering the special codes for recording your overtime worked on this special event. Division timekeepers are Michelle Gilsdorf, Richard Sheaffer, and Nancy Downs.

Thank you,
Nancy

Subject: Coding for City of Flint Water Contamination incident

Good Afternoon:

For any **overtime hours** spent working in the SEOC with the City of Flint Water Contamination/Shortage event, please use the following coding:

Index 28900 with PCA 28670

Any **non-payroll** costs (travel, SEOC meals during activation, etc.) should be coded to:

Index 28900 with PCA 28671.

These codes are not yet active in DCDS but will be by the end of the week. Please let me know if you have any questions.

Thanks,
Penny

Good evening,

Attached is the list of staff assigned to work in the SEOC through 1/31/16. The hours are 8 a.m. to 8 p.m. Lunch and dinner will be provided. As always, business casual attire is appropriate. No jeans for EMHSD staff.

For Fiscal, your names are not on this schedule but I know it has been worked out within the section for the appropriate staff to cover.

Thanks,

Penny

Subject: Food Bank & Water Donations

I just spoke with Kara Ross from the Food Bank. Here is her update on large water donations:

1. Food Bank continuing to take semi-loads but their capacity is 5 to 8 semi-trucks

2. They will have limited hours tomorrow- Saturday, January 16th from 8 - 2p

3. Sunday 1/17th and Monday, 1/18th they will be closed and NOT able to accept donations on these days

4. She shared the Bill Kerr had spoken to the SEOC this morning to work on plans for shifting water to the N. Clio Rd. warehouse

5. She stated that it is their understanding that at this point in time - both the Food Bank and N. Clio Rd. Warehouse are taking large water donations until further notice

6. Contact person for the **Food Bank Warehouse is: Tina Martinez, Dir. of Operations (810) 396- 0230**

Thanks. Janet

Transportation: local bus transport is looking at a system to provide free transport to the stations. Working on how they will identify a customer needing transport for water and filters from someone just looking for a free ride.

Home delivery: Michelle, MSP shared that 211 will get the list of needs to the Sheriff Dept. who is putting a plan in place for delivery.

I can be here early all week (except Wednesday). Wednesday I will be in and out, my wife has her last chemo treatment (center is close to EOC).

Plan is being put together (mapping) for MSP/DHHS and Genesee County Sheriff to hit neighborhoods tomorrow. Fire Departments are receiving calls from public...they aren't happy/it's being handled. Big question (trying to be answered) is home delivery requests.

Subject: Question
Importance: High

Kristina Haring from our office has been raising money to buy water for residents of Flint. They are going to deliver it and are hoping to take it Monday since our office is closed that day. Do you know anyone that would have an enclosed trailer/truck that we could use to take it in? I didn't know if Cops and Doughnuts would have anything that would work or if that would even be an option but the amount of water that is getting donated has exceeded what she can haul in her truck.

Good Morning,

Attached are the guidelines for entering your time in DCDS by coding block for those of you that are working **overtime** for the City of Flint Contamination/Shortage event. Please use **Index 28900 with PCA 28670** for overtime worked for this event. Do not use these codes for your regular hours.

Please contact one of the division timekeepers if you need additional guidance in entering the special codes for recording your overtime worked on this special event. Division timekeepers are Michelle Gilsdorf, Richard Sheaffer, and Nancy Downs.

Thank you,
Nancy

Subject: Coding for City of Flint Water Contamination incident

Good Afternoon:

For any **overtime hours** spent working in the SEOC with the City of Flint Water Contamination/Shortage event, please use the following coding:

Index 28900 with PCA 28670

Any **non-payroll** costs (travel, SEOC meals during activation, etc.) should be coded to:

Index 28900 with PCA 28671.

These codes are not yet active in DCDS but will be by the end of the week. Please let me know if you have any questions.

Thanks,
Penny

Hi Mark,

See below. Is she asking this for the whole state or only Genesee County?
It looks like county only to me, but she sent it to all MRC Coordinators?
If Ottawa WERE to respond, that would be coordinated through you, correct?

Beth

Hi Mark,

See below. Is she asking this for the whole state or only Genesee County?
It looks like county only to me, but she sent it to all MRC Coordinators?
If Ottawa WERE to respond, that would be coordinated through you, correct?

Beth

Good Morning,

Attached are the guidelines for entering your time in DCDS by coding block for those of you that are working **overtime** for the City of Flint Contamination/Shortage event. Please use **Index 28900 with PCA 28670** for overtime worked for this event. Do not use these codes for your regular hours.

Please contact one of the division timekeepers if you need additional guidance in entering the special codes for recording your overtime worked on this special event. Division timekeepers are Michelle Gilsdorf, Richard Sheaffer, and Nancy Downs.

Thank you,
Nancy

Subject: Coding for City of Flint Water Contamination incident

Good Afternoon:

For any **overtime hours** spent working in the SEOC with the City of Flint Water Contamination/Shortage event, please use the following coding:

Index 28900 with PCA 28670

Any **non-payroll** costs (travel, SEOC meals during activation, etc.) should be coded to:

Index 28900 with PCA 28671.

These codes are not yet active in DCDS but will be by the end of the week. Please let me know if you have any questions.

Thanks,
Penny

Flint Water Crisis In The National Spotlight
(TMJ)
Michigan: The chief of the Racine Police Department is helping spearhead an initiative to bring clean water to a Michigan City dealing with a water crisis. The Flint water crisis began in April 2014 after the city switched sources for its water supply to save money. The new water was saltier and corroded old pipes, allowing lead to leach into the system and poison children. Flint has now switched back to its old water source, but the lead levels are still high, leaving anyone who drinks from a tap, especially youngsters, at risk.

White House 'concerned' about Flint water crisis
(Detroit News)
Michigan: The White House is monitoring Flint's water contamination crisis "very closely" but Michigan officials have not yet asked the federal government for emergency assistance, President Barack Obama's chief of staff said Sunday. Appearing on NBC's "Meet The Press," White House Chief of Staff Denis McDonough told host Chuck Todd that Flint's water woes are on the administration's radar. "Obviously very concerned about it, but I don't have any news to make with you on that today, Chuck," McDonough said. "We're watching it very closely, but nobody has asked us anything yet." Michigan Gov. Rick Snyder on Tuesday declared a state of emergency for Genesee County and his chief medical executive said Thursday Flint's water is not safe to drink without a filter to remove toxic lead particles. Snyder has not sought federal disaster assistance for toxic lead leaching into Flint's drinking water supply after the city drew its water from the corrosive Flint River from April 2014 until October, when the city switched back to Detroit's water supply from Lake Huron. The Snyder administration has been dogged for weeks about its slow response to the crisis. State officials and volunteers spent the weekend activating "water resource sites" at five Flint firehouses to provide residents with free bottled water, faucet filters, replacement cartridges and water testing kits. Todd asked McDonough whether the Obama administration is prepared to deploy disaster relief teams to Flint from the Federal Emergency Management Agency. "Well, again, we're going to watch this very closely," McDonough said. "I'm going

to be very careful what I say about this." But ***FEMA has deployed three workers to provide technical assistance at the State Emergency Operations Center in Lansing,*** said Nicole Lisabeth, spokeswoman for the Michigan State Police. The FEMA employees were deployed at the request Capt. Chris Kelenske, deputy director of emergency management at the Michigan State Police, Lisabeth said. "We're closely monitoring the #FlintWater situation," FEMA spokesman Rafael Lemaitre wrote Friday on Twitter *(below)*. Snyder's emergency declaration sets the stage for seeking federal assistance and can be renewed beyond its Feb. 1 expiration if the state cannot stop the lead contamination.

4 Days After Declaring Emergency, Michigan Gov. Gives Water to Flint
(NBC News)
Michigan: Four days after declaring a state of emergency over a water crisis in Flint, Michigan, Governor Rick Snyder is providing the city with bottled water and other supplies, Snyder's office announced Saturday. The news came as churches, local organizations and out-of-state donors worked to provide drinking water, and as criticism mounted from residents who wondered how the governor could seemingly declare a state of emergency without backing it up. The crisis in Flint began nearly two years ago, when the city abandoned its old water source — Lake Huron — and opted for a cheaper one, Flint River. But the new supply corroded water pipes, and lead leached into the system. Flint switched back, but lead levels in its water supplies have remained high, leaving vulnerable groups, such as children, at risk. In a statement, Snyder's office said it had partnered with local officials to begin providing bottled water, filters and testing kits at five fire stations around the city. The stations will be open seven days a week. The statement urged residents to only use filtered water for drinking supplies and food preparation.

State Police to deliver water door-to-door in Flint
(TheWeek)
Michigan: Residents of Flint, Michigan, will now be able to get drinking water from state troopers during home visits or from fire stations around the city. To save money, the city, while under a state-appointed emergency manager, switched its water source in 2014 from Lake Huron to the Flint River. Residents soon complained about the water's taste and appearance, and children were found to have high levels of lead in their systems. The city is once again using Lake Huron as a water source, but the water pipes have been corroded and lead leached into the system, NBC News reports. Residents are being warned not to use tap water to drink or in food preparation. Local churches and organizations, as well as donors from out of state, have been providing drinking water to residents. On Tuesday, Gov. Rick Snyder (R) declared a state of emergency, and on Saturday, his office announced that it is partnering with Flint officials to distribute bottled water, filters, and testing kits at five fire stations in the city. State troopers will also go from house to house to drop off bottled water and filters, the Detroit Free Press reports, and if no one is home, a flyer with information on resources will be left.

Law Enforcement and Intelligence
ISIL Reportedly Publishes Manual To Instruct Potential Western Lone Wolves
(Twitter)

Global: Would-be jihadists wanting to carry out a Paris-style attack in the West have been handed a step-by-step guide by the Islamic State (ISIL) terror group, the Daily Express reported Sunday. The 58-page booklet, called Safety and Security Guidelines for Lone Wolf Mujahideen, offers insight into the levels of preparation expected of those wishing to carry out attacks in Europe. The booklet urges home-grown terrorists to carry out attacks as they are less likely to be noticed. "This is why we (prefer) people already from the West instead of sending someone from here" "In the West, you already know the environment, how people talk and behave" The main thrust of the instruction booklet is the necessity to blend in with the Western way of life and to avoid "looking like a Muslim" so as to stay below the radar of the security services. It has been translated into English for those in the West who don't speak Arabic. Readers are urged to wear a Christian cross, cut off beards and shun prayer meetings and mosques to avoid detection. There is even advice about what jewelry to wear and on which hand to wear a watch. The guide also advises how to stake out government buildings before launching an attack to ensure the highest number of casualties and the best way to stalk "an army general or public figure" for an assassination. It also explains how nightclubs are the perfect place to discuss terror plans without being recorded or snooped on.

Water crisis in Flint, Michigan, draws federal investigation
(CNN)
Flint, MI: High levels of lead have plagued Flint's municipal water supply for at least a year, prompting extensive emergency measures to keep residents safe. Flint returning to Detroit water amid lead concerns. On Tuesday, Michigan Gov. Rick Snyder declared a state of emergency for Genesee County as a result of the water crisis. The U.S. attorney's office for the Eastern District of Michigan is also investigating, office spokeswoman Gina Balaya said Tuesday. Curt Guyette of the American Civil Liberties Union of Michigan called the probe "an important step that needs to be taken in order to get to finding the root causes of the disaster that has occurred in Flint and to hold everyone involved responsible." Flint council OKs funds for return to Detroit water after lead concerns. In November, Flint citizens filed a class-action

lawsuit on behalf of victims of high levels of lead against Snyder, the state of Michigan, the city of Flint and other state and city officials. The investigation by the U.S. attorney's office comes more than a year after the city of more than 100,000 people began getting water from the Flint River instead of from Lake Huron via Detroit's water system. The move was announced as a temporary, cost-cutting measure until Flint could get Great Lakes water on its own, according to the class-action lawsuit. But then came residents' complaints about strangely colored tap water. Studies showed that lead piping elevated lead levels 10 times higher than they had previously measured. A local hospital discovered that the percentage of Flint children with elevated lead levels nearly doubled after the switch. The health effects listed in the class-action suit include: skin lesions, hair loss, high levels of lead in the blood, vision loss, memory loss, depression and anxiety. Keith John Pemberton and his wife, Jacqueline, who are in their late 60s, allege in court documents that they suffered property damage because of the corrosive water, loss of value in their home, skin lesions and "psychological disorders such as depression, chronic anxiety and an inability to cope with normal stress." These conditions, according to the suit, were the result of bathing, washing and normal household activities. The Pembertons' allegations mirror those of Rhonda Kelso, 52, who, along with her 12-year-old daughter, said she suffered skin lesions and psychological problems. Kelso and her daughter have pre-existing disabilities, which they said the lead buildup in their blood compounded. The complaints prompted a host of actions to address what was labeled a public health emergency. The city ordered public schools to stop running water for taps and water fountains, according to WEYI-TV. Government agencies passed out more than 6,000 water filters, said Nick Lyon, director of the Michigan Department of Health and Human Services. The situation could affect the city for years. In a state of emergency declaration, Flint Mayor Karen Weaver indicated that more funding will be needed for special education services because lead "can cause effects to a child's IQ, which will result in learning disabilities." The water from the Flint water plant, according to an October public health emergency declaration from the Genesee County Board of Commissioners, meets all federal standards. But the declaration said that lead in service lines, or solder connections, can leach into individuals' homes because "of the corrosivity of the water since changing to the Flint River as the source supply." The governor's office has said Snyder "requested funding to switch the source back to the Great Lakes Water Authority," to combat the lead leaching, and "appointed an independent task force to identify possible missteps and areas for improvement." The situation got under control after city and state officials announced last fall that Flint would switch back to Detroit's water supply.

Brian,

He was given a water sample bottle and training on how he can sample his water himself which would the best way since the tap needs to have not been used for 6 hrs. That would be the easiest way for this to be completed.

Brian,

The water sample was not collected using the proper protocols for residential home sampling. Because of that we do not want it to be part of the overall database. If it is not useful to EPA then please just dump the sample and recycle the bottle. Thanks.

Scott/Mark Ducharme,

The faucet looks like a normal faucet; no black debris or slime. Based on pervious discussions with the Test America there is not enough material to test.

Also, the water sample dropped off with the faucet is the grab type that needs to go to the state lab. Do you want us to bring it to the county EOC or drop it off at a fire station?

This moringna at 10:00 am I had contact at ' residence
Accompanied by Elevated Lead and Copper Initial Assessment Task Force #11 with UA 370 P@P Dale Collins, MDEQ Environmental Advisor Pisha Williams and MDHHS Health Advisor Carly Adams.

Dale Collins inspected his kitchen faucet and water meter. He advised has galvanized plumbing. He also stated there is black debris in the hose from the sink faucet.

provided the faucet head to Pisha Williams MDEQ, who placed it in a plastic bag and took possession of it. She advised she would have the head tested. Also taken from the residence was a water sample.

UA 370 Collins advised they would schedule a visit next week to install a new faucet.

also added he believes the water pump station located a few residence from his house is tainted with debris from the Flint river. He believes when the water was supplied from the Flint river it corroded the screen/filter at the local pumping station causing it to provide black tainted water. The pumping station is located at Chevrolet and Stevenson.

Brian,

The water sample was not collected using the proper protocols for residential home sampling. Because of that we do not want it to be part of the overall database. If it is not useful to EPA then please just dump the sample and recycle the bottle. Thanks.

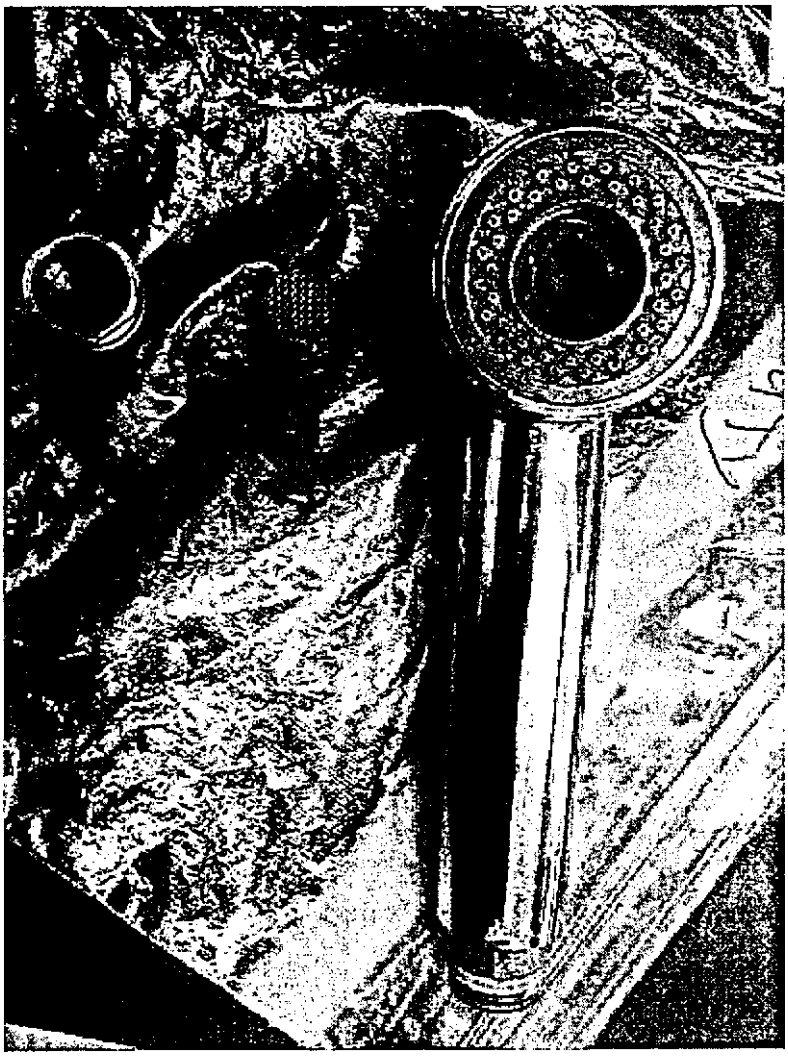
Subject: RE: Flint resident- needs help/ water resources

Scott/Mark Ducharme,

The faucet looks like a normal faucet; no black debris or slime. Based on pervious discussions with the Test America there is not enough material to test.

Also, the water sample dropped off with the faucet is the grab type that needs to go to the state lab. Do you want us to bring it to the county EOC or drop it off at a fire station?



Brian Kelly
Federal On-Scene Coordinator

This moringna at 10:00 am I had contact at residence
Accompanied by Elevated Lead and Copper Initial Assessment Task Force #11 with UA 370 P@P Dale Collins, MDEQ Environmental Advisor Pisha Williams and MDHHS Health Advisor Carly Adams.

Dale Collins inspected his kitchen faucet and water meter. He advised has galvanized plumbing. He also stated there is black debris in the hose from the sink faucet.

rovided the faucet head to Pisha Williams MDEQ, who placed it in a plastic bag and took possession of it. She advised she would have the head tested. Also taken from the residence was a water sample.

UA 370 Collins advised they would schedule a visit next week to install a new faucet.

also added he believes the water pump station located a few residence from his house is tainted with debris from the Flint river. He believes when the water was supplied from the Flint river it corroded the screen/filter at the local pumping station causing it to provide black tainted water. The pumping station is located at Chevrolet and Stevenson.

Subject: RE: Flint resident- needs water tested

All,

We will send our initial assessment team out to his residence tomorrow. We will not be able to sample his water due to constraints of the EPA order, but we can leave a sample test kit for him to collect the sample himself. The plumber who is on the team can assess his fixture and see if the problem is occurring there.

I recommend someone contact the EPA team in Flint and they will have the capability to sample his water for him. The contact is Brian Kelly,

Hi Team,

The local EOC just visited home and he was very upset. He refused the Zerowater pitcher and the filter does not fit his faucet due to having a sprayer.

would like someone from MDEQ to come test his water as he believes a filter wouldn't be able to filter what's coming out of his faucet.

The local EOC did leave a few cases of water. They also offered to send a plumber but the fear is will refuse those services because he wants his water tested.

Please know whom ever visits his home he is quite upset and may appear aggressive.

Please advise.

Kathy et al

Please see item 6 in the attached. This updated plan was not shared with MDHHS Division of Environmental Health (DEH) until this e-mail from Bryce. We did not and cannot agree to "coordinate" home visits by GCHD. DEH is not coordinating visits by GCHD or EPA, and I do not have the resources to do so. MDEQ cannot commit DEH or GCHD resources to make home visits. I simply do not have the available staff.

Subject: RE: Fw:High Lead and Copper Results

Bryce is in the field in Flint. Talked with Liz Browne. DEQ team can re-visit houses already visited by EPA for the purposes of asking if residents are willing to be part of the "sentinel sampling" efforts and all that goes with that (plumber?).

Hi Kory

Based on an email I received from Bryce Feighner (copied) this morning the DEQ outreach efforts are changing to not duplicate the efforts at the GCHD. Please confirm with him. Thank you.

Matt

OK. I am go to meet up with the DEQ group and continue on what we were doing yesterday.

You have my number, let's stay in touch.

I suggested to our SEOC they advocate that EPA, DEQ, DHHS and ATSDR coordinate our water sampling. Obviously, we should be able to go to each how a minimum number of times and collect data that works for all.

I gave them the names of:

Linda Dykema,
Mark Johnson,
Mark Ducharme
Mark Durno

Kory

Subject: Re: Fw:High Lead and Copper Results

There are 3 homes on the EPA sampling schedule for today that have requested a health consultation.

(sampled by VA Tech; not on the current GCHD visit list)

(business location; not on current GCHD visit list)

(3 children; on current GCHD visit list, indicated as being attempted but no answer)

I will plan to go out with the EPA sampling teams this morning, but I think that we should meet this afternoon to coordinate how we will be able to cover requests as they come up, as well as our response to rash inquiries.

Jim and Tony,

Attached are the following items.

- Home visit log
- PDF of "sorry we missed you letter" (some small changes were made to this)
- 3 info sheets
- Updated line list of Tier 1 homes

Please have your staff visit the two homes on the list. They should deliver water and complete the home visit log for each, including getting a contact number. They should also provide the information that Linda Dykema provided regarding the ETC follow up. This is key.
I won't be in the office Friday (I'm in Lansing), but can be reached at Two other follow-ups that need to happen is that Matt needs to follow up with the Nolan and Delaware homes to ensure that they have their results and Mary has one location that needs to receive a follow up call (please connect with her). That person could be connected with Linda and ETC regarding follow up testing and applying for remediation.
Thank you, Matt

Subject: RE: Fw:High Lead and Copper Results

Updated Tier 1 log is attached. It includes the information that I received from EPA regarding their site visits. There has only been one home that I know of that hasn't had at least one visit attempt. One of the GCHD teams visiting sites yesterday did not leave any materials or results if no one was at home. We may want to visit those places again. We are working on a "sorry we missed you" cover letter that we can leave at sites with no one home.

Here are the overall stats regarding making contact with the sites with very high lead values (>=150ppb). I believe there have been 43 unique locations (47 samples). Overall, ~56% have been successfully contacted by someone in person.

Category	Count	Percent
Attempted, No Answer (GCDH)	7	16.3
Initial Visit Completed (GCDH)	7	16.3

Attempted, Refused (EPA)	1	2.3
EPA Attempted, No Answer	10	23.3
EPA resample	17	39.5
Unknown (no visit)	1	2.3
Total	**43**	**100.0**

FYI... I did not receive any updated labs during the day yesterday, so I don't know how many new homes need to be contacted tomorrow.

Subject: High Lead and Copper Results

Linda and Jim,

Please see the attached spreadsheet containing all of the lead and copper data through the end of yesterday. When you scroll to the bottom of the spreadsheet you will see some exceptionally high results. The last one in particular is rather alarming as it not only has over 6 ppm of lead but it also has 22ppm of copper.

Director Creagh has asked that HHS and GCHD reach out to these homes immediately so that further investigation can be done and to ensure that these individuals are mitigating their exposure. Some of these home may have already been contacted but some of this data is new as of yesterday.

Thank you
George

Subject: RE: Request for Places of Worship map

Hi Mark, I or BJ could explain the courses of action developed. But until Cap's reviewed it, I can't send a draft.

There were five courses of action developed for selection:

1 is based on a local hire program with fixed locations but the pods themselves would be trucks rotated to the sites.
2 and 3 were based on the hub/sub hub concept with 2 being a hire program and 3 being all volunteer
4 is a filter cartridge distribution plan relying on a contractor
5 would be supplementing the Food Bank's resources to give them the capacity to handle the water distribution.

Subject: warehouse pod logistics

Good afternoon,

As part of our long range planning and community based pod transitions, if any of you who are involved in the logistics end or have that info for PODs and warehouses, I need any logistical/planning assumptions/criteria that you've used in identifying or operating warehouses, distribution centers, PODs, hubs, and smaller distribution centers. You may not have all these. Or you may have many more I'm not thinking of. Any you have would be very helpful! For example:

Storage area size
How many pallet jacks
How many forklifts
What accessibility requirements for loading and/or customer access
Distance between loading points and customer access points
Parking spaces
Drive through capability, etc.

Whatever clarifying questions you need, please ask. And so that we can continue our planning efforts and respond to our deadlines, if there's any way you could provide this to me by noon tomorrow (Wednesday), that would be very much appreciated. If you don't have anything, please just let me know, or who might if it's someone not on this distribution list.

Thank you,

Tom Weber, PEM

Subject: URGENT - Records Request

Importance: High

The department has been directed to provide copies of all records in our possession related to the Flint water matter to the Governor's office. You are receiving this email because you have been identified as an individual who may have records that must be produced. If there are any department members who you think may be in possession of records related to Flint water, please forward this message to those members.

Records include memos, handwritten notes, emails and attachments, and text messages in your possession, regardless of who produced the record. Be sure when you search your email messages that you look in your inbox, sent box, and trash. In preparation for the production, you must estimate the number of records you have in your possession and provide that estimate to Ms. Lori Hinkley no later than **2:00 PM on Friday, February 12, 2016.**

You must then provide a copy of each record in your possession to the Legislative and Legal Resources Section no later than close of business on **Thursday, February 18, 2016.**

Members who work at Headquarters must provide paper copies to F/Lt. Chris Hawkins in the Office of the Director. Members who work at the State Secondary Complex must provide a paper copies Ms. Lori Hinkley. Ms. Hinkley is located on the second floor of the new Headquarters building. Department members who work outside of these worksites may send copies of records in their possession via e-mail to MSP-FOIAProject@michigan.gov.

In addition to this initial production of records, the department is required to provide copies of newly created records on an ongoing basis. Until further notice, copies of all newly created records shall be forwarded to MSP-FOIAProject@michigan.gov.

REMINDER: Public records can only be disposed of consistent with an approved retention schedule. As it applies to emails and text messages related to the Flint water matter, please use the retention schedule in place for general correspondence which is **two years**. Please save all emails and text messages for at least two years. Prior to expiration of the two year period you will have an opportunity to re-evaluate the content of the messages to determine if an additional retention period is necessary. If you have issues with accommodating emails based on your mailbox size, please archive them. Do not print and file them as the metadata must be retained as well.

If you have any questions with these instructions, please contact Ms. Lori Hinkley.

All,

You have two options on the emails that need to be printed (that relate to Flint) and this needs to be done early next week.

1. Come to Lansing and print off the emails yourself.
2. Put all of your emails in a folder and then give Oralya your email password; she will go into your email and print off the emails for you (from that folder).

Still no update on the texts and how to collect them, so standby on that.

Let me know if you have any questions,
Gabe

Subject: Volunteer Reception Center help needed in Flint

Good morning:

I received an email from one of my local health department contacts in Lapeer County. She indicated that the Volunteer Reception Center was in need of volunteers to help with the center and wanted to let me know that if there were any groups in my six counties that were interested in helping, then to contact the following two people:

If you or your group of volunteers have any interest, please contact Rachel Wenzlick, Volunteer Coordinator of United Way of Genesee County at 810.762.5823 or rwenzlick@unitedwaygenesee.org.

Justin Bays is also working with organizing the VRC.
Recovery Operations
American Red Cross
Justin.Bays2@redcross.org
(c)

There is also a site: www.flintvolunteer.org

I thought of the local MRC and CERT groups and thought that I would pass this along, just in case. You may all be already connected with the situation and what they need, but I thought I would pass this along as an FYI.

Thank you.

Melissa DeRoche

Subject: Volunteer Reception Center help needed in Flint

Good morning:

I received an email from one of my local health department contacts in Lapeer County. She indicated that the Volunteer Reception Center was in need of volunteers to help with the center and wanted to let me know that if there were any groups in my six counties that were interested in helping, then to contact the following two people:

If you or your group of volunteers have any interest, please contact Rachel Wenzlick, Volunteer Coordinator of United Way of Genesee County at 810.762.5823 or rwenzlick@unitedwaygenesee.org.

Justin Bays is also working with organizing the VRC.
Recovery Operations
American Red Cross
Justin.Bays2@redcross.org
(c)

There is also a site: www.flintvolunteer.org

I thought of the local MRC and CERT groups and thought that I would pass this along, just in case. You may all be already connected with the situation and what they need, but I thought I would pass this along as an FYI.

Thank you.

Melissa DeRoche

Brian,

The water sample was not collected using the proper protocols for residential home sampling. Because of that we do not want it to be part of the overall database. If it is not useful to EPA then please just dump the sample and recycle the bottle. Thanks.

Scott/Mark Ducharme,

The faucet looks like a normal faucet; no black debris or slime. Based on pervious discussions with the Test America there is not enough material to test.

Also, the water sample dropped off with the faucet is the grab type that needs to go to the state lab. Do you want us to bring it to the county EOC or drop it off at a fire station?

We can certainly take a look at the faucet head and the material evaluate it for potential sampling. Can the DEQ sampler bring it to our Command Post? I've cc'd the folks that could be there to take a look at it?

This moringna at 10:00 am I had contact at residence . Accompanied by Elevated Lead and Copper Initial Assessment Task Force #11 with UA 370 P@P Dale Collins, MDEQ Environmental Advisor Pisha Williams and MDHHS Health Advisor Carly Adams.

Dale Collins inspected his kitchen faucet and water meter. He advised has galvanized plumbing. He also stated there is black debris in the hose from the sink faucet.

provided the faucet head to Pisha Williams MDEQ, who placed it in a plastic bag and took possession of it. She advised she would have the head tested. Also taken from the residence was a water sample.

UA 370 Collins advised they would schedule a visit next week to install a new faucet.

also added he believes the water pump station located a few residence from his house is tainted with debris from the Flint river. He believes when the water was supplied from the Flint river it corroded the screen/filter at the local pumping station causing it to provide black tainted water. The pumping station is located at Chevrolet and Stevenson.

Pastor Ellison, Harris, and Overton,

Below is a list of churches that have volunteered to be Church Distribution Hubs. I had direct contact with the pastors and their point of contacts. I have also conducted site assessments at their facilities.

It was conveyed to them that this initial plan was a collaborative effort, and may change with input from all parties involved.

It was discussed, and agreed that the HUB churches would network with the surrounding churches, and set up their own agreed upon distribution schedule. It was requested that the HUB church provide a list of churches that are obtaining their water from the HUB church. This list can be sent via email to Lt. Roach at Roachb@michigan.gov.

Hopefully this plan will further assist and augment our initiative of getting water to our residents more efficiently.

Request for Water

At this time the Church HUB point of contact is Lt. Roach The Church HUB will call and provide the quantity of water, and schedule the delivery time. This should be scheduled at least 24 hours in advance.

Deliveries

The deliveries will be conducted by a Mi DTMB driver, and truck. They have a pallet jack and the capability of moving pallets from their truck to a staging area. If the water needs to be transported to an upper or lower level, there needs to be people to assist off-loading.

Church Distributions

The Church Distribution HUB would be responsible to network with the surrounding churches, and set up a distribution schedule, along with amounts of water needed.

Incident Action Plan #7

Flint Water Crisis, MI

Unified Coordination Group

(ASPR, CDC, EPA, FEMA)

Operational Period

Feb. 06, 2016 – Feb 10, 2016

0800 – 0800

INCIDENT OBJECTIVES (ICS 202)

1. Incident Name: Flint Water Crisis	2. Operational Period: Date From: 2/6/16 Time From: 0800	Date To: 2/10/16 Time To: 0800

3. Objective(s):

1a. Conduct emergency water testing to a) determine chlorine and bacterial levels in the water supply; and b) study efficacy of water filters. (WQTF)
2. Coordinate with local and State partners to evaluate and if needed, respond to higher levels of concern for lead and other contaminants. (WQTF)
3. Develop and implement environmental sampling plans to a) evaluate water quality concerns; b) conduct regulatory sampling in accordance with the LCR/SDWA; c) conduct sequential sampling to better understand lead leachability in the water distribution system; and d) establish a pipe-rig to assess water quality for transition to the KWA source waters. (WQTF)
4. Ensure compliance with EPA enforcement orders pursuant to this incident. (WQTF)
5a. Coordinate the development of targeted public health messaging and communication products for lead exposure in collaboration with the Genesee County Health Department, the Michigan Department of Health and Human Services and US Environmental Protection Agency. (PEATF)
7a. Provide lead education and a community engagement strategy to the Genesee County Health Department. (HMTF)
7b. Provide nurse case work management to Genesee County Health Department. (HMTF)
7c. Provide call center technical assistance to Genesee County Health Department. (HMTF)
7d. Develop a data collection strategy for Genesee County Health Department. (HMTF)
8a. Assess progress on Centers for Medicare and Medicaid Services (CMS) & Administration for Children and Families (ACF) related requests from the State. (HSTF)
10. Assess progress toward improving micro-nutrient effort for the school system. (NETF)
11. Assess progress towards enhancing healthy food availability for the community. (NETF)
12a. Coordinate the intergovernmental, public and external affairs effort to ensure awareness and visibility of communications activities regarding *Flint water crisis with State and Federal partners.* (PEATF)

Continued on next page

Water Quality Task Force (WQTF)
Human Services Task Force (HSTF)
Public & External Affairs (PEATF)
Health & Medical Task Force (HMTF)
Nutrition and Education Task Force (NETF)

4. Operational Period Command Emphasis:
Coordinate and support local and State government to provide Federal support to meet the needs of the Flint Community during the Water Crisis.

ASSIGNMENT LIST (ICS 204)

1. Incident Name: Flint Water Crisis	2. Operational Period: Date From: 2/6/16 Time From: 0800 Date To: 2/10/16 Time To: 0800	3. Branch: Division: Group: Nutrition & Education Staging Area:

4. Operations Personnel: Name / Contact Number(s)

Operations Section Chief: Georgia Siebenaler

Branch Director: _____

Division/Group Supervisor: _____

5. Resources Assigned: Resource Identifier	Leader	# of Persons	Contact (e.g., phone, pager, radio frequency, etc.)	Reporting Location, Special Equipment and Supplies, Remarks, Notes, Information
Nutrition and Education TF	Vista Fletcher	1	vista.fletcher@fns.usda.gov	USDA/FNS
Nutrition and Education TF	Sandra MacMartin	1	sandra.macmartin@fns.usda.gov	USDA/FNS

6. Work Assignments:

- Provide assistance in reviewing nutrition education materials to the State Nutrition Task Force.
- Investigate the feasibility of using WIC funding to support blood lead testing.
- Follow up with the State Dept. of Education on what support will be supplied for menu planning for school meals.
- Follow up with the State Dept. of Education to identify other programs to address the nutritional needs of children when not in school.

7. Special Instructions:

Report task force situation report for previous day by 0900 to UCG Flint Planning section via email to: irct1.plan@hhs.gov

Be aware of your surroundings while walking or driving. Winter weather conditions will cause slick roads and walking surfaces. Do not travel alone, use the buddy system. Do not drink Flint water. Report all injuries as soon as possible to operations and safety.

8. Communications (radio and/or phone contact numbers needed for this assignment):

SAFETY MESSAGE/PLAN (ICS 208)

ASPR
ASSISTANT SECRETARY FOR PREPAREDNESS AND RESPONSE

1. Incident Name/Location: Flint Water Crisis	2. Operational Period: Date From: 2/6/16 Date To: 2/10/16 Time From: 0800 Time To: 0800

3. Location: UCG Flint/ DTMB Building 125 East Union St, Flint MI

4. Site Emergency Action Plan (Alarm and Evacuation Signal, Route and Rally Point, Accountability and Critical Material/Process Actions): UCG operating from Administration Building; if fire alarm activates exit building through fire tower stairways located in the elevator lobby and near cargo elevator, UCG Plans will have copy of current personnel assigned and be responsible for accountability, rally point will be across from main lobby entrance in front of parking garage. Do not return to the building until given the all clear by Command.

5. Hazardous Areas/Work Prohibitions (Prohibited Areas or Activities): Avoid construction area in the main lobby. Rain and snow are expected and appropriate cold weather and rain gear should be in use. Driving conditions change with the weather. Temperature fluctuations result in wet pavement becoming ice and dangerous driving and walking conditions. Seat belt use is mandatory in rental cars in addition to all government vehicles.

6. Sanitation (Toilets, Hand Washing, Shower, Waste Locations or Protocol):
   - Facility has indoor restrooms to support up to 100 people (normal daily use).
   - Use refuse containers deployed about work area.
   - Please separate recyclables and deposit in appropriate containers (marked).
   - Regular hand washing is recommended. Wash hand after restroom use and prior to eating.
   - Canned and bottled water is available in the UCG.

7. Security (Control Point and Site Security Protocol): All personnel will wear issued identification and check with security in lobby when entering building if they have no building access card. Do not leave valuables in your car or your hotel room.

Do not travel alone. Use the buddy system.

7. Safety Officer Bill Kershner Contact: 202-697-1065 2/5/16 1445

SAFETY MESSAGE/PLAN (ICS 208)

ASPR
ASSISTANT SECRETARY FOR PREPAREDNESS AND RESPONSE

1. Incident Name: Flint Water Crisis	2. Operational Period: Date From: 2/6/16 Date To: 02/10/16 Time From: 0800 Time To: 0800

3. Location: Genesee County Health Department, 630 South Saginaw St. , Flint Michigan, 48502 PHS Officers

4. Site Emergency Action Plan: (Alarm and Evacuation Signal, Route and Rally Point, Accountability and Critical Material/Process Actions): Evacuation routes posted in the main hall adjacent to where personnel are working. Capt. Farabaugh, Cdr. William Ruiz-Colon, and Cdr. Carma Ayala will brief crews on their evacuation routes. Evacuation point is corner of 3rd and Saginaw for accountability. Follow instructions of law enforcement when given. Building has automatic sprinklers, fire and smoke detectors. Exits are clearly marked and shown on evacuation maps located on each floor. Report illness/injury as soon as possible to Operations and Safety. All injuries/illness must be recorded in e-comp with Admin/Finance and Safety Officer.

5. Hazardous Areas/Work Prohibitions (Prohibited Areas or Activities): Use the buddy system when it is necessary to go out. Do not travel alone. Temperatures are ranging from the middle 40's to the lower 20's. This results in snow and ice melting in the warmer temperatures and freezing again when temperatures drop and creating hazardous driving conditions and slippery footing. Use cold weather gear and rain gear as needed. MAINTAIN SITUATIONAL AWARENESS. If assigned to do sampling in private homes be aware of any slip, trip and fall hazards and pets in the home that might be hazardous.

6. Sanitation (Toilets, Hand Washing, Shower, Waste Locations or Protocol): Wash hands regularly and before meals and after restroom use. Dispose of waste in appropriate containers.

7. Security (Control Point and Site Security Protocol): Security Officers are in the building on the first floor. Travel in pairs utilizing the buddy system or larger groups. Do not travel alone. If you see any behavior you believe to be odd report it to Command. If you see something say something.

7. Safety Officer:	Contact:
Bill Kershner	202-697-1065

8. Prepared by: Name: Bill Kershner Position/Title: Safety Officer Signature:
Date/Time: 2/5/16 1430

SAFETY MESSAGE 02/05/2016

Weather conditions range from the middle 30s to the low 20s at night. Decreasing temps at night may cause icing. Hazardous driving and walking conditions may exist. Avoid walking in areas where ice exists. Adjust speed and distancing from other vehicles accordingly. Wear appropriate clothing for the weather conditions as per the HERA. ***MAINTAIN SITUATIONAL AWARENESS.***

Look on inside of your lodging door for instructions for emergency exits in the event of an evacuation and get with your team for accountability. Do not return to your room until you have been accounted for and given the all clear by hotel management. Obey all instructions given by Law Enforcement.

Use the buddy system when traveling to dinner, shopping, or for meals.

REPORT ALL ACCIDENT/ILLNESS IMMEDIATELY TO OPERATIONS

UCG Flint Situational Summary
2/9/16
As of 1700

Flint, MI Water Contamination Information Collection Plan Report

EEI # Information Required

20 Water infrastructure testing locations

Chlorine testing – EPA is sampling at various locations throughout the system. EPA has established a series of standing long-term sampling locations to better evaluate chlorine throughout the system.

Lead testing – EPA is conducting sequential sampling at up to 60 locations where lead infrastructure is known to exist. EPA is also collecting filter grab samples to evaluate filter efficiency.

Filter Evaluation and Chlorine Residential Screening maps are available on EPA's website (www.epa.gov/flint).

The Michigan Department of Environmental Quality is working to finalize a plan which will monitor corrosion and examine plumbing at 400 sentinel security sites across all wards of the city. These sites include houses where overly-high lead levels were previously recorded as well as locations thought to be near lead infrastructure.

21 Contaminants and quantity per testing location

Chlorine – One sample per location per day.
Lead – A series of sequential samples at up to 60 locations, to be conducted monthly until the system has recovered.
Filter grabs – Three samples per location.

22 Water infrastructure assessment implementation timeline

Ongoing – to continue until the system is determined to be recovered

23 Change/Delay of water lead testing: Include causes for delay, anticipated effects of delay

Challenges: Obtaining contact information to make appointments for testing; staffing to make appointments.

24 Determination of pipe damage

Sampling, as described above, will indicate the status of corrosion within the system.

25 Determination of where lead is in the pipes

Known lead pipes have been mapped via GIS.
Sequential sampling will help identify lead locations in a subset of known lead service lines.

State DEQ is including these locations in their sentinel sampling site strategy.

26 Number of individuals evaluated (blood tests)

With state and federal assistance, the Genesee County Health Department worked through a back-log of testing and notifications. Plans in place to maintain timely testing and notifications

State and County health officials have agreed to cooperate on a plan to conduct blood tests on approximately nine thousand children by early April.

See attached "MDHHS Director's Situation Report" for 2/8/16 (includes blood test by age group for identified zip codes).

27 Geographic density of households evaluated (blood tests)

This information is pending from CDC/ATSDR Epi team in Lansing

28 Percentage of total proposed individuals evaluated (blood tests)

Pending from MDHHS

29 Geographic density of households above threshold results

This information is pending from CDC/ATSDR Epi team in Lansing

30 Average time between evaluation result and distribution of protective actions

With federal assistance, GCHD is increasing the number of home visits made to high-lead level households.

31 Opening of Family Assistance Centers (MARC – Multiagency Resource Center)

Working under own authorities.

39 Significant activities since the last report

UCG Flint

Operations Section:

- Requested reload for LSC and Comm Lead
- Verified extension orders for three IRCT members.

Planning Section:

- Assisted with MDHHS Request Matrix reconciliation and objective development.
- Facilitated planning process
- Published daily Situational Summary
- Maintained accountability of UCG and agency field staff.
- GIS staff provided an updated map of the lead levels in water at residences in Flint to the EPA and CDC.
- GIS staff participated in the GIS Coordination call with HHS, EPA, CDC, the Michigan State Police, the City of Flint, and FEMA. A data service agreement was agreed upon and a formal one for everyone to sign will be sent out soon. An Excel sheet with all the current data possessed and needed was sent out with the call.

Logistics Sections:

- Addressed issues with park deck access.
- Worked on reload plan for LRAT.
- Continued working on Inventory/Burn Rate.

Admin/Finance:

- Continue to investigate possible AmeriCorps workers comp issue with Safety.

- Coordinate with Travel to ensure inbound and outbound personnel have adequate travel.
- Work demobilization process with IRCT Commander and Travel.
- Updated the Master Roster
- Updated and distributed Admin Briefing to appropriate personnel.
- Updated the NDMS hours worked report.

Health and Medical Task Force

CDC

- Along with EPA Strike Teams participated in investigations into complaints of individuals with rashes.
- Visited multiple residences and facilities (homeless shelter, child care) with EPA to conduct water quality sampling.
- Data management team gathering all MI datasets to create a cohort of children less than six (6) years of age living in the 11 Flint area ZIP codes.

Public Health Services Team (PHST)

Mental Health Support:

- Behavioral Health team member met with many GCHD McCree staff to help determine how staff are coping with current challenges.

Risk Communication Development:

- Finalizing cataloging of materials vetted/approved for use.
- Met with IT POC to help with cataloging.
- Modified lead power point presentation for MI School of the Deaf outreach activity.
- Staffed Carriage Town Ministries Lead Screening event from 1500-1800.

Public Health Monitoring:

- Finalizing FAQ messaging for GCHD telephone calls related to lead.

Public Health/Nurse Care Management:

- Log for water results accepted for use by all partners—all info related to home water results consolidated to one file.
- Working with agency partners to develop a "high copper level" assessment protocol.
- Outlining the steps involved in the elevated blood lead level notification process—assess breakdown points to help mitigate notification delays/failure.

Address GCHD challenges limiting blood lead screening:

- Shared observations with GCHD regarding the lead results notification process

- GCHD advised to limit their involvement in lead screening activities due to clerical and laboratory staff limitations.
- Four PHS officers staffed Carriage Town Ministries event.

GCHD nurse case manager support:

- Finished clerical work associated with processing the 799 capillary blood lead results at GCHD Burton.

Behavioral Health Response Plan:

- Meeting today with leaders from Children's Health Fund to discuss ways that Behavioral Health Group could work with their organization for outreach activities. Children's Health Fund have a behavioral health mobile clinic and will have it moved to Flint from Louisiana.
- Flint Community Resilience Group response planning group—developing immediate, medium, and long-range goals (recruit providers, obtain HRSA Health Professional Shortage Area designation, complete CAST and STYH surveys

Behavioral Health Support for community-based health and human service providers:

- Scheduling force health protection events.

Public & External Affairs Task Force

EPA PIO

- Began planning for interviews to supplement FLIER: How to Properly Use Filter
- Worked on products in support of operational tasks:
  - Printing and drafting door hangers for water quality testing
  - Changing flier on How to properly use filters
  - Producing Infographics for Filters
  - Developing Fact Sheet on Toll Free # and email address
  - Developing FAQ Sheet on top public questions
- Worked with Logistics to establish a local phone number for residents to call to request sampling: 810-434-5122.
- Connected with Flint Area Boys and Girls clubs and made arrangements to talk to club members at upcoming events. Left EPA flyers for students and parents.
- Provided English and Spanish flyers to local community groups and churches.
- Introduced newly-mobilized EPA Hispanic translator to Flint contacts to maintain connections through staffing changes.

CDC PIO

- Supported VIP visit Director Dr. Breysse (NCEH/ATSDR) and Incident Commander Dr. Knutson (CDC)
- Coordinated with EPA and HHS to provide technical assistance to state on copper messaging
- Provided state with existing CDC/ATSDR copper fact sheet.
- Developed catalog of existing communication materials and printed for NCEH Director.
- Continue to coordinate Crisis Emergency Risk Communications (CERC) training for state Public Information Officers.

Water Quality Task Force

CDC

- CDC/ATSDR worked with MDHHS and EPA to develop alternative to a specific fact sheet for Copper in Flint Drinking Water.
  - Based on a specific recommendation for children less than 1 year of age, only bottled water should be used for drinking and reconstitution of infant formula and other food products
- CDC/ATSDR with support from EPA and MDHHS developed language for message concerning copper in the Flint city water.
  - Language is protective of children of all ages.
  - Existing EPA action level is adequately protective of older children.
  - Submitted to EPA for review and inclusion in their existing Flint fact sheet.

EPA

- Coordinated with Data Management Team on streamlining sample result collection and reporting.
- Coordinated with ATSDR on rash sample result delivery.

Water Sampling Team

- Performed lead sequential sampling investigations at 4 homes, collecting a total of 68 bottles.
- Performed filter grab sampling investigations at 6 locations, collecting a total of 38 bottles.

High Lead Homes Strike Team

- Assisted ATSDR with rash sampling at 3 residences.
- Assisted ORD Water Assessment Team with chlorine sampling.

ORD Water Assessment Team

- Developed chlorine sampling plan for distribution.
- Constructed pilot plants (pipe rigs) to study corrosion control and scouted locations for installation at water treatment plant. The pilot plants will be delivered to the water treatment plant next week.
- Performed chlorine sampling at 8 sites.

Data Management Team

- Working with Water Sampling Team to ensure historic data are entered into database.
- Finalized data flow from field, through Quality Assurance/Quality Control (QA/QC), into Scribe database, and to Geographic Information Systems (GIS) group.

MDHHS Director's Situation Report
Flint Water Response
08 February 2016

Flint Daily Blood Test Report

Week of February 8-12, 2016:
Includes Zip Codes 48501 to 48507, 48509, 48519, 48529 and 48532

The table on p.2 presents daily counts of the total number of venous or capillary blood lead test results for Flint residents in zip codes 48501-48507, 48509, 48519, 48529 and 48532, received by MDHHS in the previous 24 hours. (Counts on each Monday of the week include the previous week-end.) Weekly cumulative counts are also provided each day.

These counts do not represent the number of individual people tested, as some individuals may be tested more than once per year. For information on the number of people tested per calendar year, please see the weekly Flint Blood Test Report (available at www.michigan.gov/flintwater) that includes counts and percentage of tests with blood lead levels ≥ 5 micrograms per deciliter of blood by calendar year.

2/8/2015

Age in years	#tests	#=>5	#=>5 new	%=>5
age<6	155	2	2	1.3%
age 6-17	172	0	0	0.0%
age 18+	268	2	2	0.7%
Total	595	4	4	0.7%

Table Key

 # Tests: the total number of venous or capillary blood lead test results received in the previous 24 hours.

 # => 5: the number of venous or capillary blood lead test results received in the previous 24 hours that were => 5 micrograms per deciliter of blood

 # => 5 new: the number of those test results => 5 micrograms per deciliter of blood that were from people not previously tested.

% => 5: the percent of total tests received in the previous 24 hours that were => 5 micrograms per deciliter of blood.

Table: Flint Daily Blood Test Report
Week of February 8-12, 2016: Includes Zip Codes 48501 – 48507, 48509, 48519, 48529, 48532

Blood Lead Testing Results in Children Enrolled in Medicaid & Residing in City of Flint as of February 8, 2016
Tests Performed on or After April 1, 2014
Zip Codes 48501-48507

Blood Lead Testing	Age				Total	
	0-11 months		1-5 Years			
	N	%	N	%	N	%
Children Tested	119	7.5%	4120	56.5%	4239	47.8%
Children Not Tested	1466	92.5%	3171	43.5%	4637	52.2%
Total Enrolled	1585		7291		8876	
Blood Level ≥ 5 µg/dL* among Tested Children	4 of 119	3.4%	184 of 4120	4.5%	188 of 4239	4.4%

Zip Codes 48501-48507, 48509, 48519, 48529 and 48532

Blood Lead Testing	Age				Total	
	0-11 months		1-5 Years			
	N	%	N	%	N	%
Children Tested	132	6.5%	5021	55.1%	5153	46.3%
Children Not Tested	1888	93.5%	4085	44.9%	5973	53.7%
Total Enrolled	2020		9106		11126	
Blood Level ≥ 5 µg/dL* among Tested Children	4 of 132	3.0%	198 of 5021	3.9%	202 of 5153	3.9%

*The highest level for each child tested was selected. If a child had a venous test, that was selected over any capillary test.

Filters Distributed GCCARD/DHHS
February 5, 2016

	Total Distributed Oct-Feb 5	Distributed Feb 5 2016

Zero Water Pitchers	1,162	44
PUR Filters	29,744	84
Replacement Cartridges - Brita	40,291	51
Replacement Cartridges - PUR	35,051	117
Replacement Cartridges - Zero	3,791	81

State Emergency Operations Center (SEOC) Update

Data is for 2/7/16 as of 5:00 pm:

- Total homes visited:
  - 17,682 (round 3 total)
  - 1,121 (today)
- Water cases (liters calculated by multiplying # of cases x 12):
  - 124,032 liters or 10,336 cases (round 3 total)
  - 8,124 liters or 677 cases (today)
- Replacement cartridges:
  - 3,644 (round 3 total)
  - 312 (today)
- Faucet filters:
  - 7,185 (round 3 total)
  - 92 (today)

Case Management

Case Management Situation Report through **2/5/16**

- Trained 4 Nurses and 1 Social Worker from the Public Health Service Corps to provide case management services in Flint

Environmental Investigations

24 water samplings completed *Elevated Blood Level Environmental (EBL) Investigations*
Through 02/08/2016

- 29 families contacted
- 26 EBL investigations completed
- 26 cleaning kits delivered
- 15 EBL Reports Received
  - 11 water filters observed
  - 14 homes with dust hazards present
  - 5 homes with soil hazards present
  - 14 homes with lead based paint hazards
  - 10 homes with lead detected in water
    - 2 homes with lead water levels greater than 15 ppb
- 1 EBL investigation scheduled

Children's Services Agency (CSA)

- 100% visual confirmations of water filters (or otherwise confirmed as outside city of Flint water source) for all impacted foster care placement providers
- 58% of foster care providers have submitted a water sample for testing

Behavioral Health

- Collaborated with Alice Hoffman from the MDHHS, disabilities unit
  - Further local organizations will be identified that may help assist in outreaching to vulnerable populations to ensure information and resources are reaching this group in Flint
- A coordination meeting was held with Genesee Health System (GHS) to clarify the role of CHAP in long-term recovery efforts

- CHAP can be utilized to outreach to the Flint families as part of the GHS proposal for Targeted Case Management
- If awarded, the SAMSHA Emergency Grant Fund, can be utilized to help augment CHAP in the intermediate term to assist in outreach to the Flint community

➢ The next Flint Community Resilience Group meeting is scheduled on Tuesday, February 16, 11am, at the Riverfront Banquet Center

Nutrition Planning

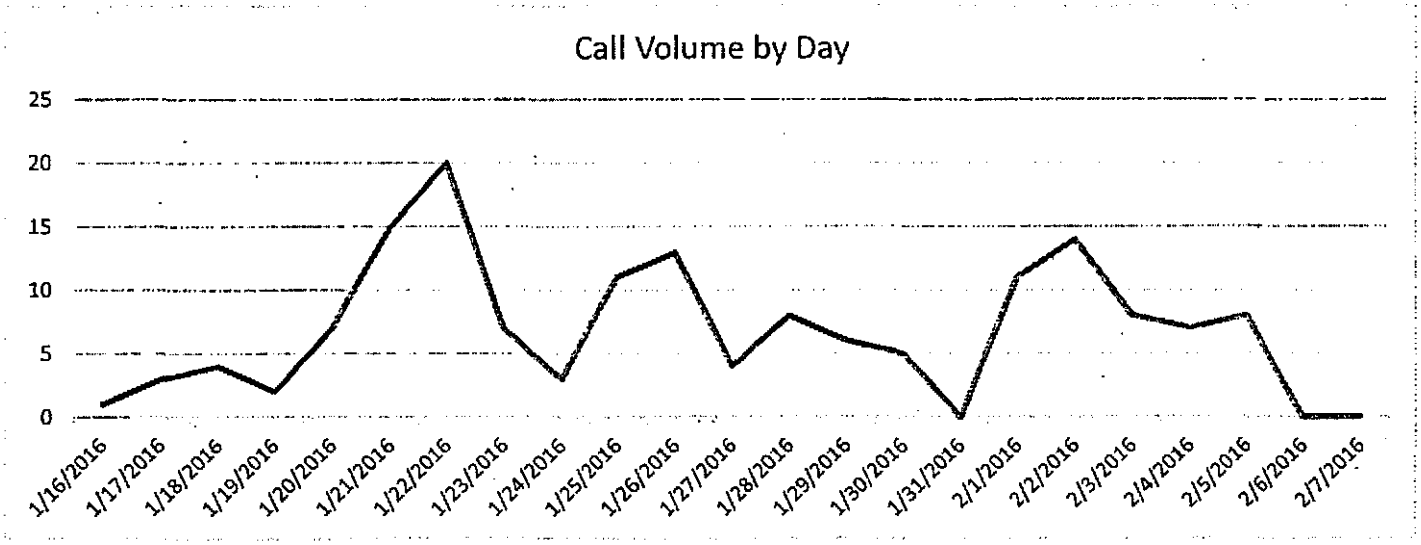
➢ GCHD Flint WIC site visit planned for 2-10-16 with USDA – FNS reps to review and get feedback from WIC Clinic staff

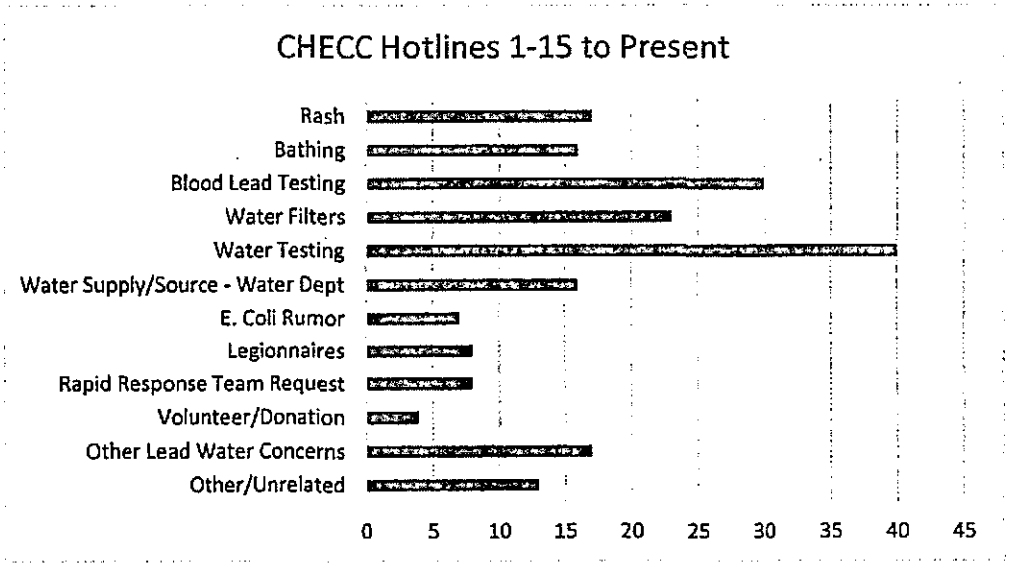
➢ Request letter submitted on 2/8/16 to USDA – FNS, Tim English for a WIC Rules Exception to allow WIC funds for lead testing in WIC clinics if not covered by other sources

➢ Response letter sent and appeal to USDA – FNS to the 1-27-16 letter not allowing expansion of WIC to ages 5 thru 10

CHECC Caller Hotline

Graphs for calls and questions through 2/7/2016





UCG Flint Situational Summary

2/14/16
As of 1700

Flint, MI Water Contamination Information Collection Plan Report

EEI # Information Required

20 Water infrastructure testing locations

Chlorine testing – EPA is sampling at various locations throughout the system. EPA has established a series of standing long-term sampling locations to better evaluate chlorine throughout the system.

Lead testing – EPA is conducting sequential sampling at up to 60 locations where lead infrastructure is known to exist. EPA is also collecting filter grab samples to evaluate filter efficiency.

Filter Evaluation and Chlorine Residential Screening maps are available on EPA's website (www.epa.gov/flint).

The Michigan Department of Environmental Quality is working to finalize a plan which will monitor corrosion and examine plumbing at 400 sentinel security sites across all wards of the city. These sites include houses where overly-high lead levels were previously recorded as well as locations thought to be near lead infrastructure.

21 Contaminants and quantity per testing location

Chlorine – One sample per location per week.
Lead and copper – A series of sequential samples at up to 100 locations initially, followed by 45 locations every two months until the system has recovered.
Filter grabs – At least three samples per location.

22 Water infrastructure assessment implementation timeline

Lead testing – EPA is conducting sequential sampling at up to 100 locations where lead infrastructure is known to exist. EPA is also collecting filter grab samples to evaluate filter efficiency.

23 Change/Delay of water lead testing: Include causes for delay, anticipated effects of delay

Challenges: Obtaining contact information to make appointments for testing; staffing to make appointments.

24 Determination of pipe damage

Sampling, as described above, will indicate the status of corrosion within the system.

25 Determination of where lead is in the pipes

Known and suspected lead pipe maps have be cross-referenced in a GIS sequential

sampling will help identify lead locations in a subset of known lead service lines. State DEQ is including these locations in their sentinel sampling site strategy.

26 Number of individuals evaluated (blood tests)

With state and federal assistance, the Genesee County Health Department worked through a back-log of testing and notifications. Plans are in place to maintain timely testing and notifications.

CDC/ATSDR has staffer available in Flint to facilitate GCHD updates to MDHHS and CDC Lansing regarding BLL testing and potential backlog. CDC Lansing and MDHHS maintaining metrics on EBLL.

State and County health officials have agreed to cooperate on a plan to conduct blood tests on approximately nine thousand children by early April.

See attached "MDHHS Director's Situation Report" that includes blood test by age group for identified zip codes).

27 Geographic density of households evaluated (blood tests)

This information is pending from CDC/ATSDR Epi team in Lansing

28 Percentage of total proposed individuals evaluated (blood tests)

Pending from MDHHS

29 Geographic density of households above threshold results

This information is pending from CDC/ATSDR Epi team in Lansing

30 Average time between evaluation result and distribution of protective actions

With federal assistance, GCHD is increasing the number of home visits made to high-lead level households.

CDC/ATSDR is tracking number of home visits and percentage of visits meeting target response time (48 hours or less for >150ppb, 7 days for 100-150ppb). Metric will resume on Tuesday when GCHD returns from holiday.

31 Opening of Family Assistance Centers (MARC – Multiagency Resource Center)

39 Significant activities since the last report

UCG Flint

Operations Section:
- Coordinated Behavioral Health inbief/outbrief with Teams 1 and 2
- Review of UCG and HHS mission, Safety 101

Planning Section:
- Facilitated planning process
- Published daily Situational Summary
- Maintained accountability of UCG and agency field staff.

Logistics Sections:
- Supported Incoming/Outgoing MHT's

Admin/Finance:
- Collaborated with IRCT Commander, Plans, and Ops on the revised UCG Staffing Plan.
- Resolved outbound traveler issues.
- Work demobilization process with IRCT Commander and Travel.
- Updated the Master Roster and cross-walked with RMS to ensure all rosters were captured.

Health and Medical Task Force

CDC

- CDC/ATSDR Field Team representatives, attended community meeting at local church where an estimated 50 community members were in attendance.
  - Community concerns included:
    - Understanding the purpose of orthophosphate treatment of the pipes related to helping to prevent lead exposure.
    - Challenges with water testing drop off (for MDEQ analysis).
    - Receiving prompt water testing and blood lead level results.
  - Community requests included:
    - Water bill reimbursement.
    - Replacement of all lead pipes.
    - Free door to door health screenings for all Flint residents.

- CDC Epi Team located in Lansing at the Michigan Dept. of Health and Human Services (MDHHS) continue to work to access and work with MDHHS data bases.
  - The team is in the process of tabulating counts of children less than 6 by wards and other census geographies.

Public Health Services Team (PHST)

Risk Communication Development:

- Assist with developing an engagement strategy for GCHD to facilitate outreach efforts to the community members and community partners.

Public Health/Nurse Care Management:

GCHD nurse case manager support

- Called patients' parents and faxed physicians' offices to follow-up with lead level results and offer case management.
- Documented phone calls in eClinicals, HHLPSS and follow-up forms
- Scheduled appointments for case management (nurse home visit and/or environmental investigation)
- Completed a home visit on a child with EBLL of 25.
- Completed a home visit on a difficult to contact family and initiated CM

Behavioral Health Response Plan:

- Delivered out brief to UCG
- Completed in brief/orientation for incoming Behavioral Health officers

PFA TTT focusing on schools and faith-based entities:

- Delivered out brief to UCG
- Completed in brief/orientation for incoming Behavioral Health officers

Behavioral Health Support for community-based health and human service providers:

- Delivered out brief to UCG
- Completed in brief/orientation for incoming Behavioral Health officers

Public and External Affairs Task Force

EPA PIO

- Public Information and Community Involvement
- Provided comments to HHS on the Genesee Intermediate School District flyers for families.
- Updated Flint Response website with lead assessment results and announced update via news releases and social media
- Scheduled interviews in response to media inquiries from fivethirtyeight.com, Mother Jones and WEYI-TV and worked with WEYI-TV on upcoming town hall meeting.
- Attended Faith in Action canvass event, provided update of EPA response activities and distributed fact sheets.
- Provided fact sheets to American Red Cross; 3,800 were included in today's water case distributions.
- Assisted Water Team with filter grab, sequential and rash complaint sampling

CDC PIO

- CDC/ATSDR Field team member:
  - UCG Assisted External Affairs with draft content developed by CDC.
  - Provided technical assistance to Genesee Intermediate School District via PEATF lead.
  - Informed state JIC about recurring questions about health effects of lead on adults.
  - Advised CDC and PEATF of Flint Journal article re: Legionella

Water Quality Task Force

CDC

- CDC/ATSDR Field team member conducted two household health consultations and one phone consultation.

EPA

- Coordinated sampling event with MDEQ
- Worked on streamlining sampling results data viewer

Water Sampling Team:

- Collected samples included:
  - One rash complaint.
  - Four sequential and eleven filter grab samples.
- Conducted sampling at two homes in conjunction with medical assessment by CDC.
- Prepared and compiled results from previous sampling to share with residents

Situation and Resources Team:

- Demobilized six staff

MDHHS Director's Situation Report
Flint Water Response
13 February 2016

State Emergency Operations Center (SEOC) Update

Data is for February 12, 2016 as of 5:00 pm

- Total homes visited:
  - 21,230 (round 3 total)
  - 1,173 (today)
- Water cases (liters calculated by multiplying # of cases x 12):
  - 147,648 liters or 12,304 cases (round 3 total)
  - 6,840 liters or 570 cases (today)
- Replacement cartridges:
  - 4,860 (round 3 total)
  - 340 (today)
- Faucet filters:
  - 7,475 (round 3 total)
  - 48 (today)

Upcoming Events

- **US Surgeon General Vivek Murthy Visit:** Feb 15-16 ***tentative events:** visit includes Flint healthcare provider meeting, home visits and canvassing, town hall with healthcare providers, community resiliency meeting, and community engagement forum
- **HHS Secretary Sylvia Burnell Visit:** tentatively Feb 18

GCHD Request Support

- Mark Miller is working with Mark Valacek to respond to request for assistance from GCHD
  - Support includes 3 clerical staff, case management, and ASQ training for 2 nurses
- Shawn Woods (an STD Program Disease Investigator) has been reassigned to assist GCHD in finding families for blood lead test follow-up and case management services
  - Will work with Toni LaRocco
  - First day will be Tuesday, February 16th on a full-time basis
- Work will continue into this coming week to address identified gaps in phlebotomist, bachelor level nurse to coordinate with U of M Flint, case management nurse, health educator, and various supplies

USDA Food and Nutrition Service (FNS) Letter

- On 2/10/16, the USDA sent Director Lyon a letter providing support to the WIC program and lead testing (attached)

Attached: USDA FNS Letter

United States Department of Agriculture

Food and Nutrition Service

Midwest Region

77 W. Jackson Blvd.
20th Floor
Chicago, IL
60604-3591

February 10, 2016

Nick Lyon, Director
Michigan Department of Health & Human Services
320 South Walnut Street-6th Floor
Lansing, Michigan 48913

Dear Mr. Lyon:

This is in response to your letter dated February 5, 2016, which requested that the Food and Nutrition Service (FNS) increase the access and availability of lead testing to all Special Supplemental Nutrition Program for Women, Infants and Children (WIC) participants impacted by the Flint water crisis. In your letter, you request that FNS permit WIC funds to be used for lead testing costs for all WIC participants until September 30, 2017. I am writing to you to communicate USDA's approval of that request.

On January 16, 2016, President Obama signed an emergency declaration for Flint, Michigan due to water contamination. The water crisis has resulted in elevated lead levels which can have detrimental health effects, particularly for children under age six. FNS is committed to assisting the State of Michigan in addressing the water crisis, particularly as it impacts WIC participants. WIC is intended to serve as an adjunct to health care during critical times of growth and development. To that end, we have always encouraged and supported collaboration between the WIC Program and other State-administered programs in meeting the health needs of participants.

FNS has been advised that currently, there is a lack of resources in Flint to provide immediate lead testing for the WIC population. The nutritional risk created by the water contamination warrants an immediate programmatic response. Providing access to testing for lead levels helps ensure immediate actions can begin to help mitigate the impact of elevated lead levels for WIC's vulnerable population. Due to the extraordinary nature of this crisis, FNS will temporarily allow the costs of lead screening for WIC participants to be charged to the WIC Program through September 30, 2017, as requested. Further, FNS requires that any current cost sharing arrangements for lead testing of WIC participants continue so that costs are not unnecessarily shifted to the WIC Program. It is our understanding that while the costs of testing for some children in Flint under the age of five is already covered by Medicaid, the costs of testing approximately 1,600 infants and children under age five who are not covered by Medicaid and 2,250 women participants may be charged to WIC. Please confirm this understanding and provide this office with the estimated costs of providing lead testing to all WIC participants. We will review actual costs through our regular monitoring and oversight of the State and local agency.

Since September 2015, USDA has supported the residents of Flint and the State of Michigan in responding to this crisis in a variety of ways across our nutrition assistance

USDA IS AN EQUAL OPPORTUNITY PROVIDER AND EMPLOYER

programs, including approving additional funding for fresh fruits and vegetables that deliver nutrients important in mitigating lead absorption and utilizing existing program flexibilities that allow WIC participants to use ready-to-feed infant formula, which does not need to be mixed with water. We look forward to continued collaboration in improving the health and nutrition of residents in Flint and throughout Michigan.

Sincerely,

Tim English

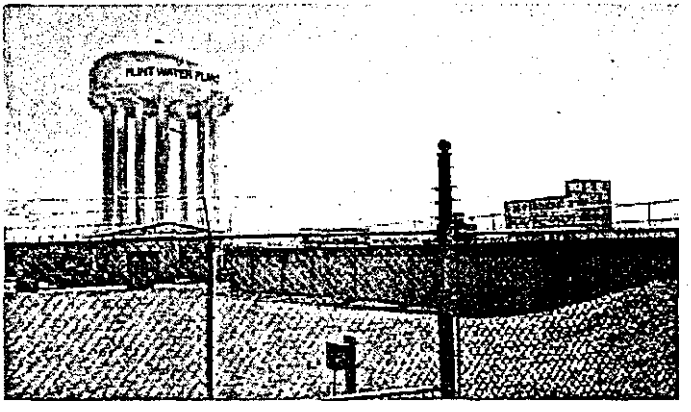
1. Incident Name: 2015-10-01 City of Flint-Water Contamination/Shortage	2. Operational Period to be covered by IAP (Date / Time): From: 02/02/2016 08:00:00 To: 02/09/2016 08:00:00	IAP Cover Sheet

3. Approved by:

FOSC:	David Samaniego
SOSC:	Jackie Hampton
RPIC:	
State SEOC Deputy Director	Capt. Chris Kelenske

Incident Action Plan



4. Prepared by: Zachary Baker Date / Time: 02/01/2016 16:49:11

Incident

1. Incident name: 2015-10-01 City of Flint-Water Contamination/Shortage
2. Operational Period from: 02/02/2016 08:00:00to: 02/09/2016 08:00:00

3. Objective(s)

11. Ensure accurate tracking and accounting of all donations.
5. Continue to maintain adequate staffing to support operational requirements.
10. Collaborate with local and volunteer agency partners to solidify the Flint Water Operations Plan.
9. Enhance situational awareness and common operating picture of all activities.
8. Maintain coordination between partner agencies and organizations to include FEMA IMAT, FWICC, and the US Department of Health and Human Services Unified Coordination Group (UGC).
3. Improve and maintain the public information strategy and process.
6. Develop an overview of possible assistance programs.
4. Develop a long term public health and services plan.
7. Gather, analyze, and disseminate GIS data to develop products for future planning.
1. Ensure all households within impacted community have required resources and are included in DEQ water sampling plan.
2. Ensure accurate tracking and accounting of all commodities.

4. Operational Period Command Emphasis:

1. Provide regular local and technical briefings.
2. Identify life safety issues.
3. Identify priorities.
4. Provide policy direction by observance of SEOC SOPs.
5. Seek technical guidance from relevant federal agencies.
6. Provide regular legislative/congressional briefings.

General Situational Awareness:

By early May 2014, the City of Flint switched from the Detroit Water and Sewerage Department (DWSD) to water from its own water treatment plant drawn from the Flint River as its primary water source. The different characteristics of the water resulted in leaching of lead from lead pipes in the city's water infrastructure into the water supply. Increased exposure to lead can cause immediate negative health effects. However, the main health concerns are long-term effects in children such as developmental and cognitive delays, and behavioral disorders. Increased water lead levels and elevated blood lead levels in young children were observed in the City of Flint and confirmed by the State Chief Medical Officer.

On October 1, 2015 the Genesee County Health Department declared a Public Health Emergency due to the elevated blood lead levels in citizens. In response to this the City of Flint declared a local State of Emergency on December 15, 2015 and activated their Emergency Operations Center.

To mitigate the effects of the new source of water on the infrastructure in the City of Flint, the city switched back to DWSD water on October 16, 2015. Funding to reconnect to DWSD was provided from the City of Flint, the Charles Stewart Mott Foundation, and the State of Michigan. Water is now treated with a supplemental phosphate addition to rebuild the protective layer in the distribution system and reduce the leaching of lead into the water supply.

For the mitigation of negative health effects, over 24,000 water filters and replacement cartridges have been distributed to residents in the City of Flint. Approximately 13,000 water filters, water pitchers and replacement cartridges were distributed by the Michigan Department of Health and Human Services (MDHHS) in the timeframe of October 1 to December 31, 2015 alone.

MDHHS has increased surveillance of blood lead levels in children and is addressing water issues in environmental investigations to identify lead sources in the environment of affected children and provide health education and information to residents, health care providers, and daycare/educational institutions.

Local nonprofit organizations have provided potable water to Flint residents. MSP/EMHSD GIS staff is supporting county and local GIS staff by consolidating data from local sources into comprehensive databases and providing mapping services to support incident analysis and forecasting. Data and maps regarding the location of water pipes, affected schools, filter distribution locations, water monitoring results, and predictive blood lead levels for affected areas will be made available with demographics.

Before December 16, 2015, $9.35 million was provided by the State of Michigan and $6 million by local agencies and nonprofit partners to manage the effects of the corroded pipes. While the source water has been switched back to DWSD, water in the City of Flint is still not safe to drink, unless specifically filtered.

Incident Action Plan #8

Flint Water Crisis, MI

Unified Coordination Group

(ASPR, CDC, EPA, FEMA)

Operational Period

Feb. 10, 2016 – Feb 13, 2016

0800 – 0800

INCIDENT OBJECTIVES (ICS 202)

1. Incident Name: Flint Water Crisis	2. Operational Period: Date From: 2/10/16 Time From: 0800	Date To: 2/13/16 Time To: 0800

3. Objective(s):

WQTF:

1a. Conduct emergency water testing to a) determine chlorine and bacterial levels in the water supply; and b) study efficacy of water filters. (WQTF)

2. Coordinate with local and State partners to evaluate and if needed, respond to higher levels of concern for lead and other contaminants. (WQTF)

3a. Develop and implement environmental sampling plans to a) evaluate water quality parameters; b) conduct regulatory sampling in accordance with the LCR/SDWA; c) conduct sequential sampling to better understand lead leachability in the water distribution system; and d) establish a pipe-rig to assess water quality for transition to the KWA source waters. (WQTF)

4. Ensure compliance with EPA enforcement orders pursuant to this incident. (WQTF)

PEATF:

5a. Coordinate the development of targeted public health messaging and communication products for lead exposure in collaboration with the Genesee County Health Department, the Michigan Department of Health and Human Services, US Environmental Protection Agency and other partners. (PEATF)

12a. Coordinate the intergovernmental, public and external affairs effort to ensure awareness and visibility of communications activities regarding Flint water crisis. (PEATF)

16a. Insure a coordinated approach to public messaging and outreach with state partners. (PEATF)

HSTF:

20. Obtain CMS decision memo on state's request for an 1115 waiver for lead abatement and other human services requests. (HSTF)

25. Schedule and facilitate delivery of a webinar on the CMS Accountable Health Communities (AHC) model. (HSTF)

Continued on next page

Water Quality Task Force (WQTF)
Human Services Task Force (HSTF)
Public & External Affairs (PEATF)
Health & Medical Task Force (HMTF)
Nutrition and Education Task Force (NETF)

4. Operational Period Command Emphasis:

Coordinate and support local and State government to provide Federal support to meet the needs of the Flint Community during the Water Crisis.

General Situational Awareness: Weather- (on page 2)

5. Site Safety Plan Required? No ☐ Yes ■

INCIDENT OBJECTIVES (ICS 202)

1. Incident Name: Flint Water Crisis	2. Operational Period: Date From: 2/10/16 Time From: 0800	Date To: 2/13/16 Time To: 0800

3. Objective(s): Continued

NETF:

11. Assess progress towards enhancing healthy food availability for the community. (NETF)

HMTF:

21. Support Genesee County Health Department to develop a comprehensive lead screening process. Identify appropriate lead educational materials and develop processes to support community messaging by Genesee County Health Department. (HMTF)
22. Provide nurse case work management to Genesee County Health Department. (HMTF)
23. Optimize the capacity of Genesee County Health Department staff to successfully respond to telephone calls related to lead.
24. Identify optimal mechanisms to track and share lead-related data with MDHHS and Genesee County Health Department stakeholders. (HMTF)

Water Quality Task Force (WQTF)
Human Services Task Force (HSTF)
Public & External Affairs (PEATF)
Health & Medical Task Force (HMTF)
Nutrition and Education Task Force (NETF)

4. Operational Period Command Emphasis:

Coordinate and support local and State government to provide federal support to meet the needs of the Flint Community during the Water Crisis.

General Situational Awareness – Weather:

Wednesday: A chance of snow showers. Cloudy, with a high near 21. Northwest wind 13 to 17 mph, with gusts as high as 28 mph. Chance of precipitation is 40%.
Wednesday Night: A chance of snow showers. Mostly cloudy, with a low around 8. Chance of precipitation is 40%.
Thursday: A chance of snow showers before 8am. Partly sunny, with a high near 18. Chance of precipitation is 30%.
Thursday Night: Partly cloudy, with a low around 10.
Friday: Partly sunny, with a high near 21.
Friday Night: Mostly cloudy, with a low around 6.

5. Site Safety Plan Required? No ☐ Yes ■

Flushing Road Urgent Care	1301 Flushing Rd, Flint, MI, 48504		5 min			

7. Medical Emergency Procedures

1. Provide first aid/buddy aid, BLS as appropriate 2. AED in lobby in alcove next to vending. 3. Access EMS system by 911 call. 4 Call IRCT SOFR to report 202-697-1065 5. FEMA personnel follow agency procedure for reporting

8. Reporting Procedures

NOTE: Document on OAP health form (no EMR this mission)
1. SAFETY OFFICER: Complete accident / injury investigation, implement preventative actions and complete OSHA Form 301 in the E COMP system. Notify IRCT SOFR immediately if OSHA reportable. The IRCT SOFR will notify EMG for HHS and OSHA reporting purposes of major incidents.
2. Administrative Officer: Complete appropriate compensation forms in the E COMP system.
3. USPHS: Access TriCare at www.tricare.mil to report event and follow their instructions.

9. Team/Event Medical Director	10. Team/IRCT Safety Officer
Dr. Tim Davis	BILL KERSHNER

SAFETY MESSAGE/PLAN (ICS 208)

ASPR
ASSISTANT SECRETARY FOR PREPAREDNESS AND RESPONSE

1. Incident Name/Location: Flint Water Crisis	2. Operational Period: Date From: 2/10/16 Date To: 2/13/16 Time From: 0800 Time To: 0800

3. Location: UCG Flint/ DTMB Building 125 East Union St, Flint MI

4. Site Emergency Action Plan (Alarm and Evacuation Signal, Route and Rally Point, Accountability and Critical Material/Process Actions): UCG operating from Administration Building; if fire alarm activates exit building through fire tower stairways located in the elevator lobby and near cargo elevator, UCG Plans will have copy of current personnel assigned and be responsible for accountability, rally point will be across from main lobby entrance in front of parking garage. Do not return to the building until given the all clear by Command.

5. Hazardous Areas/Work Prohibitions (Prohibited Areas or Activities): Avoid construction area in the main lobby. Rain and snow are expected and appropriate cold weather and rain gear should be in use. Driving conditions change with the weather. Temperature fluctuations result in wet pavement becoming ice and dangerous driving and walking conditions. Seat belt use is mandatory in rental cars in addition to all government vehicles.

6. Sanitation (Toilets, Hand Washing, Shower, Waste Locations or Protocol):
   - Facility has indoor restrooms to support up to 100 people (normal daily use).
   - Use refuse containers deployed about work area.
   - Please separate recyclables and deposit in appropriate containers (marked).
   - Regular hand washing is recommended. Wash hand after restroom use and prior to eating.
   - Canned and bottled water is available in the UCG.

7. Security (Control Point and Site Security Protocol): All personnel will wear issued identification and check with security in lobby when entering building if they have no building access card. Do not leave valuables in your car or your hotel room.

Do not travel alone. Use the buddy system.

7. Safety Officer Bill Kershner Contact:

SAFETY MESSAGE/PLAN (ICS 208)

1. Incident Name: Flint Water Crisis	2. Operational Period: Date From: 2/10/16 Date To: 02/13/16 Time From: 0800 Time To: 0800

3. **Location:** Genesee County Health Department, 630 South Saginaw St. , Flint Michigan, 48502 PHS Officers

4. **Site Emergency Action Plan:** (Alarm and Evacuation Signal, Route and Rally Point, Accountability and Critical Material/Process Actions): Evacuation routes posted in the main hall adjacent to where personnel are working. Capt. Farabaugh, Cdr William Ruiz-Colon, and Cdr. Carma Ayala will brief crews on their evacuation routes. Evacuation point is corner of 3rd and Saginaw for accountability. Follow instructions of law enforcement when given. Building has automatic sprinklers, fire and smoke detectors. Exits are clearly marked and shown on evacuation maps located on each floor. Report illness/injury as soon as possible to Operations and Safety. All injuries/illness must be recorded in e-comp with Admin/Finance and Safety Officer.

5. **Hazardous Areas/Work Prohibitions (Prohibited Areas or Activities):** Use the buddy system when it is necessary to go out. Do not travel alone. Temperatures are ranging from the middle 40's to the lower 20's. Use cold weather gear and rain gear as needed. This results in snow and ice melting in the warmer temperatures and freezing again when temperatures drop and creating hazardous driving conditions and slippery footing. MAINTAIN SITUATIONAL AWARENESS. If assigned to do sampling in private homes be aware of any slip, trip, and fall hazards and pets in the home that might be hazardous.

6. **Sanitation (Toilets, Hand Washing, Shower, Waste Locations or Protocol):** Wash hands regularly and before meals and after restroom use. Dispose of waste in appropriate containers.

7. **Security (Control Point and Site Security Protocol):** Security Officers are in the building on the first floor. Travel in pairs utilizing the buddy system or larger groups. Do not travel alone. If you see any behavior you believe to be odd report it to Command. If you see something say something.

7. Safety Officer: Bill Kershner	Contact:

8. **Prepared by:** Name: Bill Kershner Position/Title: Safety Officer Signature:
Date/Time: 2/9/16

UNIFIED COMMAND GROUP – FLINT, MI
SAFETY MESSAGE 2-10-16

Travel:

Adjust your driving speed and distance between vehicles with wet/slippery driving conditions. Freezing weather and snow will produce icy conditions on roadways and walking surfaces. Wear appropriate cold weather gear. Limit driving and walking in these conditions as much as is realistic.

Report vehicle accidents through the chain of command as soon as possible. Supervisory personnel will investigate all accidents as per agency procedure.

If you are not experienced driving in snow and icy conditions ask for some help. If you are uncomfortable ask and a ride can be provided for you.

Illness and Injury:

Report all illness and injuries as soon as possible to your supervisors and to Safety and the Operations Section. Maintain situational awareness of your surroundings at all times.

Personal Safety:

Travel utilizing the buddy system of at least two persons more is recommended.

Due to the ongoing water crisis, do not drink City of Flint water.

*Increased negative media attention	If ESF 15 personnel believe that there is a media report warranting high attention due to negative press	Narrative Email	Email to: Irct1.plans@hhs.gov and Irct1.ops@hhs.gov	As needed

UCG Flint Situational Summary
2/7/16
As of 1700

Flint, MI Water Contamination Information Collection Plan Report

EEI # Information Required

20 Water infrastructure testing locations

Chlorine testing – EPA is sampling at various locations throughout the system. In addition, EPA is in the process of setting up a series of standing long-term sampling locations to better evaluate chlorine throughout the system.

Lead testing – EPA is conducting sequential sampling at up to 60 locations where lead infrastructure is known to exist.

The Michigan Department of Environmental Quality is working to finalize a plan which will monitor corrosion and examine plumbing at 400 sentinel security sites across all wards of the city. These sites include houses where overly-high lead levels were previously recorded as well as locations thought to be near lead infrastructure.

21 Contaminants and quantity per testing location

Chlorine – One sample per location per day.
Lead – A series of sequential samples at up to 60 locations, to be conducted monthly until the system has recovered.

22 Water infrastructure assessment implementation timeline

Ongoing – to continue until the system is determined to be recovered

23 Change/Delay of water lead testing: Include causes for delay, anticipated effects of delay

Challenges: Obtaining contact information to make appointments for testing; staffing to make appointments; and securing permission to test in schools;

24 Determination of pipe damage

Sampling, as described above, will indicate the status of corrosion within the system.

25 Determination of where lead is in the pipes

Known lead pipes have been mapped via GIS.
Sequential sampling will help identify lead locations in a subset of known lead service lines.
State DEQ is including these locations in their sentinel sampling site strategy.

26 Number of individuals evaluated (blood tests)

With state and federal assistance, the Genesee County Health Department

continues to work through a back-log of testing and notifications. These test results will be uploaded throughout the weekend.

State and County health officials have agreed to cooperate on a plan to conduct blood tests on approximately nine thousand children by early April.

27 Geographic density of households evaluated (blood tests)
This information is still under analysis.

28 Percentage of total expected individuals evaluated (blood tests)
With state and federal assistance, the Genesee County Health Department continues to work through a back-log of testing and notifications. We hope to achieve better visibility next week.

29 Geographic density of households above threshold results
This information is still under analysis.

30 Average time between evaluation result and distribution of protective actions
With federal assistance, GCHD is increasing the number of home visits made to high-lead level households.

31 Opening of Family Assistance Centers (MARC – Multiagency Resource Center)
State of Michigan working this task. None established

Working under own authorities.

39 Significant activities since the last report

UCG Flint

- Operations Section: Participated in MDHHS Requests Matrix review meetings with Task Force Leads and conducted site/safety visit to Burton Health Center.
- Planning Section: Maintained accountability of UCG and agency field staff; maintained roster of UCG and field staff; and developed daily Situational Summary.
- Logistics Sections: supporting UCG with IT issues; monitoring cache burn rates; continue to take photos of new arriving staff for State of Michigan ID badges; updating resource tracker; maintaining inventory of rental vehicles and rental agreements.
- Admin/Finance: Continued to coordinate with Travel (David Gaines) to ensure inbound and outbound personnel have adequate travel. Working with Travel to demobilize several personnel. Collaborated with OEM RAMS to identify process for responder reload/augmentation and documented the steps. Updated and distributed Admin Briefing to appropriate personnel. Updated the NDMS hours worked report.

Health and Medical Task Force

<u>CDC</u>

- Developing flow chart of actions taken following a blood lead test performed. MDHHS has agreed to provide numbers at each step by the middle of the week.

- Ongoing field activities supporting EPA sequential sampling and Strike Teams by providing public health education and outreach.
- HHS PHST Epi team worked on the datasets provided by MDHHS.
- HHS PHST began drafting tables and charts to assist in answering questions regarding the data.
- Coordinating visit to Flint by NCEH Director and Deputy Monday (2/8).
- Working with Atlanta to develop enhanced task tracking system parallel to the MDHHS Request Matrix.
- New CDC/ATSDR water quality SME onsite to work as technical support to both the Health and Medical Taskforce and the Water Quality Taskforce.

Public Health Services Team (PHST)

- Risk communication lead continues ongoing contact with CDC, EPA, and GCHD to vet and edit many educational materials to be used on with outreach efforts (restaurants, health care providers, vulnerable populations, and Legionella).
- Developed Excel spreadsheet for staff use to track reason for calls to the GCHD information line (ongoing activity).
- Public Health/Nurse Case Management:
  - Surveillance strategy distributed between CDC/EPA/GCHD/state to follow up lead results.
- Redundancies with lead results follow-up processes and reporting being addressed by team Epi lead.
- Team Spanish speakers serving as interpreters at three lead screening events today.
- Backlog of Blood Lead Level (BLL) tests are being entered by Public Health Support Team (PHST) team at Genesee County Health Dept. (GCHD), projected completion Sunday, 2/7. Results will directly transmit to Michigan Dept. of Health and Human Services (MDHHS).
- Researching PFS training for Hispanic populations. Customizing PFA training for specific needs/populations.

Public & External Affairs Task Force

- Supported 3 Speakers Bureau (Community) Outreach Events
  - Flint United Community Meeting:
  - Latino Coalition Community Canvass/Legal Workshop
  - Rep Dan Kildee Town Hall/Round Table
- Printed and distributed drinking water fact sheet (version updated on 2/5) in both English and Spanish
- Attended community meeting hosted by Faith In Action; Dr. Reynolds gave presentation regarding health effects of lead, organizers led discussion of needed actions
- Submitted request to CDC to develop coloring pages and book re: lead in

water; state agrees this would be a useful product for CDC to develop
- Planned COCA call for week of February 15 – 19 regarding health effects of lead; Dr. Eden Wells is interested in presenting on this call
- Requested revision of screening recommendations document to read "children under 6 years old"
- Discussed with state need for messages regarding legionella and rash; while both are still being investigated, community members want to know more

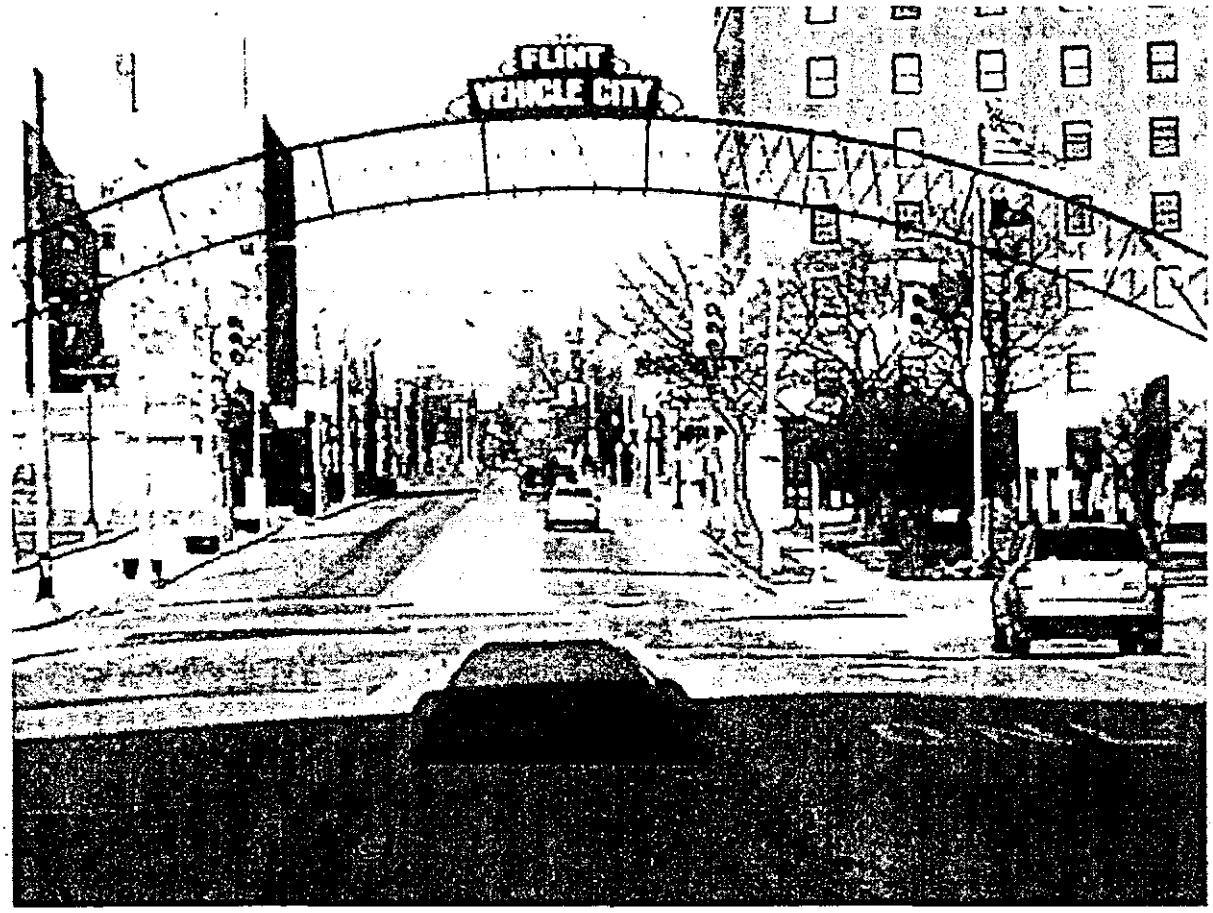
CDC
- Provided information regarding lead in pets developed by CDC NCEZID to state offices for appropriate action.
- Coordinated with EPA regarding revisions to drinking water fact sheet.
- Provided input to federal response Outreach plan being developed by UCG.
- Provided public health expertise and answered community member questions at Town Hall meeting, in tandem with EPA.

EPA
- Performed Hispanic outreach and canvassing coordination.
- Updated and printed fact sheet for distribution to Flint residents.
- Developed messaging for flyer explaining orthophosphates.
- Engaged with residents during sampling and provided EPA fact sheets.
- Attended Flint Neighborhoods United meeting and distributed EPA fact sheets.
- Attended round table and press conference with Congressional delegation.
- Drafted language for ORD Water Assessment Team to review regarding chlorine sampling efforts at Flint Community Schools buildings.

Water Quality Task Force
- Met with MDEQ to discuss sample team coordination, weekly meetings, and data transfer.
- Reached consensus with CDC and MDHHS on copper screening level (350 ppb).

Water Sampling Team
- Performed lead sequential sampling investigations at 1 homes, collecting a total of 11 bottles.
- Performed filter grab sampling investigations at 9 homes, collecting a total of 27 bottles.

High Lead Homes Strike Team
- Verified viability of 7 homes; only 6 were valid addresses.
- Performed filter grab sampling at 2 homes, collecting a total of 6 bottles. Used multi-parameter meter.



Incident Action Plan #9

Flint Water Crisis, MI

Unified Coordination Group

(ASPR, CDC, EPA, FEMA)

Operational Period

Feb. 13, 2016 – Feb 18, 2016

0800 – 0800

INCIDENT OBJECTIVES (ICS 202)

1. Incident Name: Flint Water Crisis	2. Operational Period: Date From: 2/13/16 Time From: 0800	Date To: 2/18/16 Time To: 0800

3. Objective(s):

WQTF:

1a. Conduct emergency water testing to a) determine chlorine and bacterial levels in the water supply; and b) study efficacy of water filters. (WQTF)

2. Coordinate with local and State partners to evaluate and if needed, respond to higher levels of concern for lead and other contaminants. (WQTF)

3a. Develop and implement environmental sampling plans to a) evaluate water quality parameters; b) conduct regulatory sampling in accordance with the LCR/SDWA; c) conduct sequential sampling to better understand lead leachability in the water distribution system; and d) establish a pipe-rig to assess water quality for transition to the KWA source waters. (WQTF)

4. Ensure compliance with EPA enforcement orders pursuant to this incident. (WQTF)

PEATF:

5a. Coordinate the development of targeted public health messaging and communication products for lead exposure in collaboration with the Genesee County Health Department, the Michigan Department of Health and Human Services, US Environmental Protection Agency and other partners. (PEATF)

12a. Coordinate the intergovernmental, public and external affairs effort to ensure awareness and visibility of communications activities regarding Flint water crisis. (PEATF)

16a. Ensure a coordinated approach to public messaging and outreach with state partners. (PEATF)

NETF:

11. Assess progress towards enhancing healthy food availability for the community. (NETF)

HMTF:

22. Provide nurse case management to Genesee County Health Department. (HMTF)

24. Identify optimal mechanisms to track and share lead-related data with MDHHS and Genesee County Health Department stakeholders. (HMTF)

26. Build community capacity and capabilities through Psychological First Aid (PFA) training

27. Deliver behavioral health support (stress management) for community-based responders

28. Develop a community-driven behavioral health response plan with immediate, intermediate, and long-term objectives

29. Develop behavioral health surveillance plan

Water Quality Task Force (WQTF) — **Health & Medical Task Force (HMTF)**
Nutrition and Education Task Force (NETF) — **Public & External Affairs (PEATF)**

4. Operational Period Command Emphasis:

Coordinate and support local and State government to provide Federal support to meet the needs of the Flint Community during the Water Crisis.

General Situational Awareness: Weather-

Saturday: A chance of snow showers. Mostly cloudy, with a high near 11. Wind chill values as low as -10. North wind 5 to 11 mph becoming west northwest in the afternoon. Chance of precipitation is 30%.
Saturday Night: Mostly cloudy, with a low around -5. Northeast wind 5 to 7 mph becoming calm in the evening.
Sunday: Mostly sunny, with a high near 17. South wind 5 to 8 mph.
Sunday Night: A chance of snow showers. Mostly cloudy, with a low around 11. Chance of precipitation is 40%.
Monday: A chance of snow showers. Cloudy, with a high near 32. Chance of precipitation is 30%.
Monday Night: A chance of snow showers. Mostly cloudy, with a low around 22.
Tuesday: A chance of snow showers. Mostly cloudy, with a high near 34.
Tuesday Night: A chance of snow showers. Mostly cloudy, with a low around 19.
Wednesday: Partly sunny, with a high near 27.
Wednesday Night: Partly cloudy, with a low around 12.
Thursday: Partly sunny, with a high near 33.

1. Incident Name: Flint Water Crisis	2. Operational Period: Date From: 2/13/16 Time From: 0800	Date To: 2/18/16 Time To: 0800

2. Administrative Officer: Complete appropriate compensation forms in the E COMP system.
3. USPHS: Access TriCare at www.tricare.mil to report event and follow their instructions.

9. Team/Event Medical Director	10. Team/IRCT Safety Officer
Dr. Tim Davis	BILL KERSHNER

SAFETY MESSAGE/PLAN (ICS 208)

ASPR
ASSISTANT SECRETARY FOR PREPAREDNESS AND RESPONSE

1. Incident Name: Flint Water Crisis,	2. Operational Period: Date From: 02/13/16 Date To: 02/18/16 Time From: 0800 Time To:2000

3. **Location:** Genesee County Burton Health Clinic, 3373 Saginaw Street, Flint, MI 48503

4. **Site Emergency Action Plan:** (Alarm and Evacuation Signal, Route and Rally Point, Accountability and Critical Material/Process Actions): Evacuation routes posted on back of room door. Know your closest egress and have a second in case your route is unavailable. Building has smoke detectors and fire detection automated sprinkler system. Follow the mapped routes for evacuation and have predetermined rally point for accountability for Operations. AED is located in Laboratory on the wall next to the first aid kit.

5. **Hazardous Areas/Work Prohibitions:** (Prohibited Areas or Activities): Use the buddy system when it is necessary to go out. Do not travel alone. Temperatures are ranging from the middle 40's to the 20's and below . This results in snow and ice melting in the warmer temperatures and freezing again when temperatures drop and creating hazardous driving conditions and slippery footing. MAINTAIN SITUATIONAL AWARENESS.

6. **Sanitation:** (Toilets, Hand Washing, Shower, Waste Locations or Protocol): Wash hands regularly and before meals and after restroom use. Dispose of waste in appropriate containers. If you are billeted in a facility on Flint water DO NOT DRINK FLINT WATER. Our instructions are showering is acceptable. Ingestion from drinking is not.

7. **Security:** (Control Point and Site Security Protocol): Hotel has key card entry to rooms and on outside entry doors in the evening. Don't leave your valuables in your room. Use additional dead bolt provided to lock your door. Don not allow entry persons unknown to you.

7. Safety Officer: Bill Kershner	Contact:

8. **Prepared by:** Name: Bill Kershner Position/Title: Safety Officer Signature:
Date/Time: 02-06-16 1445

SAFETY MESSAGE/PLAN (ICS 208)

ASPR
ASSISTANT SECRETARY FOR PREPAREDNESS AND RESPONSE

1. Incident Name/Location: Flint Water Crisis	2. Operational Period: Date From: 2/13/16 Date To: 2/18/16 Time From: 0800 Time To: 0800

3. Location: UCG Flint/ DTMB Building 125 East Union St, Flint MI

4. Site Emergency Action Plan (Alarm and Evacuation Signal, Route and Rally Point, Accountability and Critical Material/Process Actions): UCG operating from Administration Building; if fire alarm activates exit building through fire tower stairways located in the elevator lobby and near cargo elevator, UCG Plans will have copy of current personnel assigned and be responsible for accountability, rally point will be across from main lobby entrance in front of parking garage. Do not return to the building until given the all clear by Command.

5. Hazardous Areas/Work Prohibitions (Prohibited Areas or Activities): Avoid construction area in the main lobby. Rain and snow are expected and appropriate cold weather and rain gear should be in use. Driving conditions change with the weather. Temperature fluctuations result in wet pavement becoming ice and dangerous driving and walking conditions. Seat belt use is mandatory in rental cars in addition to all government vehicles.

6. Sanitation (Toilets, Hand Washing, Shower, Waste Locations or Protocol):
   - Facility has indoor restrooms to support up to 100 people (normal daily use).
   - Use refuse containers deployed about work area.
   - Please separate recyclables and deposit in appropriate containers (marked).
   - Regular hand washing is recommended. Wash hand after restroom use and prior to eating.
   - Canned and bottled water is available in the UCG.

7. Security (Control Point and Site Security Protocol): All personnel will wear issued identification and check with security in lobby when entering building if they have no building access card. Do not leave valuables in your car or your hotel room.

Do not travel alone. Use the buddy system.

7. Safety Officer Bill Kershner Contact:	2/12/16 1445

SAFETY MESSAGE/PLAN (ICS 208)

ASPR
ASSISTANT SECRETARY FOR PREPAREDNESS AND RESPONSE

1. Incident Name: Flint Water Crisis	2. Operational Period: Date From: 2/13/16 Date To: 02/18/16 Time From: 0800 Time To: 0800

3. **Location:** Genesee Health Systems, 420 West 5th Avenue. , Flint Michigan, 48502 PHS Officers

4. **Site Emergency Action Plan:** (Alarm and Evacuation Signal, Route and Rally Point, Accountability and Critical Material/Process Actions): Evacuation routes posted in the main hall adjacent to where personnel are working. Capt. Farabaugh, Cdr William Ruiz-Colon, and Cdr. Carma Ayala will brief crews on their evacuation routes. Evacuation point is corner of 3rd and Saginaw for accountability. Follow instructions of law enforcement when given. Building has automatic sprinklers, fire and smoke detectors. Exits are clearly marked and shown on evacuation maps located on each floor. Report illness/injury as soon as possible to Operations and Safety. All injuries/illness must be recorded in e-comp with Admin/Finance and Safety Officer.

5. **Hazardous Areas/Work Prohibitions (Prohibited Areas or Activities):** Use the buddy system when it is necessary to go out. Do not travel alone. Temperatures are ranging from the middle 40's to the lower 20's. Use cold weather gear and rain gear as needed. This results in snow and ice melting in the warmer temperatures and freezing again when temperatures drop and creating hazardous driving conditions and slippery footing. MAINTAIN SITUATIONAL AWARENESS. If assigned to do sampling in private homes be aware of any slip, trip, and fall hazards and pets in the home that might be hazardous.

6. **Sanitation (Toilets, Hand Washing, Shower, Waste Locations or Protocol):** Wash hands regularly and before meals and after restroom use. Dispose of waste in appropriate containers.

7. **Security (Control Point and Site Security Protocol):** Security Officers are in the building on the first floor. Travel in pairs utilizing the buddy system or larger groups. Do not travel alone. If you see any behavior you believe to be odd report it to Command. If you see something say something.

7. Safety Officer: Bill Kershner	Contact:
8. Prepared by: Name: Bill Kershner Position/Title: Safety Officer Date/Time: 2/9/16	Signature:

UNIFIED COMMAND GROUP – FLINT, MI
SAFETY MESSAGE 2-13-16

Travel:

Adjust your driving speed and distance between vehicles with wet/slippery driving conditions. Freezing weather and snow will produce icy conditions on roadways and walking surfaces. Wear appropriate cold weather gear. Limit driving and walking in these conditions as much as is realistic.

Report vehicle accidents through the chain of command as soon as possible. Supervisory personnel will investigate all accidents as per agency procedure.

If you are not experienced driving in snow and icy conditions ask for some help. If you are uncomfortable ask and a ride can be provided for you.

Illness and Injury:

Report all illness and injuries as soon as possible to your supervisors and to Safety and the Operations Section. Maintain situational awareness of your surroundings at all times.

Personal Safety:

Travel utilizing the buddy system of at least two persons more is recommended.

Due to the ongoing water crisis, do not drink City of Flint water.

Fraud:

If you receive calls requesting personal information, credit card numbers, never do that over the phone insist on face to face conversations to verify it is a legitimate representative from where ever you were told they were from. Report any attempts, you think, were attempts at fraud.

Unified Coordination Group SEOC Liaison	Mark Russo		02/07/2016 12:03:56	2/4/16-(State Health Review)-MDHHS is looking to find if there is an "app" for global notifications. CDC JIC is evaluating this to determine if there is anything besides social media opportunities. 2/3/16-(State Health Review)- Funding issue-MDHHS uses HAN and another system but wants to expand outreach to individual providers; MDHHS needs to determine if formal request is to be submitted 2/1/16-(CDC/ATSDR)-MDHHS asks for technical assistance on HAN outreach to a broader provider network. MDHHS to advise next steps.
Unified Coordination Group SEOC Liaison	Mark Russo		02/07/2016 12:03:28	o Technical assistance to develop a methodology to assess past lead exposure.
Unified Coordination Group SEOC Liaison	Mark Russo		02/07/2016 12:02:24	2/5/16-(CDC)-Interagency communications continue, working on long term lead strategy 2/3/16-(State Health Review)-MDHHS Toxicology/Environmental Health programs have a database to track individuals. MDHHS is looking for funding and/or an outside source of software. MDHHS unsure if inhouse IT capacity is there to meet the needs.
Unified Coordination Group SEOC Liaison	Mark Russo		02/07/2016 12:02:02	Technical assistance in the development of a long term lead surveillance strategy which includes a diverse set of data sources such as medical information found on birth records, data from the birth defects registry and other data sources that may be useful to public health researchers.
Unified Coordination Group SEOC Liaison	Mark Russo		02/07/2016 10:26:52	2/6/16-(WQTF/PEATF/State Review)-Moved to monitoring; remain in progress because needs may arise 2/5/16-(CDC)-experts identified; mission complete- validate with State Health LNO 2/3/16-(State Health Review)-believed to be complete; need MDHHS concurrence or clarification for more detail 2/1/16-(CDC/ATSDR)- MDHHS requests assistance with CDC spokepersons. J. Elsner to C. Sheel topics for talking points/fact sheets. Completed final draft of the CDC Flint Blood Lead Screening Statement which is currently under review by OASH and OS/ASPR. Coordination between ATSDR, EPA, and PHAST group to cross reference houses with high water lead that have been visited and number of times re-sampled.
Unified Coordination Group SEOC Liaison	Mark Russo		02/07/2016 10:25:49	Infographics in clear format to demonstrate water testing results etc.
Unified Coordination Group SEOC Liaison	Mark Russo		02/07/2016 10:20:48	2/6/16-WQTF/PEATF/State Review)-State needs to clarify what is needed; possibly closed item 2/5/16-(CDC)-CDC believes can go green; need to verify with state 2/3/16-(State Health Review)- PSAs developed; ESF# 15 and MI State PIO 2/1/16-(CDC)-Eden Wells providing weekly clinician webinars
Unified Coordination Group SEOC Liaison	Mark Russo		02/07/2016 10:19:59	Provide training for staff, providers, and the community via webinar on water filters, cartridge replacement, water pitchers and blood lead level.
Unified Coordination Group SEOC Liaison	Mark Russo		02/07/2016 10:05:51	2/6/16-HNTF/State Review)-concur to be completed; may request and revisit for assistance in future if necessary

				2/5/16-(CDC)-CDC/ATSDR believes to be complete; need state concurrance 2/1/16-(CDC/ATSDR)-Legoniella contact is ongoing. MDHHS requests assistance with CDC spokepersons. J. Eisner to C. Sheel topics for talking points/fact sheets. Convened call with CDC/ATSDR/MDHHS' Communications & Community Engagement team to clarify State issues where support may be needed, and to link SME's and encourage ongoing dialogue across organizations.
Unified Coordination Group SEOC Liaison	Mark Russo		02/07/2016 10:04:45	Utilization of CDC experts in interviews with the media and in meeting with the public regarding legionella, lead, and bathing.
Unified Coordination Group SEOC Liaison	Mark Russo		02/07/2016 09:56:58	2/5/16-(CDC)-complete per ATSDR; state concurred; Completed: Return to programatic function - CDC LEAP (Lead Elimination Program; MI is already receieving grant
Unified Coordination Group SEOC Liaison	Mark Russo		02/07/2016 09:25:44	Technical assistance to evaluate the childhood lead poisoning prevention program (CLPPP) including examination of options for case definitions; methods to assess data trends such as the use of Shewart charts; and methods to view changes in blood lead data over time, including the ability to adjust for seasonal variation when needed.
Unified Coordination Group SEOC Liaison	Mark Russo		02/07/2016 08:18:18	2/1/16-(PHAST SitRep)-GCHD staff support / counseling ; MH Support Activities for AmeriCorps Volunteers; Assist with developing an engagement strategy for GCHD to facilitate outreach efforts to the community members and community partners;
Unified Coordination Group SEOC Liaison	Mark Russo		02/07/2016 08:17:15	2/5/16-(CDC) AmeriCorps volunteer training completed
Unified Coordination Group SEOC Liaison	Mark Russo		02/07/2016 08:16:28	2/1/16-(CDC/ATSDR)-Completed final draft of the CDC Flint Blood Lead Screening Statement which is currently under review by OASH and OS/ASPR. Coordination between ATSDR, EPA, and PHAST group to cross reference houses with high water lead that have been visited and number of times re-sampled.
Unified Coordination Group SEOC Liaison	Mark Russo		02/07/2016 08:14:09	EHO met GCHC sanitarian, state epi resources, and CDC and EPA deployed assets to obtain water and lead testing data results with high lead levels. Working to develop an algorithm of the lead notification process and the messaging that goes along during home visits.
Unified Coordination Group SEOC Liaison	Mark Russo		02/07/2016 08:13:33	2/1/16-(PHAST SitRep)-Assist with developing engagement materials; Technical assistance with creation of mass telephonic communication system; Address GCHD challenges limiting blood lead screening; assisting with case management
Unified Coordination Group SEOC Liaison	Michelle Kuzera		02/05/2016 14:33:34	I will reach out to the Genesee County Health Department and let them know that they can report updates as well.
Unified Coordination Group SEOC Liaison	Michelle Kuzera		02/05/2016 14:32:50	This is the UCG objective 1. As Federal Agencies report on this objective I will update in the comments. Any input from the state side/activities should be reported here as well. Cannot assign two positions. The JIC should also report status updates here if necessary.

UCG Flint Situational Summary
2/8/16
As of 1700

Flint, MI Water Contamination Information Collection Plan Report

EEI # Information Required

20 Water infrastructure testing locations

Chlorine testing – EPA is sampling at various locations throughout the system. In addition, EPA is in the process of setting up a series of standing long-term sampling locations to better evaluate chlorine throughout the system.

Lead testing – EPA is conducting sequential sampling at up to 60 locations where lead infrastructure is known to exist.

Filter Evaluation and Chlorine Residential Screening maps are available on EPA's website (www.epa.gov/flint).
